- To escalate further contact the Facilities Manager for your Zone

## HOW YOU CAN HELP US

- Please don't contact our contractors or their helpdesks directly as it makes it difficult for our team to effectively manage jobs.
- Please ensure your request is detailed and has up to date contact information, as without that our teams often have to make multiple visits or calls to find out what's required.
- Please don't escalate jobs to multiple people, as it slows down the overall process. By following the route for escalation, you are helping to make the process more efficient.
