What is the “Digital Natives” survey?

- Run every two years
- Targets first years during induction week
- Does not attempt to measure ability
- 2065 students surveyed, all Schools represented
- Asks about:
 - Access to technology
 - Prior use of technology
 - Expectations on use at University

Access to technology

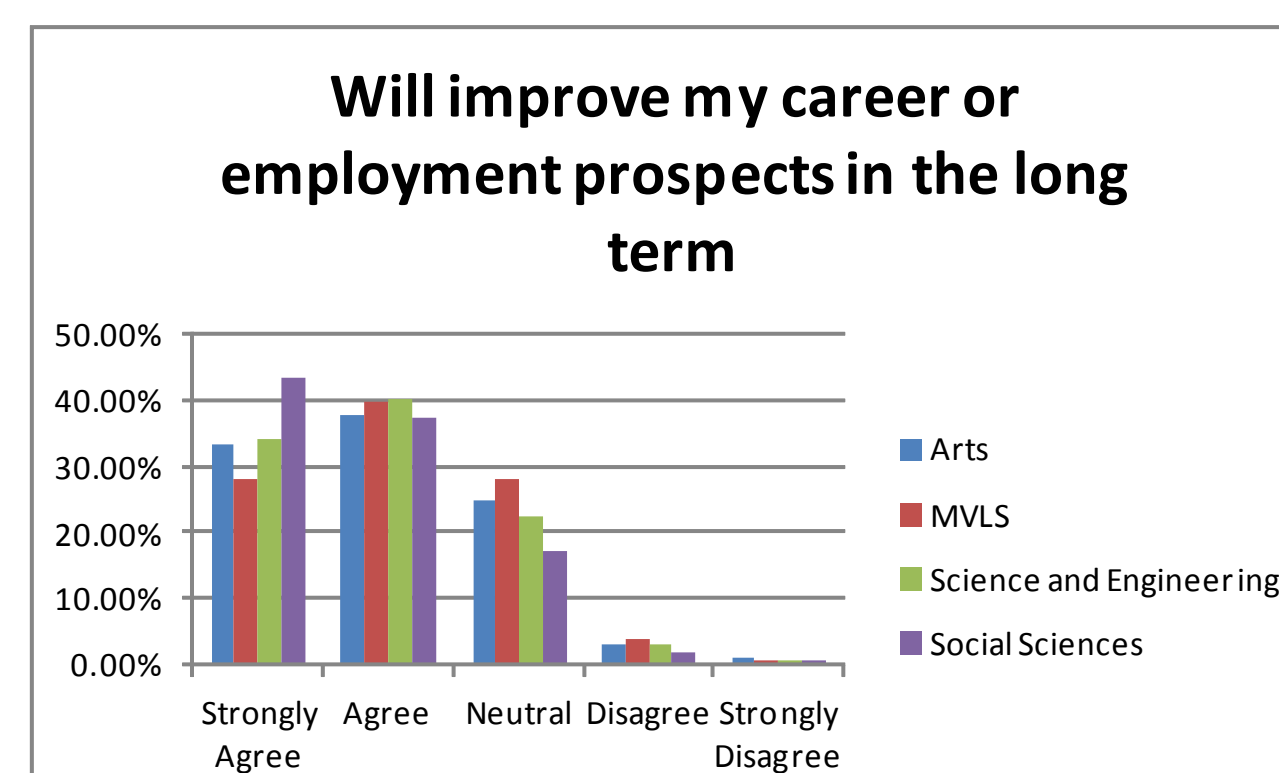

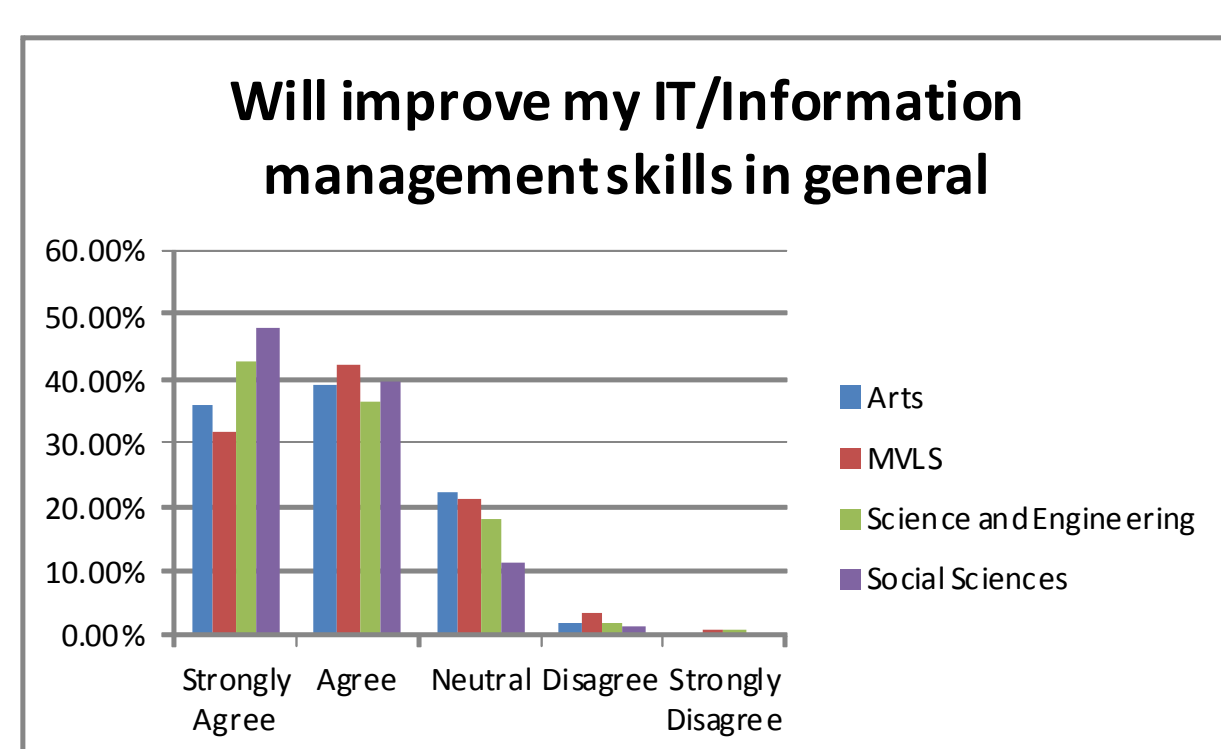

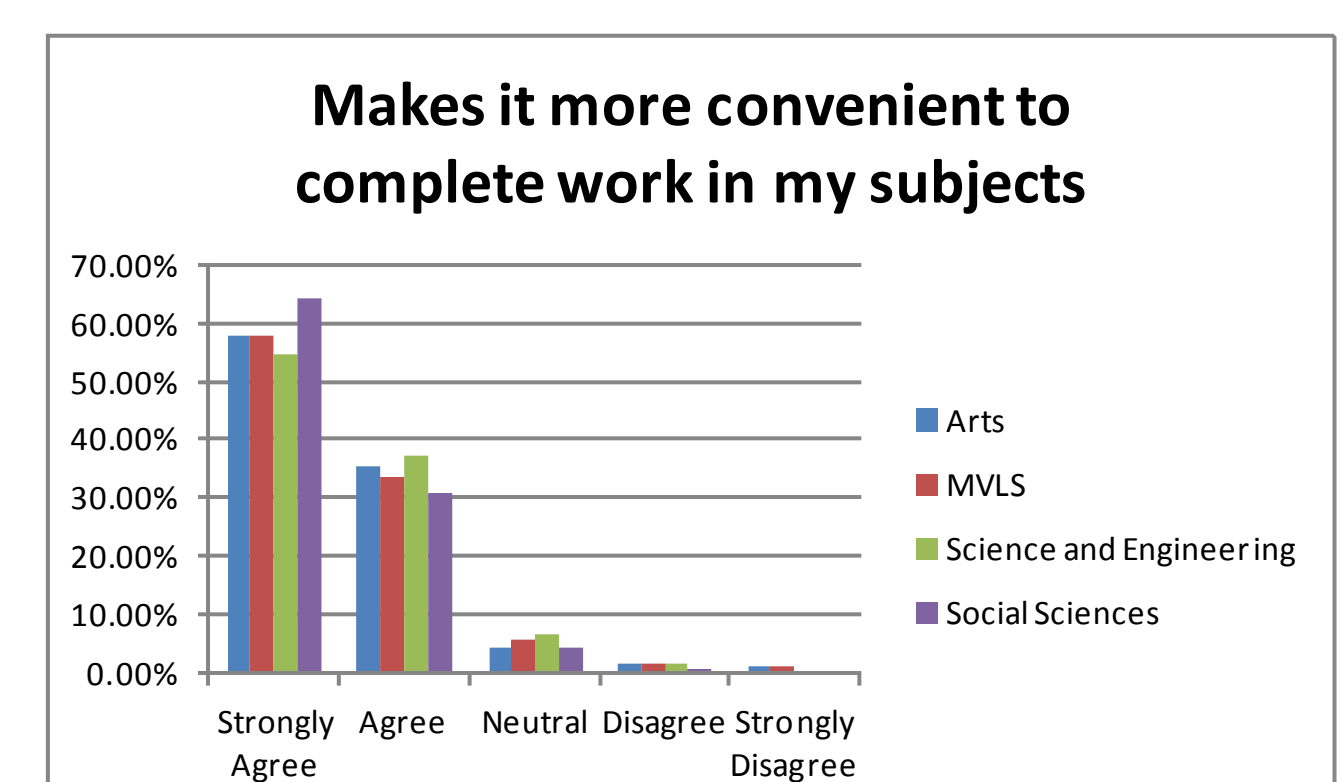

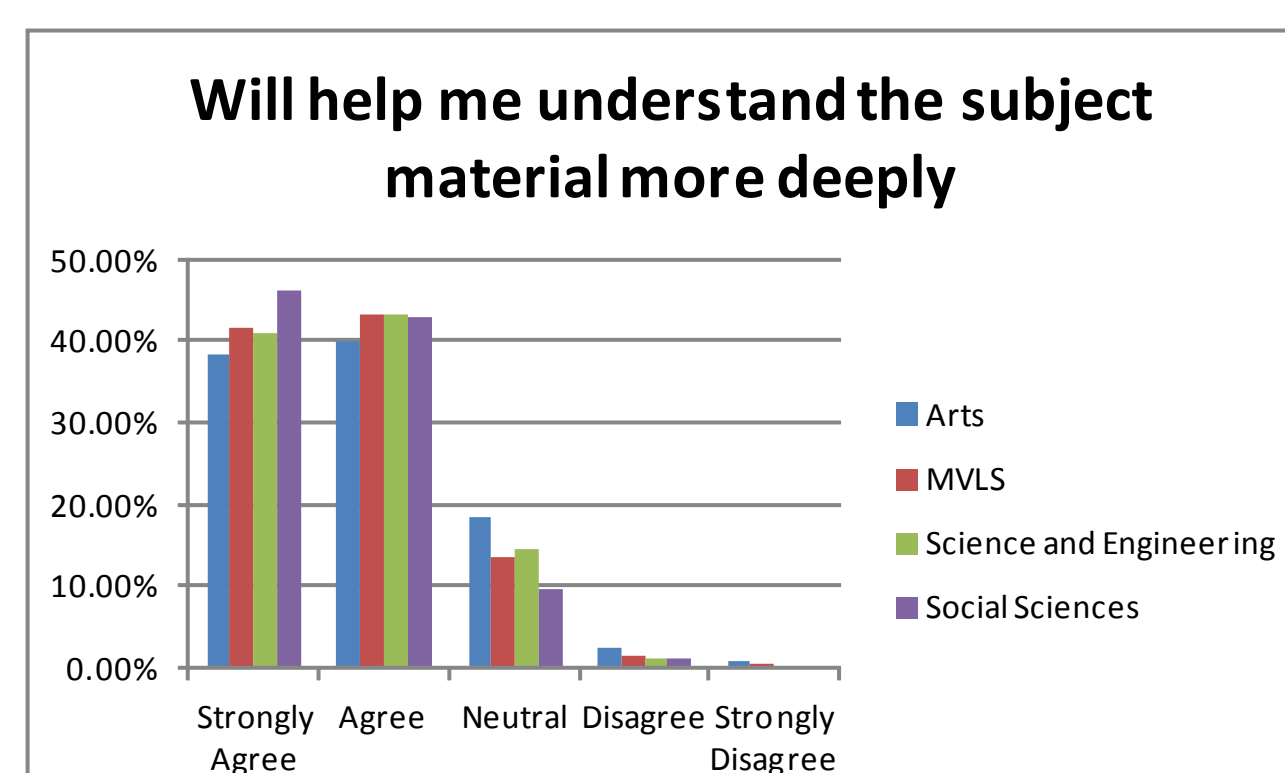

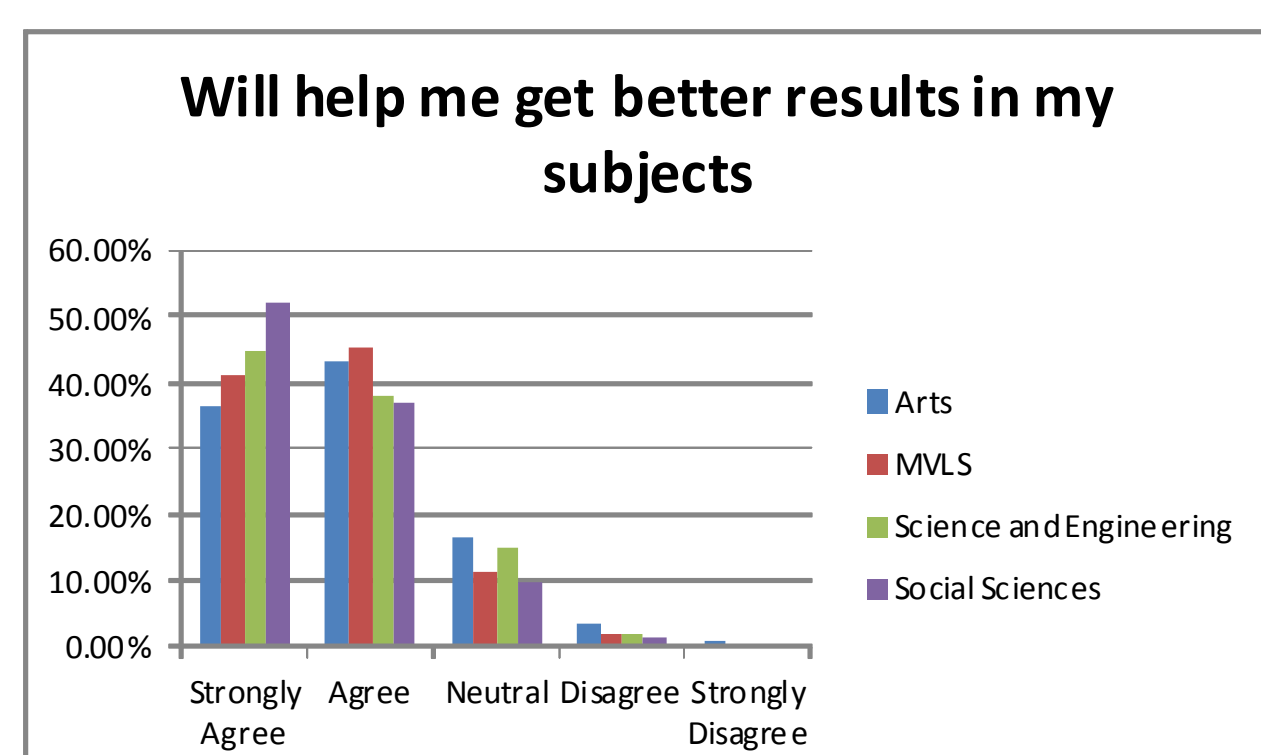

Computer and internet access is (almost) universal

- 99.5% have some access to a computer
- 99.7% have some access to internet
- 96.2% have an MP3 player

Significant shift to mobile computing

- Laptops 94% (up from 72% in 2007)
- Desktops 58% (down from 73% in 2007)
- Smartphones 63% (up from 41% in 2007)

I want to use technology in my studies because it:...

Planning for the Future

93.8% have already used a student portal or content management system

97.6% access social networking sites at least once a month

91.2% would like access to recordings of lectures they have attended
