I APPEALS BY STUDENTS

The Senate is charged by the *Universities (Scotland) Acts* with a duty to superintend the teaching of the University. This is understood to include examining. The Senate has authorised the establishment of Faculty Appeals Committees to hear appeals in the first instance, by undergraduates, by diploma students, and by postgraduate students undertaking prescribed courses leading to a Higher Degree, as specified in the Code of Procedure for Appeals to a Faculty Appeals Committee. A student may further appeal from the decision of the relevant Faculty Appeals Committee to the Senate.

Appeals by postgraduate students in any Faculty or in any associated or accredited institution undertaking research for the award of a Higher Degree are matters for the consideration of the Senate Appeals Committee.

Any appeal giving all the grounds of that appeal must be despatched in writing to the Clerk/Secretary of the relevant Faculty, or to the Clerk of Senate, as appropriate, within 10 days of the intimation to the student of the decision against which he or she is appealing.

Students are advised to consult the Clerk/Secretary of the relevant Faculty before lodging an appeal to the Faculty Appeals Committee and the Head of the Senate Office, in the Senate Office, before lodging an appeal to the Senate Appeals Committee.

The Code of Procedure for Appeals to a Faculty Appeals Committee and the Code of Procedure for Appeals to the Senate are set out in that section of the University *Calendar* entitled 'University Fees and General Information for Students', which is available either from the Faculty Office or The Registry enquiry office in the University.

The Code of Procedure for Appeals by postgraduate students pursuing courses which are taught either wholly or partly in the Glasgow School of Art, and which lead to the award of a degree or Diploma of the University, can be found in the section of the University *Calendar* entitled 'Degrees and Diplomas awarded in conjunction with the Glasgow School of Art'; that Code does not apply to students undertaking a degree by research.

II FEES

Details of the University Fees payable in connection with graduate study can be found in the section of the University *Calendar* entitled *University Fees and General Information for Students*, which is available for consultation in the Registry and Faculty offices and is published at <http://senate.gla.ac.uk/calendar>.

III RESEARCH STUDENTS

Ordinance 350 (General No 12), which came into force in October 1961, governs the admission of Research Students and the appointment of Research Fellows. The following are the provisions of that Ordinance relevant to the admission of Research Students:

- II. The *Senatus Academicus*, with the approval of the University Court, shall have power to make regulations under which any person who has given satisfactory evidence of his or her fitness to engage in special study or research may be admitted to the University as a Research Student.
- IV. Research Students shall have access to and the use of the University laboratories, libraries and museums, subject to the provisions of any Ordinances and under such other conditions as the University Court, after consultation with the *Senatus Academicus*, may determine.

Regulations

The following are the Regulations made under Section II above:

1. Applications for admission to the status of Research Student must be made on the prescribed form, which is obtainable from and should be lodged with the Clerk of Senate, together with evidence of the applicant's character, capacity and qualifications.
2. Each application for admission will in the first instance be referred by the *Senatus* to the appropriate Faculty, or to a Committee appointed by the *Senatus*; one member of such Committee being always the Professor or Lecturer within whose department the proposed line of study or research falls. The Faculty or the Committee shall make a report to the *Senatus* upon each application, and shall recommend no applicant who has not satisfied them by examination or otherwise: (a) that his or her proposed line of study or research is a fit and proper one, and that he or she is qualified to prosecute it; (b) that he or she is of good character; and (c) that he or she proposes to prosecute his or her studies or research during a period to be approved by the *Senatus*.
3. Subject to the regulations of the *Senatus*, the Faculty or the Committee shall provide for the supervision of the work of each applicant admitted by the *Senatus* to the status of Research Student, and shall report to the *Senatus* at least once a year as to his or her progress and conduct. The *Senatus* may suspend or exclude from any course any Research Student whose conduct or progress is unsatisfactory.
4. Every Research Student must matriculate each year, paying the ordinary Matriculation Fee.

5. A Research Student may be required at the discretion of the Head of the Department concerned to report his or her attendance to the supervisor of his or her research, or to the Clerk of Senate, at least once a week in term-time, except during periods when, with the permission of the *Senatus*, he is prosecuting his or her special study or research elsewhere than in the University or in a College affiliated thereto.
6. A Research Student may be required by his or her supervisor to attend as a Private Student classes in the University related to his or her research topic, and may also be required by his or her supervisor to perform the class exercises and take class examinations; but he or she shall not be eligible for prizes in classes so attended and his or her attendance shall not qualify for graduation.
7. All papers arising out of work done in a department shall be submitted before publication to the Professor in charge of the department, and in all such papers, when they are published, a due recognition of the University shall be inserted.

IV POSTGRADUATE DIPLOMAS AND CERTIFICATES

Postgraduate Diplomas and Certificates are awarded in various subjects in all Faculties. They may be awarded jointly with other institutions where the Senate has approved an agreement to that effect. Details of other Postgraduate Diplomas and Certificates may be found in the regulations governing corresponding Masters degrees.

POSTGRADUATE CERTIFICATE IN ACADEMIC PRACTICE¹

- The Postgraduate Certificate in Academic Practice shall be offered by the University of Glasgow in the Teaching & Learning Service (TLS).
- Candidates for admission shall normally be probationary academic members of staff of the University of Glasgow who are required by Senate to complete the New Lecturer Programme, which results in this Certificate, as part of their probation. Other candidates who have teaching related responsibilities in Higher Education, will be considered for entry. Preference will be given to applicants from the University of Glasgow who are probationary academic members of staff.
- The curriculum for the Certificate will extend over a minimum of 2 calendar years of part-time study and will comprise the following modules:
 - Academic Practice in Higher Education
 - Developing a Portfolio of Academic Practice.
 Each module will be valued at 30 Scottish Masters Level credits.
- In order to qualify for the award of the Certificate a candidate must participate in all units of the taught module 'Academic Practice in Higher Education', and must successfully complete the module 'Developing a Portfolio of Academic Practice'. The Board of Examiners shall not normally permit a candidate to resubmit an unsuccessful Portfolio more than once. Any appeal in relation to the Postgraduate Certificate in Academic Practice shall be dealt with under the Appeals procedures of the Faculty of Education.
- Exemptions from the requirement to complete the New Lecturer Programme (which leads to the award of the Certificate in Academic Practice) are outlined in the Human Resources documents *New Lecturer/Teacher Development Procedures* and the *New Lecturer/Teacher Development Procedures - Management Notes*, viz:

Recommendations for exemption or part exemption from the TLS New Lecturer Programme, supported by an appropriate portfolio, should be made by the Head of Department to the Director of the Teaching and Learning Service. Such requests are normally approved where a new lecturer/teacher has the equivalent of three years full time higher education teaching experience and/or has completed the equivalent of the New Lecturer/teacher Development Programme.

¹ The Postgraduate Certificate in Teaching, Learning & Assessment in Higher Education has been replaced by the Postgraduate Certificate in Academic Practice. The GTA module: Approaches to Teaching Learning & Assessment which was delivered on the former programme will still be available for study see: <http://www.gla.ac.uk/services/tls/GTA/index.html>

6. Candidates for whom the programme is not a requirement of probation may apply for credit for not more than the module *Academic Practice in Higher Education* (30 Scottish Masters Level credits) on the basis of previous experience or qualification(s) held. A candidate must submit the appropriate documentation as evidence to substantiate this claim.
7. *Certificate of Basic Information Technology (IT) Competence*

In order to qualify for the award of Postgraduate Certificate in Academic Practice candidates must normally obtain the Certificate of Basic IT Competence, or receive exemption from it on the basis of evidence of having achieved an equivalent level of IT competence.

POSTGRADUATE CERTIFICATE IN ADDICTIONS

General

1. The Postgraduate Certificate in Addictions may be conferred by the University of Glasgow in the Faculty of Education.

Admissions Criteria

2. Every candidate for the Certificate should normally
 - (a) hold a degree of a British university, or a relevant professional qualification recognised as equivalent for this purpose
 - (b) generally be expected to be practitioners in the field with at least five years experience
 - (c) have performed satisfactorily at a selection interview
 - (d) have satisfied the Senate of his or her general capacity to undertake advanced studies

Programme of Study

3. The Certificate is equivalent to 60 ScotCAT credit points at M level.
4. The normal period of study will be 9 months, comprising 18 days attendance, plus self-directed study and supervised practice.
5. The course is delivered in three academic components, which should be completed consecutively in the order presented. There is also an Integrated Practice Study.
6. The three components are:
 - a. Component 1 – Understanding Substance Misuse
 - b. Component 2 – Information Gathering and Assessment
 - c. Component 3 – Interventions
3. Each component will be assessed by one written assignment and there are practical work requirements associated with each component.
4. The Integrated Practice Study will be assessed by a grading system which considers the attainment of the core competencies developed from the National Occupational Standards. Formative assessment integral to the development of competencies is a compulsory part of the Integrated Practice Study.
5. To qualify for the award of the Postgraduate Certificate in Addictions candidates must have satisfactorily completed the three components detailed in 6 above, and the Integrated Practice Study. Normally a grade of D in each component and the Integrated Practice Study is required for the award of the Certificate. In addition, candidates must normally obtain the Certificate of Basic Information Technology Competence in order to qualify for the award.

POSTGRADUATE DIPLOMA IN ADULT AND CONTINUING EDUCATION

General

1. The Diploma in Adult and Continuing Education (Dip. Adult CE) may be conferred by the University of Glasgow in the Faculty of Education.

Admissions Criteria

2. Every candidate for the Diploma should normally hold a degree of a British university, or a qualification recognised as equivalent for this purpose. Those with less traditional qualifications are also encouraged to apply. Experience of involvement in voluntary and community groups, or as an adult student, may be particularly relevant.

Admission with Advanced Standing

3. Candidates who have satisfactorily completed a postgraduate qualification, or equivalent, may be permitted to count not more than two study units (equivalent to 40 SCOTCAT credit points at M level) towards the Diploma.
4. Candidates, other than those referred to in Section 3 above, may in exceptional circumstances be awarded credit for up to two study units, on the basis of assessment of prior learning (APL).

Programme of Study

5. The requirements for the degree may be fulfilled by full-time or part-time study or a combination of both. The normal period of study for full-time Diploma will be one academic year and for part-time Diploma two academic years.
6. The Diploma course will consist of 6 units of study (each equivalent to 20 SCOTCAT credit points at M level). These are:
 - (a) Principles and Theories of Adult and Continuing Education
 - (b) The Psychology of Adult Learning
 - (c) Issues in Adult and Continuing Education
 - (d) Theory of Educational Research
 - (e) Specialist Option 1
 - (f) Specialist Option 2

The Faculty Higher Degrees Committee may approve an appropriate alternative course from a Master's programme in Education or another Faculty to substitute for 6 (e) or (f).
7. For each qualifying study unit, assessment will normally be based on one or two pieces of prescribed work.
8. The balance of the nature of the assessed work, and weighting where there are two pieces of assessed work, will be agreed by the course tutors, subject to the approval of the course team.
9. Normally a grade of at least D- is required in the appropriate six study units for the award of the Diploma.
10. Students initially registered for the Diploma may apply for transfer to the MSc in Adult and Continuing Education subject to good performance in courses. Criteria for progression from Diploma to MSc are set out in the programme handbook.
11. The Diploma may be conferred with distinction. The criteria for distinction are set out in the programme handbook.
12. All candidates must normally obtain the Certificate of Basic Information Technology Competence in order to qualify for the Diploma In Adult and Continuing Education.

POSTGRADUATE CERTIFICATE IN ADULT LITERACY AND NUMERACY**General**

1. The Certificate in Adult Literacy and Numeracy shall be offered by the University of Glasgow in the Faculty of Education.

Admissions Criteria

2. Candidates for the Certificate must normally hold a degree of a British University, or a qualification recognised as equivalent for this purpose. Those with less traditional qualifications are also encouraged to apply. Experience of involvement in voluntary and community groups may be particularly relevant.

Programme of Study

3. The requirements for the Certificate may be fulfilled by part-time study for a period of one academic year.
4. The Certificate course will consist of three units of study (each equivalent to 20 SCOTCAT points at M level). These are:

Core Courses

- (a) Adult Literacy and Numeracy
- (b) Action Research in Adult Literacy and Numeracy.

Options (one to be chosen from the following)

- (a) Curriculum Development
- (b) Popular Education in Latin America
- (c) New Technology and Lifelong Learning

5. For each qualifying study unit, assessment will normally be based on one or two pieces of prescribed work. The balance of the nature of the assessed work, and the weighting where there are two pieces of work, will be agreed by the course tutors, subject to the approval of the course team.
6. All students must normally obtain the Certificate of Basic Information Technology Competence in order to qualify for the Certificate.
7. Normally a grade of at least D- is required in each of the three study units for the award of the Certificate.

POSTGRADUATE DIPLOMAS IN THE FACULTY OF ARTS²

The general regulations governing Postgraduate Diplomas in the Faculty of Arts are as follows:

1. A Candidate for the Postgraduate Diplomas must be a graduate of a Scottish University or of another University approved by the *Senatus* or possess such other qualifications as the *Senatus* may recognise as satisfactory in any given case. A candidate must also satisfy the special entrance requirements prescribed for particular courses.

² Subject to Senate approval

2. The period of study for each Postgraduate Diploma shall be prescribed by the Faculty and shall not be less than one academical year of full-time study (September to June) or two academical years of part-time study. A candidate must be a matriculated student of the University during each year of study and shall pay the appropriate fee.
3. The course of study shall consist of such courses of instruction and individual work as the Faculty may prescribe for each Postgraduate Diploma.
4. On the completion of a candidate's course of study his or her work shall be tested by such examination as may be prescribed. An examination may be made up of components such as examination papers, submitted essays, language assignments, both oral and written, dissertations and project or field reports. One of the Examiners shall be an External Examiner appointed by the University Court on the recommendation of the *Senatus*.
5. If a candidate's work thus tested is reported by the Examiners to the *Senatus* as satisfactory, he or she shall be entitled to receive the Postgraduate Diploma in the chosen subject. The Diploma may be awarded with Distinction.
6. A candidate who fails to satisfy the examiners for the diploma may be permitted by the examiners to present himself or herself for re-examination, on one occasion only and normally not later than two years from the date of his or her first (final) examination, in the whole of the examination, or in a specific component of the examination, as the examiners may determine in each case; and in such cases the examiners shall prescribe whether the candidate shall be required to re-attend the whole course or specific parts of the course, or whether he or she may be permitted to present himself or herself for re-examination without further attendance on the course.

The Postgraduate Diploma courses available, and the Departments in which they are offered, are as follows:

<i>Diploma Course</i>	<i>Department</i>
Russian Language	School of Modern Languages and Cultures (Slavonic)

Detailed syllabi may be obtained from the Head of the Department concerned to whom enquiries about admission should be addressed.

POSTGRADUATE DIPLOMA IN CLINICAL NUTRITION

The Postgraduate Diploma in Clinical Nutrition is a course of full-time study taken over a period of 6 months. It is designed to be taken by medical graduates or graduates with degrees in other health-related disciplines.

The course will be offered in the October of each year;

Students are required to undertake core courses in the following:

- Foods, Nutrients and Dietary Recommendations
- Digestion and Absorption
- Body Composition and Energy Expenditure
- Dietary Assessment
- Nutritional Aspects of Growth, Development and Ageing
- Public Health Nutrition
- Food Choice and Eating Behaviour
- Nutritional Assessment
- Medical Statistics and Data Analysis
- Clinical Nutrition

Students will be assessed by examination in April.

Students wishing to transfer to the Masters degree MSc (MedSci) are required to achieve an overall result of a minimum of 50%.

Certificate of Basic Information Technology (IT) Competence

Every student must normally obtain the Certificate of Basic IT Competence in order to qualify for the award of the Degree of Master of Science (Medical Science).

PROFESSIONAL GRADUATE DIPLOMAS IN EDUCATION (ITE)

The Regulations for the Professional Graduate Diplomas in Education (Primary or Secondary), which are courses of Initial Teacher Education, are set out in the Faculty of Education section of the University *Calendar*.

POSTGRADUATE CERTIFICATES AND DIPLOMAS IN EDUCATION

1. Postgraduate Certificates and Diplomas in Education may be awarded by the University of Glasgow in the Faculty of Education.

2. Candidates for Certificate or Diploma courses shall normally have a degree or equivalent qualification, an initial teaching qualification and have or be eligible for full registration with the General Teaching Council. Appropriate work experience may also be a requirement for admission to certain courses. A selection interview may be required.
3. For a Certificate, normally the minimum period of part-time study is one year and the maximum period of part-time study is four years. For a Diploma, normally the minimum period of part-time study is two years and the maximum period of part-time study is four years.

Postgraduate Certificates and Diplomas are offered in the following:

- Early Childhood Education
- Religious Education / Religious and Moral Education
- School Leadership and Management (SQH)
- Support for Learning

Postgraduate Certificates are offered in the following:

- The Arts in Education
- Learning and Teaching of Modern Languages in the Primary School
- Physical Education in the Primary School
- Religious Education with Additional Teaching Qualification.
- School Management
- Theology and Ministry

4. The list of qualifying modules for each Certificate and Diploma is available from the relevant department. Core modules are compulsory. Some optional modules may not be available every session. Successful completion of four modules, or equivalent, (60 points at SM level) is required for the award of a Certificate. Successful completion of eight modules or equivalent, (120 points at SM level) is required for the award of a Diploma.
5. *Certificate of Basic Information Technology (IT) Competence*
Every student must normally obtain the Certificate of Basic IT Competence in order to qualify for the award of a Postgraduate Certificate or Diploma in Education.
6. All courses and modules operate within the SCOTCAT framework at postgraduate or Scottish Master's (SM) level for the purposes of credit accumulation or transfer. Final decisions regarding credit transfer requests reside with the Higher Degrees Committee.
7. Within the terms of the SCOTCAT framework, candidates may apply for accreditation of prior learning (APL). The regulations governing such applications are set out in the document Accreditation of Prior Learning at Postgraduate SM Level. No more than 30 SM points of APL will be recognised for a postgraduate Certificate and no more than 60 SM points will be recognised for a postgraduate Diploma. The procedure for submitting an APL claim may be initiated through the relevant course leader.
8. A variety of modes of assessment may be used. Students who fail to satisfy the examiners are permitted to resubmit assessments or resit examinations on one occasion only.
9. At the discretion of the Board of Examiners, candidates who fail to satisfy the requirements for a Diploma may be awarded a Certificate.

POSTGRADUATE CERTIFICATE IN PHYSICAL EDUCATION IN THE PRIMARY SCHOOL

The Certificate will address the issues of teacher confidence and competence in the teaching of Primary Physical Education and will examine the many factors influencing the nature and delivery of physical education in the primary curriculum.

1. Admissions Criteria

Candidates for the Certificate shall normally have a degree or equivalent qualification, an initial teaching qualification in Primary Education or Physical Education and have, or be eligible for, full registration with the General Teaching Council for Scotland.

2. Programme of Study

The minimum period of part-time study is two years and the maximum period of study is four years.

3. The Certificate will consist of four compulsory courses of 15 Master's level credits:

- The Primary Physical Education Curriculum 1
- The Primary Physical Education Curriculum 2
- Working with Others
- Independent Research Project

4. Assessment

Assessment will be by essay, presentation and a project. Candidates who have failed to satisfy the Board of Examiners may be allowed to resubmit work for assessment on one occasion only.

POSTGRADUATE DIPLOMAS AND CERTIFICATES IN ENGINEERING

Regulations

1. A Faculty of Engineering Postgraduate Diploma will be awarded to students attaining 120 credits. A Faculty of Engineering Postgraduate Certificate will be awarded to students attaining 60 credits.
2. A candidate for the Diploma must have obtained a Degree from a University approved by the *Senatus Academicus* or possess such other qualification (for example, the qualification of Chartered Engineer) as the *Senatus* may recognise as satisfactory in any given case. Entry into the fast track route of the Advanced Diploma will only be considered for students with BEng (Honours) degrees and only then if they can show that they have taken courses (or gained experience) providing appropriate background for the proposed courses of study.
3. The period of study for each Diploma shall be prescribed by the Faculty of Engineering and shall not be less than one academic year of full-time study or two academic years of part-time study, and one or two academic years of full time, or two or four years part time study for the Advanced Diploma. A candidate must be a matriculated student of the University during each year of study and shall pay the appropriate fee.
4. The curriculum shall consist of such courses of instruction and individual work as the Faculty shall prescribe for each Diploma or Advanced Diploma. In each year of study a candidate shall be deemed to have completed the curriculum when he or she has attended classes regularly and duly performed all prescribed work.
5. On the completion of each candidate's curriculum his or her work shall be tested by such examination as may be prescribed for each Diploma or Advanced Diploma. A candidate may not present himself or herself for re-examination without special permission of the examiners. One of the examiners shall be an External Examiner appointed by the University Court on the recommendation of the *Senatus*.
6. If a candidate's work thus tested is reported by the examiners to the *Senatus* as satisfactory, he or she shall be entitled to receive a Diploma or Advanced Diploma in the appropriate subject. A Diploma or Advanced Diploma may be awarded with distinction or with merit.
7. In all subjects, the prescribed period of study shall be one academic year full-time for Diplomas and one or two academic years for Advanced Diplomas.
8. Post Graduate Diplomas are offered in all Engineering subjects listed under schedule 'B' of the regulations for the Degree of Master of Science, Master of Science by Prescribed Courses.
9. The Faculty of Engineering also offers Advanced Postgraduate Diplomas as indicated below.

FURTHER DETAILS OF MASTER OF SCIENCE DEGREES IN ENGINEERING (SCHEDULE B) AND POSTGRADUATE DIPLOMAS FALLING UNDER THE ABOVE REGULATIONS.

Civil Engineering and Related Subjects³

1. The Universities of Glasgow and Heriot-Watt offer joint Diploma and Master of Science Degree programmes in Geotechnical Engineering and Water Resources Engineering Management. These programmes are administered by a Joint Board of Studies in Civil Engineering which will, subject to the approval of the Senates of both Universities where appropriate, be responsible for the content of programmes, admission of candidates, approval of candidates' curricula, conduct of examinations, award of the Degree and Diploma, and related matters. The Board of Studies shall have a Director.
2. All candidates must, before admission, have obtained a degree in Civil Engineering (or a cognate discipline) from a recognised University, or be chartered engineers with at least five years' industrial experience, or exceptionally possess another qualification accepted by the Board of Studies as suitable for admission.
3. Candidates may pursue study on either a full-time basis or a part-time basis. The normal minimum periods of study shall be as follows:

Diploma	Full-time	8 months
	Part-time	20 months
Degree of MSc:	Full-time	12 months
	Part-time	24 months
4. Programmes shall be constructed from taught compulsory and optional modules. Each taught module shall consist of approximately 30 hours' teaching (lectures, tutorials, supervised laboratory, drawing office and computing laboratory classes) and assessment will be by examination and coursework.

³ Run jointly with Heriot-Watt University.

5. Each module will only be examined once a year. Candidates who fail a module one year may retake the examination in the next year. For each module, candidates may present themselves for re-examination on one occasion only and normally not later than two years from the date of their first attempt.
6. On satisfactory completion of the examinations and coursework assessments, candidates for the MSc degree are required to undertake a 4 month project.
Candidates will be required to submit a dissertation on the project in September. There may be an oral examination at the discretion of the examiners.
7. Candidates who do not obtain sufficient passes in the examinations and coursework assessments may be awarded the Diploma. Similarly, candidates for the MSc degree who satisfy the examiners in the written examinations and coursework assessments, but who do not submit a completed dissertation or do not satisfy the examiners in their dissertation may be awarded the Diploma.
8. Programme modules. In the following lists, G and HW indicate modules offered by Glasgow and Heriot-Watt Universities respectively.

Geotechnical Engineering

Modules:

Environmental Geotechnics (HW)
 Foundation Engineering (G)
 Ground Engineering (HW)
 Geological Techniques in Site Investigations (HW)
 Critical State Soil Mechanics (G)
 Numerical Analysis (G)
 Geotechnical Design Studies (G)
 Soil Dynamics (G)
 Problem Soils (G)
 Rock Mechanics (HW)
 Dissertation (HW/ G)

Water Resources Engineering Management

Modules:

Geographical Information Systems (G)
 Computer Simulation of River Flood Flows (HW)
 Water Quality Modelling in Rivers (HW)
 Environmental Hydrology and Water Resources (HW)
 River Engineering (G)
 Environmental Infrastructure & Process (G)
 Integrated Catchment Modelling (G)
 Environmental Economics (G)
 Environmental Policy and Wastewater Treatment (HW)
 Drainage Design and Analysis (HW)
 Pressure Surges in Water Systems (G)
 Dissertation (HW/G)
 Groundwater Flow and Contamination (HW)

Flood Risk Management

Modules:

Geographical Information Systems (HW)
 Coastal Flood Defence (HW)
 Computer Simulation of River Flood Flows (HW)
 Environmental Hydrology and Water Resources (HW)
 River Engineering (G)
 Environmental Infrastructure & Process (G)
 Integrated Catchment Modelling (G)
 Environmental Economics (G)
 Urban Drainage Design and Analysis (HW)
 Pressure Surges in Water Systems (G)
 Dissertation (HW/G)

9. Not all modules may be available in every year, and alternative modules may be substituted at the discretion of the Board of Studies.
10. The choice of modules by candidates will be subject to the approval of the Director of the Board of Studies in consultation with the Heads of Departments or Course Tutors concerned.

11. For the programmes offered jointly with Heriot Watt University, candidates will be registered simultaneously in both Universities and will normally be awarded their degrees from the University in which the majority of modules are undertaken. For this purpose the dissertation will be considered equivalent to five taught modules.⁴

Electronics and Electrical Engineering

Diploma in Electronics and Electrical Engineering

The Diploma in Electronics and Electrical Engineering will be awarded to students gaining 120 credits. Candidates for the Diploma are required to undertake a project and submit a dissertation. 40 credits may be earned from Diploma project work.

Each module earns 20 credits.

Modules are currently offered in topics in the following list which is continually under review:

- Computer Communications
- Optical data transmission, sensing and signal processing
- High Speed Electronics
- Modelling and Control of Dynamic Systems
- Digital Signal Processing
- Electric Energy Systems
- Micro- and Nano-technology

OTHER POSTGRADUATE AWARDS

Advanced Postgraduate Diploma in Aeronautical Engineering: Standard route

In this programme the student takes the following subjects including all appropriate laboratory and design classes:

Year 1:

<i>Course</i>	<i>Credits</i>
Aircraft Vibration & Aeroelasticity 4	(10)
Flight Dynamics 4	(10)
Physics of Fluids 4	(10)
High Speed Aerodynamics 4	(10)
Aircraft Structures & Materials 4	(10)
Aerospace Design Project 4	(20)
Flight Testing 4	(10)
Foundations in Law El	(10)
Research Project 4	(20)
20 credits from list A (above) except Flight Testing 4	(20)

Year 2:

<i>Course</i>	<i>Credits</i>
Aeroelasticity 5	(10)
Aircraft Structures & Materials 5	(10)
Aircraft Handling Qualities & Control 5	(10)
Aircraft Operations & Systems 5	(10)
Professional Studies 4	(10)
Aerospace Group Design Project 5	(30)
Research Project 5	(30)
20 credits from list B	(20)

List B:

<i>Course</i>	<i>Credits</i>
Space Craft Systems 5	(10)
Rotodynamic Machinery 5	(10)
Experimental Aerodynamics 5	(10)
Marketing Function El	(10)

Examinations

Each candidate will take examinations on the above topics.

The final assessment will be based on the examinations in addition to the projects.

⁴ This provision may be subject to amendment following conclusion of discussions on a Memorandum of Agreement between Glasgow and Heriot-Watt Universities.

Advanced Postgraduate Diploma in Aeronautical Engineering: Fast track

In this programme the student takes the following subjects including all appropriate laboratory and design classes:

<i>Course</i>	<i>Credits</i>
Aeroelasticity 5	(10)
Aircraft Structures & Materials 5	(10)
Aircraft Handling Qualities & Control 5	(10)
Aircraft Operations & Systems 5	(10)
Professional Studies 4	(10)
Aerospace Group Design Project 5	(30)
Research Project 5	(30)
20 credits from list C	(20)

List C:

<i>Course</i>	<i>Credits</i>
Space Flight Dynamics 4	(10)
Computational Fluid Dynamics 4	(10)
Rotorcraft Aeromechanics 4	(10)
Lasers & Electro-Optical Systems M4	(20)
Avionics Systems 4	(20)
Flight Testing 4	(10)
Space Craft Systems 5	(10)
Rotodynamic Machinery 5	(10)
Experimental Aerodynamics 5	(10)
Managerial & Organizational Context	(10)
Marketing Function El	(10)

Examinations

Each candidate will take examinations on the above topics.

The final assessment will be based on the examinations in addition to the projects.

Other

For diplomas in other branches of Engineering please refer to the appropriate department for details of currently available modules.

POSTGRADUATE DIPLOMA IN FINANCIAL STUDIES

- The Diploma in Financial Studies is a nine-month advanced course in Accounting and Finance.
- It is specifically designed for those wishing to deepen, consolidate, and extend their knowledge in financial studies prior to embarking upon research and higher degree studies.
- Applicants should be graduates of a recognised University, or hold an equivalent qualification. Candidates of particular merit and with relevant job experience who do not hold such a qualification may also be admitted on the recommendation of the Head of the Department of Accountancy. Candidates whose native language is not English shall normally be required to submit evidence of their proficiency in English.
- Candidates will be required to take eight of the following 20 hour modules, chosen in consultation with, and with the approval of, the Head of the Department of Accountancy:
 - Environment of International Business
 - Corporate Finance
 - Accounting Theory and Financial Reporting
 - Management and Accounting Information Systems
 - International Financial Management
 - International Banking and Financial Markets
 - International Accounting
 - International Strategy and Risk Management
 - Investment Analysis and Portfolio Theory
 - Managerial Accounting: A Decision-Making Perspective
- Not all modules may be available in every year, and additional modules may be instituted on the recommendation of the Faculty of Law, Business and Social Sciences.
- A candidate shall be examined at a diet of examinations consisting of eight two-hour papers at the end of each year. At the discretion of the examiners, assessment of work during the period of study may be taken into account to the extent of not more than 20% of the total assessment of each candidate. The pass-mark for each subject will be 50%. Resits will be permitted in

September and in any subject only the final examination component will be re-examined. A maximum of four subjects may be re-examined.

POSTGRADUATE CERTIFICATE, DIPLOMA AND MSc IN HOUSING STUDIES

The Housing Studies Programme provides a postgraduate level professional qualification in housing. The Programme is designed to provide students with an understanding of the development of housing systems and policies and to provide a framework for discussing the management, finance, development and strategic management of housing. The course also aims to provide students with a range of skills and knowledge needed by housing professionals. It is validated by the Chartered Institute of Housing as providing the academic components for entry to the professional body as a corporate member.

1. Duration

Candidates may pursue study on either a part-time or a full-time basis. The Programme may also be pursued on a modular basis, by students taking individual subjects to build up credits towards the qualification. The minimum period of study is one year and the maximum is four years. The normal periods of study for the Diploma / Degree of MSc are one year (full-time) and two years (part-time).

2. Admission

Students admitted to the course will normally possess a degree from a recognised university. Other candidates who have acquired five years professional experience may be admitted on their merits.

3. Exemptions

Entrants already holding a University Degree, or relevant professional qualification, in cognate subjects may be granted exemption from particular subject assessments by the Board of Examiners. Students may also be awarded credit for prior experiential learning if they can demonstrate to the Board of Examiners that their practical work experience has provided the learning outcomes required in particular subject areas.

4. Syllabus

The subjects assessed are:

4.1 Year 1 Part-time Route

<i>Course</i>	<i>Requirement</i>
Scottish Housing Law	Assignment (2,500 words)
Housing Policy	Assignment (2,500 words)
Governance of Housing	Assignment (2,500 words)
Housing Finance and Economics	Assignment (2,500 words) (50%) Examination (2 hours; 3 questions from 8) (50%)
Housing Management Practice	Assignment (2,500 words) (40%) Oral Presentation (10%) Examination (2 hours; 3 questions from 8) (50%)

4.2 Year 2 Part-time Route

<i>Course</i>	<i>Requirement</i>
Management In Housing Organisations	Assignment (2,000 words) (25%) Assignment (2,000 words) (25%) Examination (3 hours; 4 questions from 10) (50%)
Sustainable Housing & Community Development	Assignment (3,500 words) (40%) Oral Presentation (10%) Examination (3 hours; 4 questions from 10) (50%)
Option 1	Assignment (2,500 words)
Option 2	Assignment (2,500 words)
MSc Dissertation	Dissertation (12,000-15,000 words)

The options may include:

- Research for Urban Policy
- Housing & Community Care
- Community Participation
- Local Housing Systems Analysis
- Crime and Community Safety
- Regeneration and Health: Making the Connections
- Designing the Urban Environment
- Evaluation and Regeneration
- Neighbourhood Renewal
- Housing and Social Inclusion

Not all options will be available every year, and all are subject to a minimum take up. Further options may be added, subject to approval.

All students must normally obtain the Certificate of Basic Information Technology Competence.

In addition students will be expected to attend an introductory block and two study visits as part of the programme.

5. Summative Assessment

- (a) All courses must be taken and passed before an award can be made.
- (b) Examinations will be held in May/June each year and resit examinations will be held in August/September. There may be an additional oral examination at the discretion of the examiners.
- (c) Students must obtain an overall pass in each course. The pass for each course is 50% of the available marks. In subjects that are assessed by examination and coursework, each element of assessment must be awarded at least 40% of the marks available for the element. If the marks for either element fall below 40%, that element must be retaken or resubmitted, even if the overall mark is 50% or more.
- (d) Late submission of coursework, without good cause, will be penalised by deduction of marks on a sliding scale of up to 10% of the marks awarded for that item. Submissions more than four weeks late will be awarded no marks.
- (e) Students who fail a course at the first attempt will normally be required to resit the examination and/or resubmit coursework at the next available opportunity. Students who still fail to achieve a pass will normally be given one further opportunity not later than two years from the date of the first Board of Examiners' meeting which considered that course.
- (f) The Board of Examiners shall determine which elements of assessment should be retaken and whether the candidate should be required to re-attend the whole course or specific parts of it.
- (g) Normally, part-time students will be permitted to carry only one subject over to the following year.
- (h) A Diploma with Distinction may be awarded on the basis of a high level of performance on the programme as a whole.

6. MSc in Housing Studies

6.1 Admission

Students who perform well in their initial set of core modules (normally an average of 65%) will be invited to transfer to the MSc in Housing Studies.

6.2 Syllabus

The remaining course taken will be as described for the Diploma except that MSc students must

- (a) submit a dissertation of 12,000-15,000 words by 30th September in their final year, and
- (b) take the Research for Urban Policy course instead of the second optional course.

6.3 Assessment

- (a) The MSc will be awarded on the basis of a high level of performance in the remaining courses (normally an average of 65%) and successful completion of the dissertation. Students who fail to achieve this standard will be permitted to present themselves for re-examination on one occasion only, in no more than two courses, not later than two years from the date of the first Board of Examiners' meeting which considered the module.
- (b) The Board of Examiners shall determine which elements of assessment should be retaken, and whether the candidate should be required to re-attend the whole course or specific parts of it.
- (c) Students who still fail to satisfy the examiners will be considered for an award of the Diploma.
- (d) Students whose overall performance has averaged at least 70%, with no mark in any one subject having fallen below 60%, will be awarded the MSc with Distinction.

7. Certificate in Housing Studies

The Certificate in Housing Studies will be awarded to students who achieve half of the total credits for a Diploma. It is not regarded as a professional qualification nor validated by the Chartered Institute of Housing, and students will not be admitted to the Programme with the objective only of completing the requirements for the award of the Certificate.

POSTGRADUATE DIPLOMA IN HUMAN NUTRITION

The Postgraduate Diploma in Human Nutrition is a course of full-time study taken over a period of 6 months. It is designed to be taken by graduates with an Honours Degree in Science or a General Degree containing specialist subjects such as Nutrition or Dietetics.

The course will be offered in the October of each year;

Students are required to undertake core courses in the following:

- Foods, Nutrients and Dietary Recommendations
- Digestion and Absorption
- Body Composition and Energy Expenditure
- Dietary Assessment
- Nutritional Aspects of Growth, Development and Ageing
- Public Health Nutrition
- Food Choice and Eating Behaviour
- Nutritional Assessment
- Medical Statistics and Data Analysis

Students are required to select one option from the following specialist modules:

Students are required to undertake core courses in the following:

- Sports Nutrition
- Advanced Public Health (including options for Third World Nutrition)
- Clinical Nutrition

Students will be assessed by examination in April.

Students wishing to transfer to the Masters degree MSc(MedSci) are required to achieve an overall result of a minimum of 50%.

Certificate of Basic Information Technology (IT) Competence

Every student must normally obtain the Certificate of Basic IT Competence in order to qualify for the award of the Degree of Master of Science (Medical Science).

DIPLOMA IN LEGAL PRACTICE

The Regulations for the Diploma in Legal Practice are set out in the 'Faculty of Law, Business and Social Sciences' section of the University *Calendar*.

POSTGRADUATE DIPLOMA IN LOCAL ECONOMIC DEVELOPMENT

The Diploma in Local Economic Development is offered on a part-time modular basis over a minimum of two and a maximum of five years.

Students who pass all modules at the first attempt with an average of not less than 60% may be admitted to the MSc in Local Economic Development.

The additional work required for the MSc is a dissertation of 15,000 - 20,000 words.

Students are required to undertake core courses in:

- Delivering Economic Development
- Local Economic Development

A series of electives is also available from which students must choose four. The course is assessed on the basis of project work and final exams, with equal weighting given to each. This course is organised under the SCOTCATS rubric. The course is also available on a distance learning basis.

POSTGRADUATE DIPLOMA IN RUSSIAN AND EAST EUROPEAN STUDIES

This is normally a nine-month course full-time but may be taken part-time over twenty-one months. Candidates are assessed on four options chosen from the list below. There is no language or dissertation requirement.

At the discretion of the Head of Department it may be possible to select one course from a variety of courses being offered by other Departments of the University of Glasgow.

Essays and Examinations

1. For each Diploma option students are normally required to submit two assessed essays of about 2,000 to 3,000 words each. Details of submission deadlines and requirements are given in the course documentation for each option.
2. The results of the essays will be taken into account in the final assessment of students' performances and count for 30% of the overall mark. The essays should therefore be retained by the members of staff in charge of courses and stored in the office, but students may wish to make copies for their own use.
3. At least three of the four options that students choose are assessed (in May/June of the session in which they are taken) by a three-hour, three question examination paper. One may be assessed instead by one long essay (8,000 - 10,000 words). Such essays in lieu of examination will be quite distinct from, and in addition to, those referred to in paragraph 1. The topics of these essays must be agreed by the end of the second term, and the essays must be submitted before the date set for the relevant examination.

4. The mark awarded for the examination/long essay comprises 30% of the overall mark for each course.

Examiners' Decisions

Each examination script or essay in lieu is read and assessed by two Internal Examiners and by the External Examiner. The External Examiner participates in the Examiners' Meeting and signs the resulting recommendations that are made to the Faculty Higher Degrees Committee.

Each script or essay is given a mark out of 100. The marks are then aggregated and the total is rendered as a percentage. The overall pass for the Diploma is 50%.

It is also open to the Examiners to recommend that a candidate resit one examination or resubmit one essay in lieu.

Courses Offered in the Diploma in Russian and East European Studies, 2001 - 2002

Civil Society and the State in Central and East European Studies

Cultural Politics and Social Change in Post-Soviet Russia

An Economic and Social History of Eastern Europe 1918-1989

History of International Communism

History of Marxist Thought

History of the USSR

Marxist Political Economy

The Political Economy of Central and Eastern Europe

Political Economy of the Disintegration of the USSR

Russian and Post-Communist Politics

The Russian Revolution 1917-1921

Russian State: Sandwiched Between Globalisation and Devolution

POSTGRADUATE DIPLOMAS IN THE FACULTIES OF SCIENCE

The general regulations governing Postgraduate Diplomas in the Faculties of Science are as follows:

1. Candidates for the Postgraduate Diplomas must be graduates of a Scottish University or of another University approved by the *Senatus* or possess such other qualifications as the *Senatus* may recognise as satisfactory in any given case. Candidates must also satisfy the special entrance requirements prescribed for particular courses.
2. The period of study for each Postgraduate Diploma shall be prescribed by the Faculty and shall not be less than one academical year of full-time study or two academical years of part-time study. Candidates must be matriculated students of the University during each year of study and shall pay the appropriate fee.
3. The course of study shall consist of such courses of instruction and individual work as the Faculty may prescribe for each Postgraduate Diploma.
4. On the completion of a candidate's course of study his or her work shall be tested by such examination as may be prescribed. One of the Examiners shall be an External Examiner appointed by the University Court on the recommendation of the *Senatus*.
5. If a candidate's work thus tested is reported by the Examiners to the *Senatus* as satisfactory, he or she shall be entitled to receive the Postgraduate Diploma in the chosen subject. The Diploma may be awarded with Distinction.
6. A candidate who fails to satisfy the examiners for the diploma may be permitted by the examiners to present himself or herself for re-examination, on one occasion only and normally not later than two years from the date of his or her first (final) examination, in the whole of the examination, or in a specific component of the examination, as the examiners may determine in each case; and in such cases the examiners shall prescribe whether the candidate shall be required to re-attend the whole course or specific parts of the course, or whether he or she may be permitted to present himself or herself for re-examination without further attendance on the course. An examination may be made up of components such as examination papers, submitted essays, dissertations, laboratory reports, project reports and field reports.

The Postgraduate Diploma courses available, and the Departments in which they are offered, are as follows:

<i>Diploma Course</i>	<i>Department</i>
Advanced Computing Science	Computing Science
Geoinformation Technology and Cartography	Geography and Earth Sciences
Mathematics	Mathematics

Detailed syllabuses may be obtained from the Head of the Department concerned, to whom enquiries about admission should be addressed.

POSTGRADUATE CERTIFICATES IN THE FACULTIES OF SCIENCE

The general regulations governing Postgraduate Certificates in the Faculties of Science are as follows:

1. Candidates for the Postgraduate Certificate must be graduates of a Scottish University or of another University approved by the Senate or possess such other qualifications as the Senate may recognise as satisfactory in any given case. Candidates must also satisfy the special entrance requirements prescribed for particular programmes of study.
2. The period of study for each Postgraduate Certificate shall be prescribed by the Faculty and shall not be less than one semester of full-time study or two semesters of part-time study. The maximum period of study shall normally be 4 academic sessions. Candidates must be matriculated students of the University during the period of study and shall pay the appropriate fee.
3. The programme of study shall consist of such courses of instruction and individual work as the Faculty may prescribe for each Postgraduate Certificate. The complete programme of study shall be worth a minimum of 60 credits of which at least 40 shall be at level M.
4. On completion of a candidate's programme of study, his or her work shall be tested by such examination as may be prescribed. One of the Examiners shall be an External Examiner appointed by the University Court on the recommendation of the Senate.
5. If a candidate's work thus tested is reported by the Examiners to the Senate as satisfactory, he or she shall be entitled to receive the Postgraduate Certificate in the chosen subject. The Certificate may be awarded with Distinction. Conditions for this category of award are specified in the Course Handbook.
6. A candidate who fails to satisfy the examiners for the Certificate may be permitted by the examiners to present himself or herself for re-examination, on one occasion only and normally not later than two years from the date of his or her first (final) examination, in the whole of the examination, or in a specific component of the examination, as the examiners may determine in each case; and in such cases the examiners shall prescribe whether the candidate shall be required to re-attend the whole programme of study or specific parts, or whether he or she may be permitted to present himself or herself for re-examination without further attendance. An examination may be made up of components such as examination papers, submitted essays, dissertations, laboratory reports, project reports and field reports.

The Postgraduate Certificate programmes available, and the Departments in which they are offered, are as follows:

<i>Certificate Programme</i>	<i>Department</i>
Geoinformation Technology	Geography and Earth Sciences

Detailed syllabuses may be obtained from the Head of the Department concerned, to whom enquiries about admission should be addressed.

DIPLOMA: SCOTTISH AGRICULTURAL COLLEGE

The following Diploma is awarded by the University of Glasgow:

Applied Poultry Science

The Diploma shall be administered by the Scottish Agricultural College (hereinafter 'the College').

Details of the programme may be obtained on request from the Admissions Officer, Scottish Agricultural College, Auchincruive, Ayr KA6 SHW.

The general regulations governing the Diplomas are as follows:

1. Candidates for the Diplomas must be graduates of a Scottish University or of another University approved by the Senate or possess such other qualifications as the Senate may recognise as satisfactory in any given case. Candidates must also satisfy the special entrance requirements prescribed for particular courses.
2. The period of study for the Diploma shall be prescribed by the College, and shall not be less than one academical year of full-time study or two academical years of part-time study. Candidates must be matriculated students of the University during each year of study and shall pay the appropriate fee.
3. The course of study shall consist of such courses of instruction and individual work as the College may prescribe for the Diploma.
4. On the completion of a candidate's course of study, his work shall be tested by such examination as may be prescribed. One of the Examiners shall be an External Examiner appointed by the University Court on the recommendation of the Senate.
5. If a candidate's work thus tested is reported by the Examiners to the Senate as satisfactory, he shall be entitled to receive the Diploma in the chosen subject. The Diploma may be awarded with Distinction.
6. A candidate who fails to satisfy the examiners for the diploma may be permitted by the examiners to present himself for re-examination, on one occasion only and normally not later than two years from the date of his first (final) examination, in the

whole of the examination, or in a specific component of the examination, as the examiners may determine in each case; and in such cases the examiners shall prescribe whether the candidate shall be required to attend the whole course or specific parts of the course, or whether he may be permitted to present himself for re-examination without further attendance on the course. An examination may be made up of components such as examination papers, submitted essays, dissertations, laboratory reports, project reports and field reports.

POSTGRADUATE DIPLOMA IN SOCIAL HISTORY

1. The Diploma course is taught over three terms, with the diet of examinations in May/June. Candidates may take the course full-time in one session or part-time over two.
2. Students must normally hold at least a second class Honours degree (or its equivalent) in history or a related subject; graduates with similar qualifications in other subjects may be admitted on the recommendation of the course coordinator. Candidates of particular merit and with relevant work experience may also be admitted on the recommendation of the course coordinator. Candidates whose native language is not English will be required to submit evidence of their proficiency in English in accordance with current Faculty regulations.
3. Candidates must follow three courses, taught in the Departments of Economic and Social History, Medieval History, Modern History and Scottish History. These courses run concurrently and consist of: (a) a common Core Course; and (b) two further Selected Courses, incorporating work with both primary and secondary historical materials related to social history and selected from the list of approved courses for the MSc in Social History.
4. There will be lectures/seminars for three hours a week in the Core Course and two or three hours a week in each of the Selected Courses.
5. Every student must normally obtain the Certificate of Basic Information Technology Competence in order to qualify for the award of the Postgraduate Diploma in Social History.

Examination

6. The Diploma will be awarded for an overall performance at the level of at least 50 per cent (Beta Gamma). A Distinction may be awarded if the overall performance is at the level of at least 70 per cent (Alpha Beta) but with no element below 60%. The Core Course and each of the Selected Courses are equally weighted. Within each course the essays (due on the first day after the spring vacation or on earlier dates notified to the students during the first week of the first semester) will count for one-third of the total mark and the May/June examination for two-thirds.
7. A candidate who has not satisfied the Examiners at the end of the May/ June diet of examinations may be permitted on the recommendation of the examiners to resit the diet or part of it in September of the same academic year.
8. Candidates who successfully complete the work of the Diploma may be permitted on the recommendation of the examiners to proceed to the MSc in Social History by completing a dissertation under the appropriate regulations. Candidates who successfully complete the work of the MSc will not receive a Diploma.

POSTGRADUATE DIPLOMA IN SOCIAL SCIENCE RESEARCH

The period of study will be one session full-time or two sessions part-time. Applicants should normally hold at least a second class honours degree of a recognised University or equivalent. Candidates of particular merit and with relevant work experience may also be admitted on the recommendation of the course director.

All candidates must normally obtain the Certificate of Basic Information Technology Competence in order to qualify for the award of the Postgraduate Diploma in Social Science Research.

Candidates whose native language is not English will be required to submit evidence of their proficiency in English, and may be required to attend additional English language classes as a condition of admission

Candidates for the Diploma will be required to satisfy the examiners in such courses of instruction and individual work as the Faculty may prescribe. The Diploma may be awarded with Distinction, on the basis of an exceptionally high level of performance on the course as a whole.

Candidates who successfully complete the work of the Diploma may be permitted on the recommendation of the examiners to proceed to the MSc Social Science Research by completing a dissertation under the appropriate regulations. Candidates who successfully complete the work of the MSc will not receive a Diploma.

In the Faculty of Law, Business and Social Sciences, except with the permission of the Senate, a candidate is required to complete the programme, including the submission of any dissertation, within 4 years from the date of a full-time candidate's initial registration in the programme or within 5 years from the date of a part-time candidate's initial registration in the programme⁵.

⁵ Subject to Senate approval

POSTGRADUATE DIPLOMA IN SOCIOLOGICAL STUDIES

The period of study will be one full year (12 months). Applicants should normally hold a second class Honours Degree of a recognised University or equivalent. Candidates of particular merit and with relevant work experience may also be admitted on the recommendation of the Head of Department. Candidates whose native language is not English will be required to submit evidence of their proficiency in English, and may be required to attend additional English language classes as a condition of admission.

The requirements for the Diploma in Sociological Studies are as follows:

1. Attendance at Sociology postgraduate seminars and where applicable at the Faculty of Law, Business and Social Sciences lecture course in research methods.
2. One paper from the Sociology Honours 50 1 Group 1 papers 1-5 or 8.
3. Two other papers from the Sociology Honours 50 1 list, excluding paper 6.
4. A dissertation of not less than 10,000 and not more than 12,000 words, to be submitted to the Department office by 30th September, of the relevant academic year.

Every student must normally obtain the Certificate of Basic Information Technology Competence in order to qualify for the award of the Postgraduate Diploma in Sociological Studies.

Not all papers in the 50 1 list may be available in any given year. A candidate's choice of papers and dissertation topic must be endorsed by the Head of Department.

The Diploma is awarded on the basis of the three 50 1 papers, each counting 25%, and the dissertation, also counting 25%. Candidates must pass all four elements for the Diploma to be awarded. The Diploma may be awarded with Distinction, on the basis of an exceptionally high level of performance on the course as a whole.

Candidates who fail in one paper in the May/June diet of examinations may be allowed to resit that paper in the August/September diet. Candidates who fail in the dissertation may be allowed to re-submit the dissertation by the 1st December following, providing they have achieved passes in all three papers in the May/June diet of examinations. Candidates who fail in any two elements of the course may, at the Head of Department's discretion, be given permission to repeat the course.

POSTGRADUATE DIPLOMA IN TEACHING ADULTS

General

1. The Diploma in Teaching Adults may be conferred by the University of Glasgow in the Faculty of Education.

Admissions Criteria

2. Every candidate for the Diploma should normally hold a degree of a British University, or a qualification recognised as equivalent for this purpose. Those with less traditional qualifications are also encouraged to apply. Experience of involvement in voluntary and community groups or as an adult student may be particularly relevant.

Admission with Advanced Standing

3. Candidates who have satisfactorily completed a postgraduate qualification, or equivalent, may be permitted to count not more than two study units (equivalent to 40 SCOTCAT credit points at M level) towards the Diploma.
4. Candidates, other than those referred to in Section 3 above, may in exceptional circumstances be awarded credit for up to two study units, on the basis of assessment of prior learning (APL).

Programme of Study

5. The requirements for the degree may be fulfilled by full-time or part-time study or a combination of both. The normal period of study for full-time Diploma will be one academic year and for part-time Diploma two academic years.
6. The Diploma course will consist of 5 units of study worth a total of 120 SCOTCAT credit points at M level. These are:
 - (i) Principles and Theories of Adult and Continuing Education (20 credits)
 - (ii) The Psychology of Adult Learning (20 credits)
 - (iii) Issues in Adult and Continuing Education (20 credits)
 - (iv) Curriculum Development (20 credits)
 - (v) Adult Learning Placement (40 credits)
7. For each qualifying study unit, assessment will normally be based on one or two pieces of prescribed work.
8. The balance of the nature of the assessed work, and weighting where there are two pieces of assessed work, will be agreed by the course tutors, subject to the approval of the course team.
9. For the Adult Learning Placement, assessment will comprise three elements: an analysis of the content of the practicum, a portfolio providing evidence of professional expertise in adult teaching and learning and a final reflective essay.
10. Normally a grade of at least D- is required in the study units for the award of the Diploma.

11. Students registered for the Diploma in Teaching Adults may apply for transfer to the MSc in Adult and Continuing Education (Teaching Adults). Criteria for progression from Diploma to MSc are as set out in the programme handbook. Candidates who initially register for the MSc degree may apply for transfer to the Diploma, provided that they achieve an average grade of D- in all study units.
12. The Diploma may be conferred with distinction. The criteria for distinction are set out in the programme handbook.
13. All candidates must normally obtain the Certificate of Basic Information Technology Competence in order to qualify for the Diploma in Teaching Adults.

DIPLOMA IN VETERINARY MEDICINE

General Regulations

1. Candidates for the Diploma must have obtained a Degree in Veterinary Medicine and Surgery in a Scottish University or a comparable Degree in Veterinary Science in another University or College recognised for the purpose by the University Court on the recommendation of the *Senatus*.
2. The period of study for the Diploma shall be prescribed by the Faculty and shall not be less than one academical year of full-time study or two academical years of part-time study. Candidates must be matriculated students of the University during each year of study and shall pay the appropriate fee.
3. The course of study shall consist of such courses of instruction and individual work as the Faculty may prescribe.
4. On the completion of a candidate's course of study his work shall be tested by such examination as may be prescribed.
One of the Examiners shall be an External Examiner appointed by the University Court on the recommendation of the *Senatus*.
5. If a candidate's work thus tested is reported by the Examiners to the *Senatus* as satisfactory, he shall be entitled to receive the Diploma in Veterinary Medicine. The Diploma may be awarded with distinction.

DIPLOMA IN VETERINARY SCIENCE

General Regulations

1. Candidates for the Diploma must be graduates of a Scottish University or of another University approved by the *Senatus* or possess such other qualifications as the *Senatus* may recognise as satisfactory in any given case.
2. The period of study for the Diploma shall be prescribed by the Faculty and shall not be less than one academical year of full-time study or two academical years of part-time study. Candidates must be matriculated students of the University during each year of study and shall pay the appropriate fee.
3. The course of study shall consist of such course of instruction and individual work as the Faculty may prescribe.
4. On the completion of a candidate's course of study his work shall be tested by such examination as may be prescribed.
One of the Examiners shall be an External Examiner appointed by the University Court on the recommendation of the *Senatus*.
5. If a candidate's work thus tested is reported by the Examiners to the *Senatus* as satisfactory, he shall be entitled to receive the Diploma in Veterinary Science. The Diploma may be awarded with distinction.

V TAUGHT MASTERS DEGREES

The University awards the following masters degrees. These degrees may be awarded jointly with other institutions where the Senate has approved an agreement to this effect. Where such an agreement exists, the degree titles of the partner institution may be used for the award of joint degrees with the University of Glasgow.

<i>Faculty</i>	<i>Degree</i>	<i>Page</i>
Arts	Master of Letters (MLitt)	23, 36
	Master of Music (MMus)	40
	Master of Philosophy (MPhil)	41
	Master of Science	49
	Master of Theology (MTh)	67
Biomedical and Life Sciences	Master of Research (MRes)	48
	Master of Science (MSc)	49
	Masters in Art, Design and Architecture in Education	<i>See Glasgow School of Art section of the Calendar</i>
Education	Master of Education (MEd)	29
	Master of Letters (MLitt)	36, 39
	Master of Philosophy (MPhil)	41
	Master of Science (MSc)	49
	Master of Science (MSc)	24, 49, 54
	Master of Science (MSc)	49
	Master of Accountancy (MAcc)	25
	Master of Business Administration (MBA)	<i>See School of Business & Management section of the Calendar</i>
	Master of Chinese Studies (MChin)	27
	Master of Community Care (MCC)	28
Engineering Information and Mathematical Sciences Law, Business and Social Sciences	Master of Finance (MFin)	31
	Master of Laws (LLM)	33
	Master of Letters (MLitt)	36
	Master of Medical Law (MML)	24
	Master of Medical Law and Ethics (MMLE)	24
	Master of Philosophy (MPhil)	41
	Master of Research (MRes)	48
	Master of Science	24, 49, 54
	Master of Social Work (MSW)	67
	Master of Community Care (MCC)	28
	Master of Primary Care (MPC)	44
	Master of Public Health (MPH)	46
	Master of Science (Medical Science) (MSc)	49
Physical Sciences	Master of Research (MRes)	24, 48
	Master of Science (MSc)	24, 49
Veterinary Medicine	Master of Science (Veterinary Science) (MSc)	49
	Master of Veterinary Medicine (MVM)	68
	Master of Veterinary Public Health (MVPH)	24

The regulations governing these degrees are printed following. In addition the University awards the following degrees, the regulations for which are published in the section of the *Calendar* indicated:

Glasgow School of Art	Master of Architecture (MArch)
	Masters in Art, Design and Architecture in Education (with Faculty of Education)
	Masters Degree in Design Practice (Textiles as Fashion)
	Master of Fine Art (MFA)
	Master of Philosophy (2D/3D Motion Graphics)
School of Business & Management	Master of Business Administration (MBA)

VI GENERIC REGULATIONS FOR TAUGHT MASTERS DEGREES

Resolution

The Masters degrees listed in Regulations 11 and 12 below are governed by Resolution of the University Court with provision that:

The Masters degrees listed in Regulations 11 and 12 may be conferred by the University of Glasgow in the Faculties listed in Regulations 11 and 12 below.

The Senate will make Regulations governing the award of the degree which are subject to the approval of the University Court. These are stated under 'Regulations' below.

The awards of Postgraduate Diploma and Postgraduate Certificate are also included in the Regulations.

Regulations

A student admitted onto a programme leading to an award must follow the instructions issued by the relevant Department or equivalent and be aware of the content of the Programme Document (often referred to as the Programme or 'Course' Handbook) issued by that Department or equivalent which will contain further details on the Programme including, in some cases, further requirements associated with the award.

1. Application of Regulations

- 1.1 These regulations apply without modification to the degrees listed in Regulation 11 below.
- 1.2 These regulations apply also to the degrees listed in Regulation 12 below subject to alternative requirements described in the relevant Programme Document. The requirements for these degrees may vary only in respect of duration of study (Regulation 3), reassessment (Regulation 7) or progress (Regulation 8) to reflect the requirements of professional or statutory bodies.

2. Admission

Before being considered for admission to study for an award to which these Regulations apply, a candidate must normally have obtained a degree or equivalent.

3. Duration of Study

The minimum period of study for the award of a Masters degree is 12 calendar months. The maximum period for full-time study is 24 calendar months of registered study. The maximum period within which all students must complete the programme is five years from the date of initial registration.

4. Programme Components

- 4.1 In order to qualify for an award in respect of the programmes specified in Regulations 11 and 12, a candidate must complete minimum credits⁶ as follows:
 - (i) For the award of a Masters degree: 180 credits, which includes both taught courses and a 60 credit (or more) dissertation or other substantial independent work.
 - (ii) For the award of a Postgraduate Diploma: 120 credits of taught courses.
 - (iii) For the award of a Postgraduate Certificate: 60 credits of taught courses.
- 4.2 The taught courses will normally be undertaken during the academic session (September – June) and are specified in the relevant Programme Document. The length and nature of the dissertation or other substantial independent work is as specified in the relevant Programme Document.

5. Minimum Requirement for the Award of Credits

The minimum requirement for the award of credits for a component of the programme shall be specified by the Department or equivalent concerned, with the approval of Faculty, and given to candidates in writing at the beginning of the programme component. This requirement shall normally include a specified minimum level of compliance with instructions in terms of attendance and completion of work, and a specified minimum level of performance in assessed work. Normally no grade or credits shall be awarded to a candidate who has not met this minimum requirement.

⁶ In compliance with the Scottish Credit and Qualification Framework a minimum component of the total credit must be gained from *Masters level* courses (Level M/SCQF Level 11) as follows: 150 credits for a Masters Degree, 90 credits for a Postgraduate Diploma, 40 credits for a Postgraduate Certificate.

6. Assessment

Regulations for assessment are, insofar as not modified by these regulations, governed by the Code of Assessment which is contained in the General Information and Fees section of the *Calendar*.

7. Candidates for a Masters degree: Progress

- 7.1 A candidate will be permitted to progress to preparation of the dissertation, or other substantial independent work required by the degree, only if he or she has obtained an average of Grade C in the taught courses described in Regulation 4 with no more than 25% of the credits for these courses at grade E and none below grade E.⁷ The Programme Document may specify a course or courses in respect of which grade D is a minimum requirement of progression.
- 7.2 A candidate who has commenced study midway through an academic session will be permitted to progress to preparation of the dissertation, or other substantial independent work, only if he or she has obtained an average of Grade C in the taught courses assessed by the end of the session in which study was commenced with no more than 25% of the credits for these courses at grade E and none below grade E. The Programme Document may specify a course or courses in respect of which grade D is a minimum requirement of progression.

8. Reassessment

- 8.1 A candidate will be permitted reassessment in any taught course for which he or she has obtained a grade E or worse. All reassessment results will be capped at grade D. A candidate will be entitled to one reassessment only in any course and the timing and nature of the reassessment will be as specified in the Programme Document. The dissertation or other substantial independent work may not be reassessed.
- 8.2 The Programme Document may specify more stringent criteria for reassessment on the basis of requirements of external bodies.

9. Requirements for the award of a Masters degree and rules for award of distinction and merit

- 9.1 A candidate will be eligible for the award of the degree on obtaining an average of Grade C or better (with no more than 25% of credit at Grade E and none below grade E) in all the taught courses within the programme, as specified in Regulation 4, and obtaining a grade D or better in the dissertation or other substantial independent work.
- 9.2 A candidate who has achieved Grade C or better in all components and Grade B or above in at least one third of the total credits of the award will be eligible for the award with Merit.
- 9.3 A candidate who has achieved Grade B or better in all components and Grade A in at least one third of the total credits of the award will be eligible for the award with Distinction.

10. Requirements for the award of a Postgraduate Diploma or Postgraduate Certificate and rules for award of distinction and merit

- 10.1 The requirement for the award of a Postgraduate Diploma is an average of Grade D in 120 credits, with not less than 80 of these credits at Grade D or above.
- 10.2 The requirement for the award of a Postgraduate Certificate is an average of Grade D in 60 credits, with not less than 40 of these credits at Grade D or above.
- 10.3 These awards may be granted with Merit or Distinction according to the criteria specified in Regulation 9.2 and 9.3 above.

11. Degrees⁸ to which these regulations apply

The following degrees are governed by the above regulations:

Faculty of Arts

- MLitt in Decorative Arts & Design History⁹
- MLitt in History
- MLitt in History (with an emphasis on the History of Medicine)
- MLitt in History and Computing
- MLitt in History and Computing (with an emphasis on the History of Medicine)
- MLitt in the History of Collecting and Collections
- MLitt in Medieval Scottish Studies

⁷ In this and subsequent paragraphs in which references to average grades occur, such averages are determined as arithmetic means of aggregation scores corresponding to the grades defined in the University's Code of Assessment.

⁸ Each of these degree programmes also offer awards of Postgraduate Diploma and Postgraduate Certificate with the same title (see Regulation 10 above).

⁹ Taught in partnership with Bonhams Auctioneers.

MLitt in Scottish Cultural Heritage¹⁰

MLitt in Scottish Studies

MLitt in War Studies

Faculty of Engineering

MSc in Mechanical Engineering

MSc in Space Mission Analysis and Design

Faculty of Law, Business and Social Sciences

Master of Medical Law

Master of Medical Law and Ethics

MSc China in the International Arena

MSc Gender Rights and Development

MSc International Politics

MSc International Politics (Research)

MSc International Politics and Human Rights

MSc Management (Corporate Advantage)

MSc Management (Development Policy)

MSc Management (Enterprise and Business Growth)

MSc Management (International Business)

MSc Management (International Finance)

MSc Management (International Marketing)

MSc Management (International Market Entry and Development)

MSc Management Research

MSc in Public Policy

Faculties of Science

MRes in Geosciences (Earth Surface and Near-Surface Processes and Geochronology)

MRes in Human Geography

MSc in Geoinformation Technology and Cartography

MSc in Geosciences (Earth Surface and Near-Surface Processes and Geochronology)

Faculty of Veterinary Medicine

Master of Veterinary Public Health

12. Degrees¹¹ which include variations to regulations 3, 7 and 8 above

The following degrees are governed substantially by the above regulations. The requirements for these degrees may vary in respect of duration of study (Regulation 3), reassessment (Regulation 7) or progress (Regulation 8) and such variation will be described in the Programme Document.

¹⁰ Subject to Senate approval

¹¹ Each of these degree programmes also offer awards of Postgraduate Diploma and Postgraduate Certificate with the same title (see Regulation 10 above).

VII REGULATIONS FOR MASTERS DEGREES : NON-GENERIC REGULATIONS

MASTER OF ACCOUNTANCY in International Accounting and Financial Management

The Degree of Master of Accountancy (MAcc) in International Accounting and Financial Management will be governed by Resolution of the University Court with provision that:

1. The normal standard of admission will be that of a Degree with First or Second Class Honours of a United Kingdom university or an approved equivalent qualification. Every candidate must if required satisfy the Senatus that he or she has a sufficient command of the English Language profitably to pursue the programme of study proposed.
2. The minimum period of study for each candidate shall be determined by the Faculty of Law, Business and Social Sciences at the time of his or her admission, according to the qualifications of the candidate and other relevant factors and shall normally be 12 months for full time candidates and 24 months for part time candidates.
3. Each candidate shall undertake a prescribed programme of study and shall present himself or herself for written and oral examination. He or she shall also be required to submit a dissertation.
4. The examiners for the degree shall be such Professors and Lecturers in the University as the Senatus shall designate and such Additional Examiners as the University Court, on the recommendation of the Senatus, may appoint.
5. The examiners may recommend that the degree be awarded with merit or with distinction.
6. Schemes of modules and of assessment, and any amendments thereto, shall be submitted to the Senatus for its approval.
7. The regulations for the degree shall be as stated in the Schedule hereto.

Schedule of Regulations

1. Commencement of Study

A candidate will normally be allowed to commence study for the degree only from the beginning of the academical year.

2. Programme of Modules and Dissertation

The programme of study for the degree comprises modules and a dissertation. Each module and the dissertation have a value in terms of credits. In order to qualify for the degree a candidate must have gained a minimum of 180 credits comprising:

<i>Module</i>	<i>Credits</i>
<i>Compulsory</i> (five modules to be taken)	
International Financial Accounting for MNCs	15
International Corporate Finance	15
Environment of International Business	15
Statistics for Business Research 1 <i>and</i>	7.5
Management Accounting	7.5
Research Methods	15
Total Compulsory Modules	75
<i>Optional</i> (three to be taken including at least one of the first two listed below)	
International Management Accounting & Control	15
Advanced Topics in International Accounting	15
International Banking & Financial Markets	15
International Financial Analysis	15
International Financial Management	15
Any approved international law modules	30
<i>Either</i> Accounting & Business Ethics	15
<i>Or</i> Social, Ethical & Environmental Accountability	15
Total Optional Modules	45 (or 60)
Total Compulsory and Optional Modules	120 (or 135)
Dissertation	60
Total (Modules plus Dissertation)	180 (or 195)

(Admission to a law module is only possible with the permission of both Heads of Departments.)

3. Grades and Grade Point Averages

Each candidate who has satisfied the minimum requirement for award of credits for a module or for the dissertation shall be awarded a grade therein. He/she shall earn the specified number of credits and a number of grade points which shall be the product of the number of credits and the grade points per credit according to the following table. Each candidate who has not satisfied the minimum requirement for a module shall earn nothing. The meaning of each grade and the corresponding number of grade points shall be as follows:

Grade	A	B	C	D	E	F	G
Grade point (<i>per credit</i>):	16	14	12	10	8	6	2

For the purposes of assessment, Grades A, B, C and D constitute a pass at the Masters level, and Grades E, F and G constitute a fail.

Each candidate's grade point average is defined to be the ratio of total grade points to total credits, calculated over all programme elements completed by the candidate; excepting that for the purposes of computing the grade point average, a candidate shall be entitled to discount any programme elements that are surplus to requirements.

4. Assessment in Modules

The scheme of assessment for a module shall be drawn from: oral presentations, seminar presentations, group presentations and research essays and shall include a final examination. The assessment scheme for a module will specify weights to be attached to particular assessed components of the module for the purpose of determining the level of attainment of a candidate's work in terms of the grading scheme for the module.

5. Dissertation

The subject of the dissertation must be approved by the Programme Co-ordinator. The dissertation shall be prepared under the supervision of a designated member of staff. The dissertation shall be submitted by the 30 September of the year in which the programme is to be completed. The dissertation shall normally be of 15,000 to 20,000 words in length and shall be typewritten in English. Two bound copies of the dissertation must be submitted and if the degree is awarded the original shall remain in the possession of the University.

6. Part-Time Study

In the case of part time study the curriculum of the first year shall normally consist of four modules; the curriculum of the second year shall normally consist of four further modules followed by the dissertation.

7. Duration of Study

Except with the permission of the Senatus, a candidate is required to complete the programme, including the submission of any dissertation, within four years from the date of a full time candidate's initial registration in the programme or within six years from the date of a part time candidate's initial registration in the programme.

8. Progress

(a) Minimum requirements for award of credit

The minimum requirements for the award of credits for a module shall be specified by the Department concerned and shall be given to candidates in writing at the beginning of the module. The requirement shall normally include a specified minimum level of compliance with departmental instructions in terms of attendance and completion of work and a specified minimum level of performance in assessed work and examinations. Normally no grade or credits shall be awarded to a candidate who has not met this minimum requirement.

(b) Certificate of IT Competence

All candidates must normally obtain the Certificate of Basic IT Competence before presenting themselves for final examination for the coursework part of the degree programme and before proceeding to the dissertation.

(c) Requirements to Proceed to Dissertation

In the absence of medical or other extenuating circumstances determined as such by the Board of Examiners, a candidate must *either*

obtain Grade B or above at the first attempt in modules totalling at least 60 credit points and grade D or above in the remaining modules (at the first attempt in modules totalling at least 30 credits) *or*

obtain Grade C or above at the first attempt in modules totalling at least 90 credits and grade D or above in the remaining modules.

Exceptionally, candidates who fail one module, and demonstrate an otherwise good performance, may be permitted to proceed to the dissertation stage with the resit pending.

(d) Resit Examinations

A candidate who is awarded Grade E, F or G for a module may resit the end-of-course examination, but normally only once and at the next available diet. The grade awarded as the result of the resit examination shall be capped at Grade D although the Board of Examiners may take into account the candidate's actual performance at the resit. The resit result shall be no lower than the original result.

(e) Progress of Part time Candidates

A part time candidate is normally required to obtain at least Grade C in three of the modules of the first year of study at the first attempt and in the fourth module by the resit in order to be permitted to progress to the second year of study.

A candidate who fails to meet these requirements will normally be excluded from further study in the programme. A candidate may appeal in respect of such a decision.

9. Awards

In the absence of medical or other extenuating circumstances determined as such by the Board of Examiners, the award of MAcc in International Accounting and Financial Management shall be conferred where a candidate has attained a grade point average of 12 or above consisting of no more than two programme elements at Grade D and no programme elements at

less than Grade D.

For the purpose of this regulation Statistics for Business Research 1 and Management Accounting shall count as one single element.

The examiners shall have the discretion to recommend that the degree be awarded with Merit to a candidate who has obtained grade A or B at the first attempt in three elements and not less than grade C at the first attempt in all of the remaining elements including the dissertation. The examiners shall further have the discretion to recommend that the degree be awarded with Distinction to a candidate who has obtained Grade A at the first attempt in three elements and not less than Grade B at the first attempt in the remaining elements including the dissertation.

A candidate who obtains Grade D or above in at least four modules and a grade point average of 10 or above calculated over modules (not including the dissertation) with a total credit rating of at least 120 shall satisfy the requirements for award of the Postgraduate Diploma.

No student may hold more than one award from the same programme of study.

MASTER OF ARCHITECTURE

Regulations for the Degree of MArch can be found in the 'Degrees and Diplomas awarded in conjunction with Glasgow School of Art' section of the University *Calendar* (see regulation IV and V in GSA section).

MASTER OF CHINESE STUDIES

The Degree of Master of Chinese Studies (MChin) will be governed by Resolution of the University Court with provision that:

Postgraduate students may at the discretion of the Faculty Committee, be jointly registered as candidates for the degree of Master of Chinese Studies in the Faculty of Social Sciences at the University of Edinburgh and the Faculty of Law, Business and Social Sciences at the University of Glasgow. Registration will date from 1 October.

All registered candidates for the degree must satisfy Regulations 2.1.1-2.1.8, 2.2.1-2.3.1, 4.1.2 and 4.1.16 at the University of Edinburgh, and any additional entrance requirements outlined in Section 7 can be found at <http://www.cpa.ed.ac.uk/drps>.

Candidates will pursue their studies at either Edinburgh and Glasgow under the direction of a University supervisor nominated by the Course Director and appointed by the Committee. An adviser will be appointed to oversee candidates while pursuing their language studies and undertaking their work placement in China.

Candidates will complete a compulsory programme of courses and language study in the first year; advanced language study and two further options in the second year; three months of intensive language training and three months work placement in China on which the dissertation will normally be based. Details of the programme of study are shown in Section 7.

The period of study will be not less than 24 months full-time and not more than 36 months full-time. This period may not be reduced, and may be extended only in exceptional circumstances. No candidate will be admitted to the programme after the date of opening without the express permission of the Convener of the Faculty Postgraduate Studies Committee at Edinburgh, acting on the advice of the Course Director. Candidates who decide not to pursue later courses or to complete the work placement in China, may, at the discretion of the Committee be awarded a Postgraduate Diploma.

Candidates must work in the Universities of Edinburgh and Glasgow, and in a Chinese institution or on a work placement in China approved by the Course Director. Advisers in China, designated by the Universities of Edinburgh and Glasgow and appointed by the Course Director, will have responsibility for the candidate's language and work placement, and will submit a report to the Course Director on the ability and progress of each candidate.

Candidates may, if good cause is shown, suspend their studies after nine months for a maximum period of 12 months. Re-admission to the degree will require the approval of the Course Director. No fees are payable during any full year in which suspension has been continuous.

On the recommendation of the University supervisor and the Course Director, and after seeking the views of the candidate, the Committee may suspend or discontinue a candidate's studies.

The examiners in the subjects of the examinations for the degree shall be:

- (a) those professors, readers, lecturers and honorary staff of the Universities of Edinburgh and Glasgow who conduct courses of instruction qualifying for the degree and who are appointed to act as examiners in accordance with such procedures as shall be prescribed from time to time by the Senatus Academicus at both institutions; and
- (b) one or more external examiners appointed by the University Court of both institutions on the recommendation of their Senatus Academicus.

Candidates will be assessed by essays, examinations, a placement report and a piece of independent work (a dissertation). An oral examination will be required in the Chinese language and may be required for other courses. Candidates may be assessed by staff at the University of Glasgow but will remain subject to the Degree Examination Regulations and Guidelines of the University of Edinburgh.

Candidates will be required to submit their dissertation for examination by a date in September of the second year (to be announced).

Provided that the dissertation reaches Postgraduate Diploma standard, it may be revised in order to reach the masters level within a

further maximum period of three months.

The degree may awarded with distinction.

Candidates who complete all the requirements of the degree may, at the discretion of the Committee, be permitted to advance to the PhD after two further years of full-time registration.

The appeals procedures of the administering University will normally apply. However, with the agreement of both Universities, the appeal may be heard under the procedures of the other institution.

MASTER OF COMMUNITY CARE

The Degree of Master of Community Care (MCC) is awarded under Resolution No 321 of the University Court, which came into effect on 24th May, 1989. The following are the provisions of the Resolution:

1. The Degree of Master of Community Care may be conferred by the University of Glasgow in the Faculty of Law, Business and Social Sciences or the Faculty of Medicine.
2. Every candidate for the Degree, before being admitted to a course of study qualifying therefor, must normally have obtained a Degree in a subject or subjects related to community care from a university recognised for this purpose by the University Court on the recommendation of the *Senatus*. In exceptional circumstances candidates without such a degree but possessing professional qualifications and experience will be admitted at the discretion of the Heads of the Departments of Glasgow School of Social Work, Sociology, Anthropology & Applied Social Sciences, and Public Health & Health Policy.
3. The normal period of study for the Degree shall be twenty-four months of part-time study. Candidates will register at the start of the first semester each year.
4. All candidates must normally obtain the Certificate of Basic Information Technology Competence before presenting themselves for final examination for the Degree
5. Each candidate for the Degree shall undertake a prescribed course of study and shall complete the prescribed assignments. He or she shall also be required to submit a dissertation of approximately 20,000 words by the 30th September of the second year of registration.
6. The examiners for the Degree shall be such Professors and Lecturers in the University as the *Senatus* shall designate and such additional examiners as the University Court, on the recommendation of the *Senatus*, shall appoint.
7. A candidate for the Master of Community Care whose dissertation is found to be unacceptable or who withdraws may be awarded the Diploma in Community Care if all assignments have been passed
8. The Regulations for the Degree shall be as follows:

Regulations

Prescribed courses

Each candidate shall study the five core courses and three modules from the list of options.

Core courses

Principles of Community Care
 Community Care Practice I
 Community Care Practice II
 Values and Ethics in Community Care
 Research Methods in Community Care

Options

Inter-professional Roles in Community Care
 Community Care and Older People
 Community Care and People with Mental Health Problems
 Community Care and People with Learning Disabilities

Examinations and Dissertation

- (a) Assessment for the Degree will be by coursework.

Students will be required:

- (i) to submit on topics covered in the prescribed modules, 6 x 3,000 word assignments and one 5,000 word assignment.
- (ii) to complete a 20,000 word dissertation.

Candidates who fail an assignment may resubmit normally on one occasion only and at the discretion of the Board of Examiners.

- (b) Candidates may exit the programme after the first year of study with a Diploma in Community Care.

MASTER OF EDUCATION

Resolution

The degree of Master of Education (MEd) will be governed by Resolution of the University Court with provision that:

1. The degree of Master of Education may be conferred by the University of Glasgow in the Faculty of Education (the Faculty) as a degree in such designations as prescribed by the Regulations.
2. The Senate will make Regulations governing the award of the degree which are subject to the approval of the University Court. These shall be stated under 'Regulations' below.
3. The degree may be offered as MEd in the following designations:
 - Academic Practice
 - Educational Studies
 - English Language Teaching¹²
 - Inclusive Education
 - Professional Development and Enquiry
 - Religious Education / Religious and Moral Education.

The early exit awards of Postgraduate Certificate and Postgraduate Diploma are also included in the Regulations.

4. The normal standard of admission will be that of a Degree with First or Second Class Honours of a British university or an approved equivalent qualification. Every candidate should hold a recognised qualification as a teacher, or an equivalent professional qualification in a related profession, or be professionally engaged in an academic, teaching or learning support role within Higher Education. Every candidate is required to satisfy the Faculty that he or she has sufficient command of the English language to pursue profitably the programme of study proposed.
5. Candidates for the MEd in Academic Practice must present evidence of successful postgraduate study in Academic Practice to postgraduate certificate level of 60 Scottish Masters Level Credits or equivalent.

Regulations

1 Duration of the Degree

1.1 Study at the University of Glasgow

The normal periods of study in the University of Glasgow for the degree designations are:

Academic Practice	2 years part-time
Educational Studies	1 year full-time or 2 years part-time
English Language Teaching	1 year full-time or 2 years part-time
Inclusive Education	1 year full time or 2 years part time
Professional Development and Enquiry	6 years part-time
Religious Education / Religious and Moral Education	1 year full-time or 2 years part-time

The period of study may be reduced for candidates whose prior learning is recognised for credit, in accordance with procedures approved by the Faculty Higher Degrees Committee and set out in Programme Handbooks.

1.2 Study at Another Institution

A candidate may apply for credit for up to a maximum of one half of the tariff-rating of the qualification sought in recognition of academic attainment successfully completed in courses of postgraduate study, within the previous five years, at a recognised higher education institution. Applications for accreditation of prior learning (APL) must demonstrate formal learning against the stated learning outcomes of designated courses in the appropriate MEd programme.

1.3 Accreditation of Experiential Learning

A candidate may apply for accreditation of learning acquired within the previous five years. Each application must be supported by summary documentation and will be assessed by oral examination against stated learning outcomes of a designated course in the appropriate MEd programme.

1.4 Extension to the Period of Study

In exceptional circumstances, a candidate may apply to the Faculty Higher Degrees Committee for an extension of one year to the normal period of study. Such application must demonstrate good cause and provide a reasonable expectation that the candidate will complete the programme of study within the period of the extension.

¹² Subject to Senate approval

2 Structure and Assessment

2.1 Credit Bearing Components

The degree programmes are composed of credit-bearing components with the following credit weightings at SCQF Level 11:

Academic Practice	credits from postgraduate certificate or equivalent 60, taught courses 60, dissertation 60
Educational Studies	taught courses 120, dissertation 60
English Language Teaching	taught courses 120, dissertation 60
Inclusive Education	taught courses 120, dissertation 60
Professional Development and Enquiry	taught courses 120, work-based project(s) 60
Religious Education / Religious and Moral Education	taught courses 120, dissertation 60

Details of compulsory and optional qualifying courses are available in Programme Handbooks. Typically courses have a credit weighting of 15 or 30. The availability of an optional course will be subject to a viable number of candidates enrolling on the course in any given academic session.

2.2 Substitution

The Higher Degrees Committee may permit substitution of an optional course with a course from another Master's programme in the University, provided that the substituted course is consistent in terms of content and credit rating with the overall coherence of the degree programme.

2.3 Minimum Requirements for the Award of Credit

The minimum requirements for the award of credits for a course shall be specified by the Department(s) concerned, and given to candidates in writing at the beginning of the course. This requirement shall normally include a specified minimum level of compliance with departmental instructions in terms of attendance and completion of work, and a specified minimum level of performance in assessed work and examinations. Normally no grade or credits shall be awarded to a candidate who has not met this minimum requirement.

2.4 Assessment

Regulations for assessment are governed by the Code of Assessment which is contained in the General Information and Fees section of the *University Calendar*. Assessment may include essays, assignments, presentations, written and oral examinations, dissertations, reports and project work.

2.5 Re-assessment

Re-assessment, on one occasion only, is permitted, except that in Education and Religious Education / Religious and Moral Education no more than four courses may be re-assessed. A candidate may be permitted by the Examiners to resubmit the dissertation or the report of a work-based project.

3 Degree and Associated Awards

3.1 Certificate of Basic IT Competence

To be eligible for any award covered by these regulations, a candidate must have acquired the University's Certificate of Basic IT Competence by completing the course of study offered by the IT Education Unit (ITEU) or by gaining exemption from the ITEU course through one of the routes indicated in Section XXV of the Fees and General Information section of the *University Calendar*.

3.2 Degree of MEd

Candidates who have successfully completed all assessed courses and a dissertation or work-based project(s) will be eligible for the award of the degree of MEd. The degree may be conferred with distinction. Candidates should consult the relevant programme handbook for information on the criteria for distinction.

3.3 Postgraduate Diploma

A candidate who has successfully completed courses to the value of 120 credit points will be eligible for the award of a postgraduate diploma. A candidate who qualifies for the award of a degree will not also receive a postgraduate diploma. The designations of postgraduate diplomas are:

- Postgraduate Diploma in Academic Practice
- Postgraduate Diploma in Education
- Postgraduate Diploma in English Language Teaching
- Postgraduate Diploma in Professional Development and Enquiry
- Postgraduate Diploma in Religious Education
- Postgraduate Diploma in Religious and Moral Education
- Postgraduate Diploma in Support for Learning

3.4 Postgraduate Certificate

A candidate who has successfully completed courses to the value of 60 credit points will be eligible for the award of a postgraduate certificate. A candidate who qualifies for the award of a degree or postgraduate diploma will not also receive a postgraduate certificate. The designations of postgraduate certificates are

- Postgraduate Certificate in Education
- Postgraduate Certificate in English Language Teaching
- Postgraduate Certificate in Professional Development and Enquiry
- Postgraduate Certificate in Religious Education
- Postgraduate Certificate in Religious and Moral Education
- Postgraduate Certificate in Support for Learning

(Candidates for the degree of MEd in Academic Practice must have obtained the Postgraduate Certificate in Academic Practice or equivalent prior to entry to the degree programme.)

MASTER OF FINANCE in International Finance & Financial Institutions

The Degree of Master of Finance (MFin) in International Finance and Financial Institutions will be governed by Resolution of the University Court with provision that:

1. The normal standard of admission will be that of a Degree with First or Second Class Honours of a United Kingdom university or an approved equivalent qualification. Every candidate must if required satisfy the Senatus that he or she has a sufficient command of the English Language profitably to pursue the programme of study proposed.
2. The minimum period of study for each candidate shall be determined by the Faculty of Law, Business and Social Sciences at the time of his or her admission, according to the qualifications of the candidate and other relevant factors and shall normally be 12 months for full time candidates and 24 months for part time candidates.
3. Each candidate shall undertake a prescribed programme of study and shall present himself or herself for written and oral examination. He or she shall also be required to submit a dissertation.
4. The examiners for the degree shall be such Professors and Lecturers in the University as the Senatus shall designate and such Additional Examiners as the University Court, on the recommendation of the Senatus, may appoint.
5. The examiners may recommend that the degree be awarded with merit or with distinction.
6. Schemes of modules and of assessment, and any amendments thereto, shall be submitted to the Senatus for its approval.
7. The regulations for the degree shall be as stated in the Schedule hereto.

Schedule of Regulations

1. Commencement of Study

A candidate will normally be allowed to commence study for the degree only from the beginning of the academical year.

2. Programme of Modules and Dissertation

The programme of study for the degree comprises modules and a dissertation. Each module and the dissertation have a value in terms of credits. In order to qualify for the degree a candidate must have gained a minimum of 180 credits comprising:

<i>Module</i>	<i>Credits</i>
<i>Compulsory</i> (five modules to be taken)	
International Financial Accounting for MNCs	15
International Corporate Finance	15
Environment of International Business	15
Statistics for Business Research 1 and 2	7.5 x 2
Research Methods	15
Total Compulsory Modules	75
<i>Optional</i> (three to be taken including at least two of the first three listed below)	
International Banking and Financial Markets	15
International Financial Management	15
International Capital Markets	15
International Financial Analysis	15
Any approved international law Modules	30
Any approved postgraduate economics Modules	30
Total Optional Modules	45 (or 60)
Total Compulsory and Optional modules	120 (or 135)
Dissertation	60
Total (Modules plus Dissertation)	180 (or 195)

(Admission to a Law or Economics module is only possible with the permission of both Heads of Departments)

3. Grades and Grade Point Averages

Each candidate who has satisfied the minimum requirement for award of credits for a module or for the dissertation shall be awarded a grade therein. He/she shall earn the specified number of credits and a number of grade points which shall be the product of the number of credits and the grade points per credit according to the following table. Each candidate who has not satisfied the minimum requirement for a module shall earn nothing. The meaning of each grade and the corresponding number of grade points shall be as follows:

Grade	A	B	C	D	E	F	G
Grade point (<i>per credit</i>):	16	14	12	10	8	6	2

For the purposes of assessment, Grades A, B, C and D constitute a pass at the Masters level, and Grades E, F and G constitute a fail.

Each candidate's grade point average is defined to be the ratio of total grade points to total credits, calculated over all programme elements completed by the candidate; excepting that for the purposes of computing the grade point average, a candidate shall be entitled to discount any programme elements that are surplus to requirements

4. Assessment in Modules

The scheme of assessment for a module shall be drawn from: oral presentations, seminar presentations, group presentations and research essays and shall include a final examination. The assessment scheme for a module will specify weights to be attached to particular assessed components of the module for the purpose of determining the level of attainment of a candidate's work in terms of the grading scheme for the module.

5. Dissertation

The subject of the dissertation must be approved by the Programme Coordinator. The dissertation shall be prepared under the supervision of a designated member of staff. The dissertation shall be submitted by the 30 September of the year in which the programme is to be completed. The dissertation shall normally be of 15,000 to 20,000 words in length and shall be typewritten in English. Two bound copies of the dissertation must be submitted and if the degree is awarded the original shall remain in the possession of the University.

6. Part Time Study

In the case of part time study the curriculum of the first year shall normally consist of four modules; the curriculum of the second year shall normally consist of four further modules followed by the dissertation.

7. Duration of Study

Except with the permission of the Senatus, a candidate is required to complete the programme, including the submission of any dissertation, within four years from the date of a full time candidate's initial registration in the programme or within six years from the date of a part time candidate's initial registration in the programme.

8. Progress

(a) Minimum Requirements for Award of Credit

The minimum requirements for the award of credits for a module shall be specified by the Department concerned and shall be given to candidates in writing at the beginning of the module. The requirement shall normally include a specified minimum level of compliance with departmental instructions in terms of attendance and completion of work and a specified minimum level of performance in assessed work and examinations. Normally no grade or credits shall be awarded to a candidate who has not met this minimum requirement.

(b) Certificate of IT Competence

All candidates must normally obtain the Certificate of Basic IT Competence before presenting themselves for final examination for the coursework part of the degree programme and before proceeding to the dissertation.

(c) Requirements to Proceed to Dissertation

In the absence of medical or other extenuating circumstances determined as such by the Board of Examiners, a candidate must *either*

obtain Grade B or above at the first attempt in modules totalling at least 60 credit points and grade D or above in the remaining modules (at the first attempt in modules totalling at least 30 credits)

or

obtain Grade C or above at the first attempt in modules totalling at least 90 credits and grade D or above in the remaining modules.

Exceptionally, candidates who fail one module, and demonstrate an otherwise good performance, may be permitted to proceed to the dissertation stage with the resit pending.

(d) Resit Examinations

A candidate who is awarded Grade E, F or G for a modules may resit the end-of-course examination, but normally only once and at the next available diet. The grade awarded as the result of the resit examination shall be capped at Grade D although the Board of Examiners may take into account the candidate's actual performance at the resit. The resit result shall be no lower than the original result.

(e) Progress of Part time Candidates

A part time candidate is normally required to obtain at least Grade C in three of the modules of the first year of study at the first attempt and in the fourth module by the resit in order to be permitted to progress to the second year of study.

A candidate who fails to meet these requirements will normally be excluded from further study in the programme. A candidate may appeal in respect of such a decision.

9.Awards

In the absence of medical or other extenuating circumstances determined as such by the Board of Examiners, the award of MFin in International Finance and Financial Institutions shall be conferred where a candidate has attained a grade point average of 12 or above consisting of no more than two programme elements at Grade D and no programme elements at less than Grade D.

For the purpose of this regulation Statistics for Business Research 1 and Statistics for Business Research 2 shall count as one single element.

The examiners shall have the discretion to recommend that the degree be awarded with Merit to a candidate who has obtained grade A or B at the first attempt in three elements and not less than grade C at the first attempt in all of the remaining elements including the dissertation. The examiners shall further have the discretion to recommend that the degree be awarded with Distinction to a candidate who has obtained Grade A at the first attempt in three elements and not less than Grade B at the first attempt in the remaining elements including the dissertation.

A candidate who obtains Grade D or above in at least four modules and a grade point average of 10 or above calculated over modules (not including the dissertation) with a total credit rating of at least 120 shall satisfy the requirements for award of the Postgraduate Diploma.

No student may hold more than one award from the same programme of study.

MASTER OF LAWS BY RESEARCH

The Degree of Master of Laws by Research will be governed by Resolution of the University Court with provision that:

1. The Degree of Master of Laws by Research (LLM) may be conferred by the University of Glasgow.
2. Candidates shall normally hold a first or second class Honours degree in Law of a United Kingdom university or a qualification deemed by the Senate of the University of Glasgow to be equivalent. Exceptionally, candidates with a Law degree other than an honours degree, or with a non-Law degree, may be considered at the discretion of the Head of the School of Law.
3. Students who are not EU nationals and whose language of instruction in their first degree was not English are required to possess an acceptable qualification in the English language as determined by the Faculty. There is no such requirement for EU nationals.
4. A candidate shall pursue a full-time course of research in the University of Glasgow during a period which shall normally be two academic years or shall pursue a part-time course of research in the University of Glasgow during a period which shall normally be three academic years but the *Senatus* for special reasons (a) may permit a candidate to pursue any part of the period of research elsewhere than in the University of Glasgow and (b) may reduce or extend the relevant period of study or research by a period not exceeding one year, so however that a candidate may not normally spend less than one academic year of study in the University of Glasgow.
5. The *Senatus* shall designate a Professor, Reader or Lecturer in the University to supervise the research of each candidate. The supervisor shall report at least once a year to the *Senatus* on the progress of the candidate. The *Senatus* may at any stage exclude from further research for the Degree any candidate whose conduct or progress is unsatisfactory.
6. On completion of the prescribed period of research a candidate shall present a thesis embodying the results of his or her work. A candidate may also be required to undergo an oral or practical examination.
7. The Examiners for the Degree shall be such Professors, Readers and Lecturers of the University as the *Senatus* shall designate and such additional examiners as the University Court on the recommendation of the *Senatus* shall appoint.
8. The Regulations for the Degree shall be as stated in the Schedule hereto.
9. The Degree shall in no case be conferred on persons who have not satisfied the conditions hereinbefore set forth and shall not be conferred *honoris causa tantum*.

Regulations

1. Admission to study for the Degree will normally be granted only from the beginning of the academical year.
2. The normal standard of admission will be that of a Degree with First or Second Class Honours of a Scottish university or an approved equivalent qualification. Every candidate must if required satisfy the *Senatus Academicus* that he or she has a sufficient command of the English language profitably to pursue the research proposed. A candidate who appears to be

deficient in this respect may be required to complete satisfactorily a probationary period of study of up to one year before being admitted to study for the Degree.

3. The candidate shall prosecute his or her research under the supervision of a member of staff from the appropriate subject area appointed by the Faculty Higher Degrees Committee on the recommendation of the Head of Department. The Faculty Higher Degrees Committee shall have power, for special reasons, to permit a candidate to conduct research elsewhere for part of the prescribed period.
4. On completion of the candidate's research the candidate shall present to be examined for the Degree a thesis which may embody the results of the candidate's original research or may be a critical review of existing knowledge. The thesis must be written in English and will normally be 30,000 - 40,000 words in length.
5. All candidates must normally obtain the Certificate of Basic Information Technology Competence before submitting their thesis for examination.
6. The candidate must submit two bound printed or typewritten copies of the thesis which shall, if the Degree is awarded, both remain the property of the University and be deposited in the University Library. Each copy shall contain an adequate and informative summary (250-500 words) and in layout and binding shall generally conform to the British Standards Institution's *Recommendations for the presentation of theses* (BS4821:1990) an abstract of which is available in the University Library or from the Faculty Secretary. The thesis must be accompanied by a declaration by the candidate that the research has been carried out and the thesis composed by himself or herself and that the thesis has not been accepted in fulfilment of the requirements of any other degree or professional qualification. It must also state the extent to which the candidate has availed himself or herself of the work of others and which portions of the thesis, if any, are claimed as original.
7. Except by permission of the *Senatus* a thesis may not be presented later than three years from the date when the candidate ceases to be a matriculated student.
8. A thesis not approved for the Degree may not be resubmitted unless the Faculty Higher Degrees Committee on the recommendation of the Examiners permits resubmission in a revised form, on one occasion only, under such conditions as the Examiners may prescribe in each particular case.

MASTER OF LAWS BY PRESCRIBED COURSES

The Degree of Master of Laws by prescribed courses will be governed by Resolution of the University Court with provision that:

The programmes described below are offered by the University of Glasgow and the University of Strathclyde and awards are made in the name of both universities. These regulations are drawn up consequent upon the Memorandum of Co-operation between the University of Glasgow and the University of Strathclyde. Students shall be deemed to be students of both universities and shall observe the respective Ordinances, Resolutions, rules and regulations of both universities.

The award of the degree of LLM by Prescribed Courses will be governed by a Resolution of the University Court of the University of Glasgow and of the Senate of the University of Strathclyde which, at the date of going to press, have yet to come into effect.

1. Admission

Candidates shall normally hold a first or second class Honours degree in Law of a United Kingdom university or a qualification deemed by the Senate of the Administering University to be equivalent. Exceptionally, candidates with a Law degree other than an honours degree, or with a non-Law degree which has a substantial law content, may be considered at the discretion of the Head of Department of Law of the Administering University, provided candidates:

- a. have experience in the practice of Law or other relevant practical knowledge; or
- b. hold additional qualifications.

Students whose first language is not English are required to possess an acceptable qualification in the English language. A candidate who appears to be deficient in this respect may be required to complete satisfactorily a probation period of study of up to one year before being admitted to the degree.

2. Duration of Study

The minimum duration of study is normally twelve months of full-time study and twenty-one months of part-time study. Except with the permission of the Senate of the Administering University, candidates shall be required to complete their programme, including the submission of any dissertation, within four years of the date of registration in the case of full-time students and within six years of that date in the case of part-time students.

3. Curriculum

The curriculum of the programme shall normally comprise the following elements:

- a. compulsory Research Methods module
- b. four modules
- c. Dissertation

Subject to the approval of the relevant Programme Director, modules from other Masters' programmes in Law may be substituted for up to two of the modules offered on that programme.

Subject to availability and the approval of the Programme Director a Placement may be undertaken as an alternative to one optional module; a candidate will undertake a project for the commercial agency providing the Placement and will submit a Placement Report.

In the case of part-time study the curriculum of the first year shall normally consist of a Research Methods module and two other modules; the curriculum of the second year will normally consist of two further modules followed by the dissertation.

Where the University of Glasgow is the administering university, the syllabus of the Research Methods module will incorporate the course of study leading to the award of the University of Glasgow's Certificate in Basic Information Technology Competence.

4. Assessment

Each course shall incorporate a scheme of assessment which shall normally include oral presentations, seminar presentations, written opinions, research essays and a final examination. The assessment scheme will specify weights to be attached to particular assessed components for the purpose of assessing the level of attainment of a candidate's work in each course in terms of the grading scheme approved by the two Boards of Studies.

The Dissertation shall normally consist of 15-20,000 words written by the candidate on a chosen topic approved by the Programme Director prepared under the supervision of a designated member of staff. The dissertation must be written in English and shall normally be submitted by the 1st September of the year in which the programme is to be completed. Two bound copies of the dissertation must be presented.

5. Progress

- a. All candidates are required to comply with the Programme Instructions issued to them in writing on entry to the Programme. Candidates who do not so comply may not be assessed within the Programme.
- b. All candidates are required to attain grade C or above in terms of the approved grading scheme in the Research Methods module prior to presenting themselves for final examination in the Optional Modules. Satisfaction of this requirement will qualify the candidate for the award of the University of Glasgow's Certificate of Basic Information Technology Competence.
- c. Candidates are normally required to attain Grade C or above at the first attempt in all Optional Modules and the Placement Report where relevant to be permitted to progress to the Dissertation. However, a candidate who has attained Grade B or above in three of the four optional elements of the programme and Grade D in the fourth will be permitted to progress to the dissertation.
- d. Part-time candidates are normally required to attain at least Grade C in the modules of the first year of study at the first attempt to be permitted to progress to the second year of study.
- e. A candidate who has not met a requirement for progression at the first attempt may at the discretion of the Board of Examiners be permitted to progress conditional on attainment of the required standard at one further attempt.

A candidate who fails to meet these requirements may be excluded by the Board of Examiners from further study in the Programme. A candidate may appeal in respect of such a decision. The appeal procedure shall normally be that of the Administering University, unless both universities agree that an appeal may be heard under the procedures of the Partner University in which case the University of Strathclyde's General Regulations for Higher Degrees, Paragraphs 20.1.37 and 38, shall apply.

6. Awards

In order to qualify for the award of LLM, a candidate must have met the requirements to progress to the dissertation and have attained Grade C or above in the dissertation.

In order to obtain the award of LLM WITH COMMENDATION, a student must attain Grade A at the first attempt in three elements, including the dissertation, with not less than Grade C at the first attempt in the other two elements.

In order to obtain the award of LLM WITH DISTINCTION, a student must attain Grade A at the first attempt in four elements, including the dissertation, and not less than Grade C at the first attempt in the fifth.

A candidate who satisfies the requirements in 5(c) but who (i) chooses not to submit the dissertation or (ii) having submitted a dissertation attains less than Grade C for it may be considered by the Board of Examiners for the award of Postgraduate Diploma. The Board of Examiners may at its discretion and exceptionally consider for the award of Postgraduate Diploma a candidate who has been unable to proceed to the dissertation.

No student may hold more than one award from the same course of study.

7. Programmes of Study

The programmes recognised by the Senates of both Universities to which these regulations apply are:

- Commercial Law
- European Legal Studies
- International Law

Law General

Note

The following programmes administered by the University of Strathclyde and jointly recognised by the Senates of both Universities are:

Construction Law

Human Rights Law

Information Technology Law

Copies of the regulations for these degrees may be obtained from the Faculty Office of the Faculty of Law, Business and Social Sciences, and are those promulgated by the University of Strathclyde.

MASTER OF LETTERS

The Degree of Master of Letters will be governed by Resolution of the University Court with provision that:

1. Research students within the meaning of Ordinance No. 350 (General No. 12) who have prosecuted in the University or an institution recognised for the purpose by the University Court on the recommendation of the *Senatus* a course of special study or research in accordance with the provisions of that Ordinance, may offer themselves for the Degree, under the following conditions, namely:
 - (a) that they have obtained a Degree in any Scottish University, or in another University or College specially recognised for the purpose of this section by the University Court on the recommendation of the *Senatus Academicus*, provided always that a diploma or certificate recognised in like manner as equivalent to a Degree may be accepted in place of a Degree and provided also that the *Senatus* shall, in exceptional circumstances and on presentation of a full, stated case by the Faculty Higher Degrees Committee, have power to admit to study for the Degree in the Faculties of Arts or Education or Law, Business and Social Sciences any other person who in the opinion of the Committee is otherwise fitted to undertake research;
 - (b) that they have satisfactorily prosecuted such studies on a full-time basis for a period of not less than two academical years, or on a part-time basis for not less than three academical years; provided always that the *Senatus* shall have power (i) for special reasons to permit a candidate to pursue study elsewhere for a part of the prescribed period, and (ii) for stated reasons and on the recommendation of the Higher Degrees Committee to reduce the prescribed period of study by up to one academical year.
 - (c) A member of the teaching staff of the University, or a person who holds an appointment as Research Assistant or Research Fellow of the University of Glasgow and is paid through the Finance Office or directly by a grant-aiding body approved by the University Court, may notwithstanding offer himself/herself for the Degree of Master of Letters if he/she has prosecuted a course of special study or research on a part time basis for a period of not less than two years.
2. Each candidate shall submit a thesis on a subject falling within his or her special study. The candidate may also be required to undergo oral examination.
3. The examiners for the Degree shall be such Professors and Lecturers in the University as the *Senatus* shall designate and such additional examiners as the University Court, on the recommendation of the *Senatus* shall appoint.
4. The regulations for the Degree shall be as stated in Schedule A hereto.
5. The Degree shall in no case be conferred on persons who have not satisfied the conditions hereinbefore set forth and shall not be conferred *honoris causa tantum* except in the conditions contained in Ordinance of the University Court No. 109, Glasgow No. 28.

Revision to Resolution 114 also permits the award of the Degree of Master of Letters by Prescribed Programmes. The relevant provisions are as follows:

6. Candidates may undertake a prescribed programme of study in accordance with the provisions of Schedule B of the Regulations following.
7. Every candidate for the Degree, before being admitted to a programme of study qualifying therefor, (a) must have obtained a Degree in any Institution of Higher Education specially recognised for this purpose by the University Court on the recommendation of the *Senatus Academicus*, provided always that a diploma or a certificate recognised in like manner as equivalent to a Degree may be accepted in place of a Degree and (b) must have satisfied the *Senatus* of his or her fitness to undertake advanced study.
8. A candidate who is a full-time student shall follow a programme of study in the University or another Institution recognised for the purpose for 12 months. The period of study for a candidate who is a part-time student shall be at least 24 months.

Full-time candidates for the degree in the Faculty of Arts are normally required to attend classes in the University and to be available in the relevant department(s) during the summer vacation for both work on and supervision of the dissertation.

These provisions notwithstanding, the Faculty may on special cause shown extend the prescribed period of study for any full-time candidate by not more than one year.

9. The Faculty shall designate a Professor or Lecturer in the University to supervise the study of each candidate. The supervisor shall report on the progress of the candidate at appropriate intervals as determined by the Faculty.
10. On the conclusion of his or her period of study each candidate shall present for such written examination as may be prescribed by the *Senatus*, and may be required to submit a dissertation. The candidate may also be required to undergo oral and/or practical examination.
11. The examiners for the Degree shall be such Professors and Lecturers in the University as the *Senatus* shall designate and such additional examiners as the University Court, on the recommendation of the *Senatus* shall appoint.
12. The Degree shall in no case be conferred on persons who have not satisfied the conditions hereinbefore set forth and shall not be conferred *honoris causa tantum* except on the conditions contained in Ordinance of the University Court No. 109, Glasgow No. 28.

Schedule A - Master of Letters by Research

1. Admission to study for the Degree will normally be granted only from the beginning of the academical year.
2. (a) The following institution is recognised for the purpose of section 1 of the Resolution:
Glasgow School of Art.
- (b) On the recommendation of the Faculty concerned, and of the *Senatus*, the University Court may recognise, in the case of individual candidates, other institutions for the purpose of section 2 of the Resolution, where satisfactory arrangements can be made for the supervision of a candidate.
- (c) A full-time member of staff of a recognised institution may be nominated to Senate as a supervisor or as an internal examiner or a member of a Special Committee. In such cases, a member of staff from an appropriate subject area in the University shall be appointed also.
3. (a) In the Faculties of Arts and Education a candidate must submit the thesis for examination at the conclusion of the minimum period of full-time or part-time study specified by regulation. This period of study shall commence from the date of initial registration as a postgraduate student in the Faculty. In the case of candidates who do not submit the thesis at the conclusion of the minimum period of study, extension to the deadline may be granted in accordance with the following provisions:
 - (i) the Faculty Higher Degrees Committee may, on consideration of a stated case from the candidate's supervisor, approve an extension of one year full-time or two years part-time for full-time candidates, or two years part-time for part-time candidates.
 - (ii) the Senate, in exceptional circumstances, may approve a further final extension of up to one year full-time or part-time.
- (b) In the Faculty of Law, Business and Social Sciences the time limit for submission of theses is six years from first registration for full-time students and eight years from first registration for part-time students. Students who have reached the time limit without submitting a thesis may apply annually to the Higher Degrees Committee for an extension of one year, giving reasons for the delay and/or evidence of progress. Any such submissions must be supported by the supervisor or head of department.
4. A candidate must submit two copies of the thesis. The layout and binding should generally conform to the British Standard Institution's *Recommendations for the presentation of theses* (BS4821:1990), a summary of which is available in the University Library, or from the Clerk to the Faculty. The thesis must include a summary (250-750 words) which must be an adequate and informative abstract of the work. Both copies of the thesis, if approved for the Degree, shall become the property of the University, and be deposited in the University Library.
In the Department of Music, candidates may present themselves in Musicology, Musical Composition or Music Technology. In Musical Composition the candidate shall present a portfolio of composed music or work of equivalent creative depth or complexity comprising at least 2 pieces with a combined duration of at least eighty minutes. The portfolio may comprise instrumental, vocal or electroacoustic works or any combination thereof. It should include a written commentary of 5,000-7,000 words on the works contained. In Music Technology the candidate shall present a thesis of 20,000-40,000 words and project (weighted together: 100%). The project may be presented as a portfolio exemplifying and illustrating the thesis. This might involve a software/hardware project with details of its design and specification, and a description of its implementation. A research project would outline the design of experiments and present documentation and interpretation of the results. The thesis and the project taken shall be deemed to constitute a 'thesis which shall embody the results of the candidate's special study or research' as required under Regulation 2 of the Resolution.
5. All candidates must normally obtain the Certificate of Basic Information Technology Competence before submitting their thesis for examination.
6. In the Faculties of Education and Law, Business and Social Sciences the thesis must be in English. In the Faculty of Arts the thesis must normally be written and defended in English. Exceptionally, however, at the time of application the Faculty Higher Degrees Committee may approve arrangements whereby the thesis may be written and defended in a language other than English. Approval will normally be given only where the use of a language other than English is deemed appropriate by the relevant Department and the Higher Degrees Committee and where the Department and the Higher Degrees Committee are satisfied that appropriate arrangements can be made for supervision and examination.
7. (a) In the Faculty of Arts or Faculty of Education the normal standard of admission will be that of First or upper Second Class Honours but another qualification, being a qualification approved by the University Court as

provided in §2 of the Resolution may be accepted by the Faculty as being suitable for the programme of study which it is proposed that the applicant should follow.

- (b) In the Faculty of Law, Business and Social Sciences, the normal standard of admission will be that of a Degree with First or Second Class Honours of a Scottish University, or an approved equivalent qualification.
8. In the Faculty of Arts a research student intending to offer himself or herself for the Degree must obtain the approval of the Faculty for his or her candidature not later than the end of his or her first year of study.
9. (a) In the Faculties of Arts, Education and Law, Business and Social Sciences, candidates on a full-time basis must attend for regular supervision in the University throughout the period of study, except when given permission to prosecute research elsewhere in accordance with §2.
- (b) In the Faculty of Education, candidates on a part-time basis must be in attendance in the University of Glasgow for a minimum total period of three months.
 - (c) In the Faculty of Law, Business and Social Sciences, candidates on a part-time basis must be available for regular supervision throughout their period of study unless given permission otherwise by the Higher Degrees Committee.
 - (d) In the Faculty of Arts, candidates on a part-time basis must be in attendance in the University of Glasgow for a minimum total period of three months, and must be available to meet their Supervisor at least three times per session, on occasions preceding the Christmas, spring and summer vacations throughout the period of study, unless the Faculty Higher Degrees Committee has given permission otherwise.

Schedule B - Master of Letters by Prescribed Programmes

1. Admission to study for the Degree will normally be granted only from the beginning of the academical year.
- 2.(a) In the Faculty of Arts the normal standard of admission will be that of a Degree with First or upper Second Class Honours but another qualification, being a qualification approved by the University Court as provided in section 7 of the Resolution, may be accepted by the Faculty as being suitable for the programme of study which it is proposed that the applicant should follow.
 - (b) In the Faculty of Law, Business and Social Sciences, the normal standard of admission will be that of a Degree with First or Second Class Honours of any Institution of Higher Education recognised by the University Court as provided for in §7 of the Resolution, or an approved equivalent qualification.
- 3.(a) Schemes of Programmes and Examinations in the several fields of study, and any amendments thereto, shall be submitted by the Faculty concerned to the *Senatus* for its approval. Each scheme of examination shall indicate whether or not a dissertation will be required, and shall indicate the approximate length of the dissertation and the weight attached to it in relation to the whole examination; it shall also indicate at what stage of the programme each component examination and the submission of the dissertation shall be prescribed.
 - (b) In the case of a scheme of examination including elements of continuous assessment, if a student, for good cause, fails to submit a piece of work on time, an extension normally not more than three weeks might be granted by the Head of Department. If the student should then fail to submit the piece of work, final assessment will be based on such work as has been submitted. If a student, for good cause, submits no course work, a special three-hour examination or equivalent may be set in the September of the year in question at the discretion of the Board of Examiners.
4. All candidates must normally obtain the Certificate of Basic Information Technology Competence before presenting themselves for final examination of the course-work part of the degree and before proceeding to the dissertation.
5. In the Faculty of Law, Business and Social Sciences a candidate shall be deemed to have completed his or her curriculum when he or she has attended classes regularly and duly performed all prescribed work.
6. Full-time candidates for the Degree shall present themselves for final examination as the scheme of examinations shall determine, and shall present their dissertation for examination in the twelfth month of study.

Candidates for the Degree by part-time study may present themselves for examination at the summer diet (or such other time as the scheme may specify) of each year of study for part of the scheme of examination, if the scheme of examination so permits, provided that the whole scheme be covered in not more than three years unless a longer period is stated in the scheme of examinations. The examiners may, at their discretion, set a diet in September in appropriate cases for those candidates permitted to re-sit a summer diet examination or for candidates who for medical reasons failed to sit an examination at the summer diet.

Deferment may be permitted by the Senate on special cause shown.
7. If a dissertation is required, two typewritten copies must be submitted: the dissertation must be in English, except that where a scheme of examination so permits, it may be written in the language appropriate to the subject. If the Degree is awarded the original dissertation shall remain in the possession of the University.
8. In Faculties where the provision exists for the award of distinction or merit, the Examiners shall have discretion to recommend that the degree be so awarded. Details of the grading scheme, the requirements for the award of the Degree and the criteria for the award of Merit and Distinction are contained in the programme documentation.
- 9.(a) A candidate who fails to satisfy the Examiners for the Degree may be permitted by the Examiners to present himself for re-examination, on one occasion only and normally not later than two years from the date of his or her first (final) examination, in the whole of the examination, or in a specific component of the examination, as the Examiners may determine in each case; and in such cases the Examiners shall prescribe whether the candidate shall be required to attend the whole course or specific parts of the course, or whether the candidate may be permitted to present for re-examination without further

attendance on the course. An examination may be made up of components such as examination papers, submitted essays, and such other submitted work as the Examiners may determine.

- (b) In the Faculty of Law, Business and Social Sciences no more than half the total scheme of examinations may be retaken, other than for attested medical reasons. This may include re-sitting examination papers or resubmitting a dissertation; but not resubmitting essays, field reports or other forms of continuous assessment where these substitute for a paper or part of a paper under Regulation 3.
10. In the Faculties of Arts and Law, Business and Social Sciences, a student who fails to maintain satisfactory progress may be required to discontinue studies without presenting for examination. This decision will be taken by the relevant Faculty Higher Degrees Committee, before the spring vacation in Semester 2, on the recommendation of the Head(s) of Department(s) concerned.
11. The Examiners shall have discretion to recommend the award of a Postgraduate Diploma in the appropriate subject area to a student who has completed the course-work part of the MLitt Degree satisfactorily and has achieved a satisfactory standard in the examinations but who does not proceed, or who is not permitted to proceed, to the dissertation. The Examiners shall have similar discretion in the case of a student who is adjudged not to have achieved MLitt standard after submission of the dissertation.
12. The Examiners shall have discretion to recommend the award of a Postgraduate Certificate in the appropriate subject area to a student who has completed satisfactorily the appropriate part of the course-work as agreed by the *Senatus* on the recommendation of the appropriate Faculty.

Programmes of Study for the Degree of Master of Letters

Programmes governed by these regulations and recognised by the Senate for the Degree of MLitt are listed below. MLitt Degree Programmes governed by the generic regulations for taught masters degrees are identified in section VI above.

Aerial Photography with Geophysical Survey in Archaeology
 American Studies

MASTER OF LETTERS AND POSTGRADUATE DIPLOMA IN ENGLISH, EDUCATIONAL AND CULTURAL STUDIES

The Diploma / MLitt is a two year programme. The Diploma (first year of programme) consists of 5 courses, each worth 24 SCOTCAT points at M Level. The five Diploma courses are:

Adult Education;
 English Language and Linguistics;
 English Literature;
 Introduction to British Cultural Studies;
 Second Language Acquisition and English Language Teaching.

¹³ Taught at Christie's Education, London.

In addition to the five courses, the programme will be preceded by a non-assessed introductory study skills course designed to introduce students to postgraduate study. Students are required to attend a minimum of 75% of the scheduled class meetings for each course. An average mark of at least 50% across the 5 assessed courses is required for the award of the Diploma. In addition students will normally be expected to achieve at least 50% in the end-of-year Diploma examination. The final Diploma award will be made on the basis of the three best of the five course marks.

Those who achieve an average of 60% across the three best course marks and normally at least 60% in the Diploma examination are eligible to progress to the MLitt (second year of programme). The MLitt comprises research methods training and a dissertation of 12,000 - 15,000 words. The MLitt is worth 60 Scotcat points at M Level. For the award of the MLitt a minimum mark of 60% is normally required for the dissertation.

The Diploma and MLitt may be conferred with Distinction, subject to the achievement of an average of 70% across the relevant assessed work and also provided that no mark falls below 60%.

The programme is available to those who hold a good BA degree or equivalent from a reputable university (institution). Applicants whose first language is not English should provide an IELTS certificate (or equivalent). Such applicants must achieve a score of 6.5, with a minimum of 6 in each skill. Every MLitt student (second year of programme) will be required to provide an email address at which he/she is easily contacted.

Should the programme be offered overseas, such students are required to undertake a residence period in Glasgow for a minimum of two weeks. Those who fail to do so are not eligible for the award of the MLitt.

MASTER OF MUSIC

The Degree of Master of Music is awarded under University Court Resolution No. 416 which came into effect on 18 October 1995. The relevant provisions of that Resolution are set out below:

The following are the relevant provisions:

1. The Degree of Master of Music (MMus) may be conferred in the University of Glasgow in the Faculty of Arts.
2. A candidate for the Degree must be a Bachelor of Music with Honours or a Master of Arts with Honours in Music of the University, or must have obtained an equivalent degree or qualification from another University or Institution of Higher Education recognised for this purpose by the University Court on the recommendation of the *Senatus*, and must satisfy entrance requirements which shall be determined by the Head of the Department of Music.
3. The minimum period of prescribed research for the Degree shall be one year of full-time study or two years of part-time study. The candidate shall prosecute this research under the supervision of a primary and a secondary supervisor, drawn from the current staff. The primary supervisor should come from the subject area appropriate to the candidate's research and both supervisors are appointed by the Faculty Higher Degrees Committee on the recommendation of the Head of Department. The dissertation resulting from this research accounts for 60% of the overall result, the remaining 40% relating to course work and seminars arranged by the Department of Music. The Higher Degrees Committee shall have power for special reasons to permit a candidate to pursue study elsewhere for part of the prescribed period.
4. The Higher Degrees Committee in the Faculty of Arts shall consider all matters relating to the Degree and shall report to the *Senatus* thereon. It shall be competent for the Higher Degrees Committee to make recommendations to the *Senatus* with regard to the appointment of Examiners for the Degree.
5. It shall be competent for the University Court, on the recommendation of the *Senatus*, to recognise as teachers of the University for the purposes of the Degree such lecturers and other officers of the Royal Scottish Academy of Music and Drama as, having responsibility for research or courses qualifying for the Degree, may be proposed for such recognition by the Higher Degrees Committee.
6. (a) The Examiners for the Degree shall be such Professors and Lecturers of the University as the *Senatus* shall designate, together with teachers of the Royal Scottish Academy of Music and Drama appointed in accordance with section (b) below; and such external examiners as may be appointed by the University Court.
(b) The University Court may appoint as an examiner for the Degree, but not as an external examiner, any teacher recognised in accordance with Section 5 hereof.
7. The regulations for the Degree shall be as undernoted.

Regulations

1. Admission to study for the Degree will normally be granted only from the beginning of the academic year.
2. The normal standard of admission will be that of a Degree with First or Upper Second Class Honours, or the equivalent.
3. The Department of Music of the University shall be responsible for the research for the Degree, for the co-ordination of any supervision or teaching arrangements, and for providing the courses and seminars accompanying the individual research work.
4. All candidates must normally undertake the Postgraduate Research Training Courses in Information Technology and Library Skills, provided by the Arts and Humanities Graduate School before presenting their submission. They must normally obtain the Certificate of Basic Information Technology Competence before presenting their submission.

5. A candidate will be required to fulfil the following criteria in one of the three specialist areas:
- (i) Musicology:
- submission of an essay of 5,000-7,000 words relating to the introductory course in the discipline of music scholarship, history and criticism (weighting: 25%);
 - active participation in two courses of research seminars relating to the current research of lecturers within the department (weighting: 15%); at least one of these should be in the field of musicology, while the other may come from other seminar series offered by the department;
 - presentation of a Thesis, of 15,000-20,000 words (weighting: 60%).
- (ii) Composition:
- submission of a portfolio of compositions (weighting: 60%). The portfolio may consist of any combination of instrumental, vocal or electroacoustic works (totalling approximately 30 minutes duration). At least one composition must be performed at a public concert in the University or at an event associated with the University, during the course of the year of study. Active participation in two courses of research seminars relating to the current research of lecturers within the department (weighting: 15%); at least one of these should be in the field of composition, while the other may come from other seminar series offered by the department;
 - essay of 5,000-7,000 words (weighting: 25%).
The essay may be:
 - on a topic related to the portfolio of compositions; or
 - documentation and critical assessment of an educational, community or repertoire project undertaken with a performing ensemble associated with the university.
- (iii) Music Technology:
- submission of a project (weighting: 60%);
 - submission of an essay of 5,000 - 7,000 words (weighting: 25%);
 - active participation in two courses of research seminars relating to the current research of lecturers within the department (weighting: 15%); at least one of these should be in the field of music technology, while the other may come from other seminar series offered by the department.
6. A candidate must present the thesis, portfolio or project work for examination within eleven months of the date of initial registration as a postgraduate student in the Faculty of Arts (twenty-three months in the case of part-time study). In exceptional circumstances, and on submission of a stated case, an extension of six months may be approved by the Faculty Higher Degrees Committee.
7. A candidate must submit two bound typewritten or printed copies of the thesis and/or musical scores accompanied by a declaration that the research/composition has been carried out and the thesis and/or musical scores have been composed by the candidate, and that the material of the submission has not been accepted in fulfilment of the requirements of any other degree or professional qualification. In the case of musical compositions, the words "typewritten or printed" can mean either a score produced by means of notation software or a hand-written score notated in indelible ink.
- The layout and binding of the thesis should generally conform to the British Standard Institution's Recommendations for the presentation of theses (BS4821:1990), a copy of which is available in the University Library or from the Clerk to the Faculty. In the case of musical scores, the submission will conform to standard criteria reflecting current professional practice. If the Degree is awarded, both copies of the thesis shall become the property of the University and be deposited in the University Library.
8. A candidate who fails to satisfy the Examiners for the Degree may be permitted by the Examiners to revise and resubmit the thesis, portfolio or project work, on one occasion only and normally not later than one year from the date of the first (final) examination, in the whole of the examination, or in a specific component of the examination, under such conditions as the Examiners may determine in each case.

MASTER OF PHILOSOPHY

The Degree of Master of Philosophy will be governed by Resolution of the University Court with provision that:

- Candidates may either undertake a prescribed programme of study in accordance with Schedule A of the Regulations following, or undertake research in accordance with the provisions of Schedule B of the Regulations following.
- Every candidate for the Degree, before being admitted to a programme of study qualifying therefor, (a) must have obtained a Degree in any Institution of Higher Education specially recognised for this purpose by the University Court on the recommendation of the *Senatus Academicus*, provided always that a diploma or a certificate recognised in like manner as equivalent to a Degree may be accepted in place of a Degree and (b) must have satisfied the *Senatus* of his or her fitness to undertake advanced study.
- A candidate who is a full-time student shall follow a programme of study in the University or another Institution recognised for the purpose either for twelve months by research or for two academical years by prescribed programme. The *Senatus*

shall determine the departments of study in which a two-year programme is to be offered. The period of study for a candidate who is a part-time student shall be at least one year longer than that prescribed for full-time students.

These provisions notwithstanding, the Faculty may on special cause shown (i) extend the prescribed period of study for any full-time candidate by not more than one year; (ii) permit a candidate for the two-year Degree to pursue study elsewhere for a period not exceeding one semester.

4. The Faculty shall designate a Professor or Lecturer in the University to supervise the study of each candidate. The supervisor shall report at appropriate intervals as determined by Faculty on the progress of the candidate.
5. On the conclusion of his or her period of study each candidate shall present for such written examination as may be prescribed by the *Senatus*, and may be required to submit a dissertation. The candidate may also be required to undergo oral and/or practical examination.
6. The examiners for the Degree shall be such Professors and Lecturers in the University as the *Senatus* shall designate and such additional examiners as the University Court, on the recommendation of the *Senatus* shall appoint.
7. The regulations for the Degree shall be as stated in the Schedules hereto.
8. The Degree shall in no case be conferred on persons who have not satisfied the conditions hereinbefore set forth and shall not be conferred *honoris causa tantum* except on the conditions contained in Ordinance of the University Court No. 109, Glasgow No. 28.
9. Resolution No 500 of the University Court relating to the Degree of Master of Philosophy is hereby repealed

Schedule A - Master of Philosophy by Prescribed Programmes

1. Admission to study for the Degree will normally be granted only from the beginning of the academical year.
2. (a) In the Faculties of Arts and Education the normal standard of admission will be that of a Degree with First or upper Second Class Honours but another qualification, being a qualification approved by the University Court as provided in section 2 of the Resolution, may be accepted by the Faculty concerned as being suitable for the programme of study which it is proposed that the applicant should follow.
- (b) In the Faculty of Law, Business and Social Sciences, the normal standard of admission will be that of a Degree with First or Second Class Honours of any Institution of Higher Education recognised by the University Court as provided for in §2 of the Resolution, or an approved equivalent qualification.
3. (a) Schemes of Courses and Examinations in the several fields of study, and any amendments thereto, shall be submitted by the Faculty concerned to the *Senatus* for its approval. Each scheme of examination shall indicate whether or not a dissertation will be required, and shall indicate the approximate length of the dissertation and the weight attached to it in relation to the whole examination; it shall also indicate at what stage of the programme each component examination and the submission of the dissertation shall be prescribed.
- (b) In the case of a scheme of examination including elements of continuous assessment, if a student, for good cause, fails to submit a piece of work on time, an extension normally not more than three weeks might be granted by the Head of Department. If the student should then fail to submit the piece of work, final assessment will be based on such work as has been submitted. If a student, for good cause, submits no course work, a special three-hour examination or equivalent may be set in the September of the year in question at the discretion of the Board of Examiners.
4. All candidates must normally obtain the Certificate of Basic Information Technology Competence before presenting themselves for final examination of the course-work part of the degree and before proceeding to the dissertation.
5. In the Faculty of Law, Business and Social Sciences, a candidate shall be deemed to have completed his or her curriculum when he or she has attended classes regularly and duly performed all prescribed work.-
6. Full-time candidates for the Degree shall present themselves for final examination as the scheme of examinations shall determine.

Candidates for the Degree by part-time study may present themselves for examination at the summer diet (or such other time as the scheme may specify) of each year of study for part of the scheme of examination, if the scheme of examination so permits, provided that the whole scheme be covered in not more than three years unless a longer period is stated in the scheme of examinations.

The examiners may, at their discretion, set a diet in September in appropriate cases for those candidates permitted to re-sit a summer diet examination or for candidates who for good cause failed to sit an examination at the summer diet.

Deferment may be permitted by the Senate on special cause shown.

7. If a dissertation is required, two typewritten copies must be submitted: the dissertation must be in English, except that where a scheme of examination so permits, it may be written in the language appropriate to the subject. If the Degree is awarded the original dissertation shall remain in the possession of the University.

8. In Faculties where the provision exists for the award of distinction or merit, the Examiners shall have discretion to recommend that the degree be so awarded. Details of the grading scheme, the requirements for the award of the Degree and the criteria for the award of Merit and Distinction are contained in the programme documentation.
9. A candidate who fails to satisfy the Examiners for the Degree may be permitted by the Examiners to present for re-examination, on one occasion only and normally not later than two years from the date of his or her first (final) examination, in the whole of the examination, or in a specific component of the examination, as the Examiners may determine in each case; and in such cases the Examiners shall prescribe whether the candidate shall be required to attend the whole programme or specific parts of the programme, or whether he or she may be permitted to present for re-examination without further attendance on the programme. An examination may be made up of components such as examination papers, submitted essays, and such other submitted work as the Examiners may determine.
10. In the Faculties of Arts, Education, and Law, Business and Social Sciences, a student who fails to maintain satisfactory progress may be required to discontinue studies without presenting himself or herself for examination. This decision will be taken by the relevant Faculty Higher Degrees Committee, no later than the beginning of the spring vacation, on the recommendation of the Head(s) of Department(s) concerned.
11. The Examiners shall have discretion to recommend the award of a Postgraduate Diploma in the appropriate subject area to a student who has completed the course-work part of the MPhil Degree satisfactorily and has achieved a satisfactory standard in the examinations but who does not proceed, or who is not permitted to proceed, to the dissertation. The Examiners shall have similar discretion in the case of a student who is adjudged not to have achieved MPhil standard after submission of the dissertation.
12. The Examiners shall have discretion to recommend the award of a Postgraduate Certificate in the appropriate subject area to a student who has completed satisfactorily the appropriate part of the course-work as agreed by the *Senatus* on the recommendation of the appropriate Faculty.

Programmes of Study

No programmes of study for the Degree of MPhil have been recognised by the Senate for session 2005-06.

Schedule B - Master of Philosophy by Research

1. Admission to study for the Degree will normally be granted from the beginning of the academical year.
2. In the Faculties of Arts, Education, and Law, Business and Social Sciences, the normal standard of admission will be that of a Degree with First or Upper Second Class Honours but another qualification, being a qualification approved by the University Court as provided in section 2 of the Resolution, may be accepted by the Faculty as being suitable for the programme of research which it is proposed that the applicant should follow.
3. The minimum period of prescribed research for the Degree shall be one year of full-time study or two years of part-time study. The candidate shall prosecute this research under the supervision of a member of staff from the appropriate subject area appointed by the Faculty Higher Degrees Committee on the recommendation of the Head of Department. The Higher Degrees Committee shall have power for special reasons to permit a candidate to pursue study elsewhere for part of the prescribed period.
4. (a) On completion of the research the candidate shall present a thesis, normally 30,000 to 40,000 words in length, embodying the results of the work for examination for the degree. The candidate must expect to attend an oral examination.
(b) The thesis must normally be written and defended in English. Exceptionally, however, in the Faculty of Arts at the time of application the Faculty Higher Degrees Committee may approve arrangements whereby the thesis may be written and defended in a language other than English. Approval will normally be given only where the use of a language other than English is deemed appropriate by the relevant Department and the Higher Degrees Committee and where the Department and the Higher Degrees Committee are satisfied that appropriate arrangements can be made for supervision and examination.
5. All candidates must normally obtain the Certificate of Basic Information Technology Competence before submitting their thesis for examination.
6. A candidate must submit the thesis for examination within six months of the conclusion of the statutory period of full-time or part-time study specified by regulation. In the Faculty of Arts this period of study shall commence from the date of initial registration as a postgraduate student in that Faculty, and in the Faculty of Law, Business and Social Sciences, the period of study shall commence from the initial date of registration for this degree or for one of the other research degrees available in the Faculty. In exceptional circumstances, and on submission of a stated case, an extension of six months may be approved by the Faculty Higher Degrees Committee.
7. A candidate must submit two bound typewritten or printed copies of the thesis accompanied by a declaration that the research has been carried out and the thesis composed by the candidate, and that the thesis has not been accepted in fulfilment of the requirements of any other degree or professional qualification. The layout and binding of the thesis should generally conform to the British Standard Institution's *Recommendations for the presentation of theses* (BS4821:1990), a

copy of which is available in the University Library or from the Clerk to the Faculty. If the Degree is awarded, both copies of the thesis shall become the property of the University and be deposited in the University Library.

8. If the Examiners consider that the thesis has not achieved the standard required for the award of the Degree, they may recommend to the Faculty Higher Degrees Committee that the candidate be permitted to revise the thesis and resubmit it, on one occasion only, for the Degree under such conditions as the Examiners may prescribe in each particular case.

MASTER OF PRIMARY CARE

The Degree of Master of Primary Care is governed by Resolution 500 of the University Court which came into effect on 1st October 2002. The relevant provisions of that Resolution are set out below:

1. A degree of Master of Primary Care (MPC) may be conferred by the University of Glasgow in the Faculty of Medicine.
2. Before being admitted to study every candidate must have obtained a degree from a University recognised for this purpose by the University Court on the recommendation of the Senate. A relevant diploma or certificate recognised by the Court of the University of Glasgow on the recommendation of the Senate as equivalent to a degree may be accepted.
3. The normal period of study for the degree shall be twelve months of full-time study or twenty-four months of part-time study or thirty-six months part time study including evening study. A combination of full and part-time study may be undertaken of not less than eighteen months and not more than thirty-six months.
4. Each candidate shall undertake a prescribed course of study and shall present himself or herself for written examination or other assessment dependent on the module choice and outlined in the course prospectus. He or she shall also be required to submit a dissertation.
5. The examiners for the degree shall be such Professors and Lecturers in the University as the Senate shall designate and such additional examiners as the University Court, on the recommendation of the Senate, shall appoint.
6. A candidate for the MPC who is unable to submit a dissertation or whose dissertation is found to be unacceptable and who has satisfied the other requirements of the MPC programme, and accumulated 135 credits, may be awarded the Diploma in Primary Care.
A candidate who fails to pass one or more of the core modules after two attempts, but successfully accumulates 60 credits, may be awarded a Postgraduate Certificate in Primary Care.
7. The regulations for the degree and the diploma shall be as follows.

Regulations

1. Course Requirements

Every candidate shall be required to undertake a prescribed course of study, successfully complete prescribed assessments and submit a project dissertation. Candidates may be required to present themselves for oral examination.

2. Prescribed Programme

The programme for the degree comprises modules and a dissertation. Each module and the dissertation have a value in terms of credits. In order to qualify for the award of the degree a candidate must have gained a minimum of 180 credits (Scottish Masters level) comprising:

<i>Module</i>	<i>Credits</i>
<i>Compulsory</i>	
Principles for Public Health and Primary Care	15
Introduction to Statistical Methods	15
Research Methods	15
Primary Care	15
<i>Optional</i>	
Change Management for Primary Care	15
Clinical Governance & Effectiveness	15
Communication Skills for Primary Care	15
Learning in Practice	15
Partnerships in Primary Care	15
Primary Care in a Global Context	15
Social Justice	15
Understanding Evidence	15

Candidates who have successfully undertaken any of the above optional modules as part of their Continued Professional Development (CPD), within one year of applying to undertake the MPC, may transfer a value of no more than 30 credits towards the Degree at the discretion of the Management Board of the Section of General Practice & Primary Care. Also, candidates may select up to 2 approved* modules from the Master of Public Health programme or up to 2 modules selected from those offered by the Scottish MSc in Primary Care programme.

*Modules approved from the Master of Public Health Programme

	<i>Credits</i>
Advanced Epidemiology	15
Advanced Statistical Methods	15
Communicable Diseases	15
Environmental Health	15
Health Economics	15
International Health & Health Care Management	15
Population Health: Principles & Perspectives	15
Population Health: Policy & Practice	15
Principles of Public Health Nutrition	15
Quantitative Research Methods	7.5
Qualitative Research Methods	7.5
Social Science Applied to Public Health: sociology	7.5
Social Science Applied to Public Health: psychology	7.5

Candidates undertaking Advanced Statistical Methods and Advanced Epidemiology must have completed the basic modules, both of which are available for the MPC.

Total Compulsory and Optional Modules	135
<i>Dissertation</i>	45
Total (Modules plus Dissertation)	180

3. Examinations

Each module shall be assessed using a variety of assessment methods. A candidate shall normally be permitted two attempts only to pass a compulsory module. A candidate who fails to pass an optional module at the second attempt shall be permitted to undertake alternative modules up to a maximum of 30 credits.

4. Dissertation

The subject of the dissertation must be in a primary care setting or with a primary care focus and must be approved by the Programme Coordinator. The dissertation shall be prepared under the supervision of a designated member of staff. The dissertation shall be submitted by the third week of August of the year in which the programme is to be completed. The dissertation shall normally be no more than 20,000 words in length and shall be typewritten in English.

5. Postponement

Postponement of examinations or the submission date of the dissertation shall be granted only in exceptional circumstances. Postponement may only be granted by Senate on the recommendation of the Faculty of Medicine.

6. Final Assessment

The examiners shall have discretion to require a candidate to attend for an oral examination which will cover the detail of:

- (a) the project and
- (b) the compulsory modules and
- (c) any other assessment that the external or internal examiners define as appropriate.

The degree of Master of Primary Care will be awarded to candidates who have accumulated a minimum of 180 credits.

The Diploma in Primary Care will be awarded to candidates who have successfully accumulated 135 credits from the compulsory and optional modules.

7. Certificate of Basic Information Technology (IT) Competence

Every candidate must normally obtain the Certificate of Basic IT Competence in order to qualify for the award of the Degree of Master of Primary Care or the Diploma in Primary Care.

8. Exclusion

A candidate shall be excluded from both the Degree and the Diploma course if he or she fails to pass any of the compulsory modules after two attempts. A candidate shall be excluded from the Masters degree if he or she fails three optional modules after two attempts but may be permitted to complete the requirements for the Diploma.

Post Graduate Certificate in Primary Care

Candidates may matriculate on the Postgraduate Certificate in Primary Care programme which will be delivered on a Continued Professional Development (CPD) basis. A Postgraduate Certificate in Primary Care will be awarded to those students who undertake any four of the optional modules from the MPC Prescribed Programme, successfully completing the required assessments and therefore gaining 60 SCOTCAT points at M level. The core modules of the MPC, the majority of which are delivered by the Section of Public Health & Public Health Policy, are excluded from those available for the PG Cert. Candidates applying for this certificate must complete a Postgraduate Application Form of the Medical Faculty and matriculate in the standard way, specifying this course of study. Currently the available modules are:

<i>Modules</i>	<i>Credits</i>
Change Management for Primary Care	15
Clinical Governance & Effectiveness	15
Communication Skills for Primary Care	15
Learning in Practice	15
Partnerships in Primary Care	15
Primary Care in a Global Context	15
Social Justice	15
Understanding Evidence	15

Candidates must fulfil the conditions set out below:

1. Before being admitted to study every candidate must have obtained a degree from a University recognised for this purpose by the University Court on the recommendation of the Senate. A relevant diploma or certificate recognised by the Court of the University of Glasgow on the recommendation of the Senate as equivalent to a degree may be accepted.
2. Before being admitted to study every candidate must have current and relevant work experience in primary care, or have demonstrated an interest in primary care development.
3. The normal period of study for this certificate shall be 12 months of part time study, starting at the beginning of October, January or April. Students must matriculate for the Postgraduate Certificate before completing the required credits.
4. Students wishing to transfer to the MPC would need to apply in the normal way and fulfil the criteria for that degree. Entry to the MPC will however not be guaranteed and applications will be considered by the Management Board of the Section of General Practice & Primary Care on an individual basis.
5. Any student who progresses to the MPC must return the Postgraduate Certificate to the University before they can graduate with the MPC.
6. Each module shall be assessed using a variety of assessment methods. A candidate shall normally be permitted two attempts only to pass a module. A candidate who fails to pass a module at the second attempt shall be permitted to undertake alternative modules up to a maximum of 15 credits.
7. Postponement of the submission date of an assessment shall be granted only in exceptional circumstances. Postponement may only be granted on the recommendation of the Faculty of Medicine.

MASTER OF PUBLIC HEALTH AND DIPLOMA IN COMMUNITY HEALTH STUDIES

The Degree of Master of Public Health (MPH) is awarded under Resolution No. 217 of the University Court, which came into effect on 24th June 1981. The relevant provisions of the Resolution are as follows:

1. A Degree of Master of Public Health (MPH) may be conferred by the University of Glasgow in the Faculty of Medicine.
2. Every candidate before being admitted to course of study qualifying therefore must have obtained a degree from a University recognised for this purpose by the University Court on the recommendation of the *Senatus*. A relevant diploma or certificate recognised by the University Court on the recommendation of the *Senatus* as equivalent to a Degree may be accepted.
3. The normal period of study for the Degree shall be twelve months of full-time study, twenty-four months of part-time study or thirty-six months of part-time study.
4. Each candidate shall undertake a prescribed course of study and shall present himself or herself for written and, if required, oral examination. He or she shall also be required to submit a dissertation.
5. The examiners for the Degree shall be such Professors and Lecturers in the University as the *Senatus* shall designate and such additional examiners as the University Court, on the recommendation of the *Senatus* shall appoint.
6. The Degree may be awarded with Distinction to those candidates whose performance in the assessment for the Degree is outstanding.
7. A candidate for the MPH whose dissertation is found to be unacceptable and who has satisfied the other requirements of the MPH course, may be awarded the Diploma in Community Health Studies (DCHS).
8. A candidate registered for the MPH who successfully completes a minimum of four units (60 credits), but who decides not to continue with the programme, may qualify for the award of Postgraduate Certificate in Public Health (PGCertPH).
9. The Regulations for the Degree and the Diploma shall be as follows:

Regulations

1. Course Requirements

Every candidate shall be required to undertake a prescribed course of study, successfully complete prescribed assessments and submit a project dissertation. Candidates will also be required to present themselves for oral examination.

2. Prescribed Courses

The MPH is a modular course. Each module has a unit value. In order to obtain the degree of MPH candidates must have successfully completed taught modular courses to the value of 9 units and completed a dissertation worth 3 units. Four modules are compulsory. Other modules may be chosen from the following list:

<i>Module</i>	<i>Unit Value</i>
<i>Compulsory Modules</i>	
Principles for Public Health and Primary Care	1
Introduction to Statistical Methods*	1
General Epidemiology*	1
Research Methods	1
<i>Optional Modules</i>	
	<i>Unit Value</i>
Advanced Epidemiology*	1
Advanced Statistical Methods*	1
Communicable Diseases	1
Environmental Health	1
Health Economics	1
International Health and Health Care Management	1
Oral Health A	1
Oral Health B	1
Population Health: Policy and Practice	1
Practical Issues in Public Health Nutrition	1
Principles of Population Health	1
Practice of Public Health	1
Principles of Clinical Governance & Effectiveness	1
Principles of Public Health Nutrition	1
Qualitative Research Methods	0.5
Quantitative Research Methods	0.5
Social Sciences Applied to Public Health	1 / 0.5

In addition students may select modules from other postgraduate programmes including the Master of Primary Care.

* Students taking Advanced Epidemiology and/or Advanced Statistical Methods as compulsory modules must demonstrate to the satisfaction of the module co-ordinators and the MPH Co-ordinator that they already have the skills and knowledge covered in the General Epidemiology and Introduction to Statistical Methods modules.

3. Examinations

Each module will be assessed by either written examination, MCQ or essays or a combination of these. Students who fail to pass an optional module at the second attempt are permitted to undertake alternative modules up to a maximum of 14 attempted units (the dissertation counting as 3 units).

4. Dissertation

Candidates are required to undertake an approved research project on an aspect of public health under the direction of a designated supervisor and to submit a dissertation of no more than 20,000 words.

5. Postponement

Postponement of examinations or the submission date of the dissertation shall be permitted only in exceptional circumstances such as illness or hardship. Postponement may only be granted by Senate on the recommendation of the Faculty of Medicine.

6. Final Assessment

The examiners will have discretion to require a candidate to attend for an oral examination which will cover the detail of:

- The project and
- The compulsory modules
- Any other assessment which the external or internal examiners define as appropriate.

The Degree of MPH will be awarded to candidates who have accumulated 12 units (9 through taught modules and 3 via the project).

The Diploma in Community Health Studies may be awarded to a candidate who has successfully accumulated 9 units (through either taught modules or/and the project) subject to the exclusions outlined below.

7. Certificate of Basic Information Technology (IT) Competence

Every student must normally obtain the Certificate of Basic IT Competence in order to qualify for the award of the Degree of Master of Public Health.

8. Exclusion

A candidate will be excluded from both the Degree and the Diploma course if he fails to pass any of the compulsory modules after two attempts.

A candidate will be excluded from the Degree course if he fails three modules after two attempts, but may still be eligible for the Diploma.

MASTER OF RESEARCH

The Degree of Master of Research is awarded under Resolution No 469 which came into effect on 19 May 1999. The following are the provisions of that Resolution.

1. The Degree of Master of Research (MRes) may be conferred by the University of Glasgow in the Faculties of Biomedical and Life Sciences, Law, Business and Social Sciences, Medicine and Physical Sciences.
2. Before being admitted to study qualifying for the Degree of Master of Research, every candidate must satisfy the following conditions, namely:
 - (a) (i) he or she must have obtained a Degree in a University or College recognised for this purpose by the University Court on the recommendation of the *Senatus*, or
 - (ii) he or she must have obtained such other qualifications as may be recognised for this purpose by the University Court on the recommendation of the *Senatus*; and
 - (b) he or she must have fulfilled such other entrance requirements as may be specified for a particular course of study / research;
 - (c) he or she must have satisfied the *Senatus* of his or her fitness to undertake advanced research/study.
3. Candidates may be permitted to pursue a course of prescribed study / research on either a full-time or a part-time basis. The minimum period of study / research for each candidate shall be determined by the appropriate Faculty at the time of his or her admission, according to his or her qualifications and other relevant factors and shall normally be
 - (i) for full-time candidates, either twelve months or two academic years of full-time study / research;
 - (ii) for part-time candidates, either two or three academic years of part time study/research. In the Faculty of Law, Business and Social Sciences, except with the permission of the Senate, a candidate is required to complete the programme, including the submission of any dissertation, within 4 years from the date of a full-time candidate's initial registration in the programme or within 5 years from the date of a part-time candidate's initial registration in the programme.
4. The *Senatus* may for special reasons permit a candidate, whether full-time or part-time, to prosecute part of his or her studies elsewhere, in another institution recognised for the purpose by the University Court on the recommendation of the *Senatus*.
5. The Faculty concerned shall designate for each candidate a supervisor who shall report at least once in the year to the Faculty on the progress of the Candidate.
6. Syllabuses of courses and examinations, and any amendments thereto, shall be submitted by the Faculty concerned to the *Senatus* for its approval.
7. The examiners for the Degree shall be such Professors and Lecturers in the University of Glasgow as the *Senatus* shall designate, together with such External Examiners as the University Court, on the recommendation of the *Senatus*, shall appoint.
8. Each candidate shall present himself or herself for written examination and shall submit written reports or other work, as prescribed in each syllabus. He or she may also be required to take an oral or practical examination or both. Performance in work assessed during the course may be taken into account in determining the award of the Degree.
9. The examiners may recommend the Degree be awarded with Merit or Distinction.
10. A candidate who fails to satisfy the examiners for the Degree may be permitted by the examiners to present himself or herself for re-examination, on one occasion only and normally not later than two years from the date of his or her first (final) examination, in the whole of the examination, or in a specific component of the examination, as the examiners may determine in each case; and in such cases the examiners shall prescribe whether the candidate shall be required to re-attend the whole course or specific parts of the course, or whether he or she may be permitted to present himself or herself for re-examination without further attendance on the course. An examination may be made up of components such as examination papers, submitted essays, dissertations, laboratory reports, project reports and field reports.
11. The examiners shall have discretion to recommend the award of a Postgraduate Diploma of Research in the appropriate subject area to a student who has gained a minimum of 120 credits.
12. Details of the grading scheme, the requirements for the award of the Degree and the Postgraduate Diploma, and the criteria for the award of Merit and Distinction are contained in the course documentation.
13. (a) The following institutions are recognised for the purposes of Section 4 of this Resolution:
 - Beatson Institute for Cancer Research
 - Central Public Health Laboratory, Colindale
 - Dunstaffnage Marine Laboratory
 - European Molecular Biology Laboratory, Heidelberg
 - Fisheries Research Services Marine Laboratory, Aberdeen
 - Fisheries Research Services Freshwater Laboratory, Pitlochry
 - Glaxo SmithKline, Stevenage

Hannah Research Institute
 Institute for Animal Health
 Institute for Freshwater Ecology, Windermere
 National Institute for Biological Standards and Control
 Natural History Museum, London
 Royal Botanic Garden, Edinburgh
 Scottish Agricultural College
 Scottish Crops Research Institute, Invergowrie
 Scottish Universities Environmental Research Centre
 Specialist Virology Laboratory, Gartnavel General Hospital
 Universities Marine Biological Station, Millport

- (b) On the recommendation of the Faculty concerned, and of the *Senatus*, the University Court may recognise, in the case of individual candidates, other appropriate institutions for the purpose of Section 4 of the Resolution, where satisfactory arrangements can be made for the supervision of the candidate.
- (c) A full-time member of staff of a recognised institution may be nominated to Senate either as a supervisor or as an internal examiner or a member of a Special Committee. In such cases, a member of staff from an appropriate subject area in the University shall be appointed in addition.

Schedule A

1. Subjects in which the MRes may be offered in the Faculty of Biomedical and Life Sciences are as follows:

Bioinformatics
 Biomedical Sciences
 Biomedical Sciences (Anatomy)
 Biomedical Sciences (Cell Engineering)
 Biomedical Sciences (Exercise Science)
 Biomedical Sciences (Infection and Immunity)
 Biomedical Sciences (Medical Biochemistry and Molecular Biology)
 Biomedical Sciences (Molecular Genetics)
 Biomedical Sciences (Neuroscience)
 Biomedical Sciences (Plant Sciences)
 Ecology & Environmental Biology
 Evolutionary Biology & Systematics
 Marine & Freshwater Ecology and Environmental Management
 Molecular Functions in Disease

2. Subjects in which the MRes may be offered in the Faculty of Law, Business and Social Sciences are as follows:

Accounting
 Finance
 Human Geography
 Russian, Central and East European Studies
 Urban Research

MASTER OF SCIENCE

The Degree of Master of Science (MSc) will be governed by Resolution of the University Court with provision that:

1. The Degree of Master of Science (MSc) may be conferred by the University of Glasgow in the Faculties of Arts, Biomedical and Life Sciences, Engineering, Information and Mathematical Sciences, Law, Business and Social Sciences, Medicine and Physical Sciences; the Degree of Master of Science (Adult and Continuing Education) or (Adult and Continuing Education (Teaching Adults)) or (Adult and Continuing Education (Community Development)) or (Science and Science Education) in the Faculty of Education, the Degree of Master of Science (Medical Science) in the Faculty of Medicine, the Degree of Master of Science (Veterinary Science) in the Faculty of Veterinary Medicine.

The Degree of Master of Science may also be conferred by the *Senatus* either on the recommendation of the Board of Studies in Information Technology or on the recommendation of the Scottish Agricultural College.

2. Candidates for the Degree may either undertake, subject to the decision of the Faculty concerned, one of the following programmes:
- A. research in accordance with the requirements of Schedule A below;
- B. a prescribed course of study in accordance with the requirements of Schedule B below;
- C. a programme of work-based learning in accordance with the requirements of Schedule C below.

Research or study in respect of A or B shall be prosecuted in the University of Glasgow or in another institution recognised for the purpose by the University Court on the recommendation of the *Senatus*, except as provided under Section 5 below.

3. Before being admitted to study qualifying for the Degree of Master of Science, every candidate must satisfy the following conditions, namely:

- (a) (i) he or she must have obtained a Degree in a University or College recognised for this purpose by the University Court on the recommendation of the *Senatus*, or a Degree awarded by the Council for National Academic Awards; *or*
- (ii) he or she must have obtained a diploma or certificate recognised as equivalent to a Degree for this purpose by the University Court on the recommendation of the *Senatus*; *or*
- (iii) in exceptional circumstances, he or she must have obtained such other qualification(s) as may be recognised for this purpose by the University Court on the recommendation of the *Senatus*; *and*
- (b) he or she must have fulfilled such other entrance requirements as may be specified for a particular programme of research, study or work-based learning; *and*
- (c) he or she must have satisfied the *Senatus* of his or her fitness to undertake advanced study.
4. (a) Candidates may be permitted to pursue a course of prescribed study or research on either a full-time or a part-time basis. Full-time candidates must devote the major part of the day to their studies; provided that candidates shall be subject to the same provisions regarding minimum periods of study as full-time candidates if they have pursued their studies while holding appointment as a member of the teaching staff of the University of Glasgow, or as a Research Assistant or Research Fellow of the University of Glasgow paid through the Finance Office or directly by a grant-awarding body approved by the University Court.
- (b) The minimum period of study for each candidate shall be determined by the appropriate Faculty at the time of his or her admission, according to his qualifications and other relevant factors, and shall normally be:
- (i) for full-time candidates, either twelve months or two academic years of full-time study;
- (ii) for part-time candidates, either two or three academic years of part-time study.
- (c) To qualify for the shorter minimum periods of study specified in (b) above, candidates should normally possess a Degree with Honours of the First or Second Class of an approved University, or a qualification deemed equivalent by the Faculty concerned.
- (d) Where the longer minimum period of study has been initially prescribed but the candidate has made sufficient progress, the *Senatus* may subsequently reduce the total period of study to not less than twelve months of full-time study or two academic years of part-time study as appropriate.
5. The *Senatus* may for special reasons permit a candidate, whether full-time or part-time, to prosecute part of his or her studies elsewhere, provided that normally at least half of the candidate's total period of study is prosecuted in the University of Glasgow or in a recognised Institution.
6. The Faculty concerned shall designate for each candidate a supervisor who shall report at least once a year to the Faculty on the progress of the candidate.
7. **Certificate of Basic Information Technology (IT) Competence**
- Every student must normally obtain the Certificate of Basic IT Competence in order to qualify for the award of the Degree of Master of Science (Medical Science).
8. (a) The Degree of Master of Science (Medical Science) may be awarded with Distinction to those candidates undertaking a prescribed course of study in accordance with the provisions of Schedule B whose performance in the assessment for the degree is outstanding.
- (b) In the Faculty of Law, Business and Social Sciences the Examiners shall have discretion to recommend that the degree be awarded with Distinction or Merit to those candidates undertaking a prescribed course of study in accordance with the provisions of Schedule B. Details and the criteria for the award of Merit and Distinction are contained in the course documentation.
9. The Degree of Master of Science (MSc) or the Degree of Master of Science (Science and Science Education), or the Degree of Master of Science (Medical Science) or the Degree of Master of Science (Veterinary Science) may be conferred *honoris causa* (a) upon persons who have done work deserving of such recognition in any department in the Faculty of Science, Medicine, Engineering and Veterinary Medicine and (b) upon any person holding office in the University who is not already a graduate of the University.
10. Resolution of the University Court No. 223 - Degree of Master of Science - is hereby repealed.

Schedule A: Master of Science by Research

1. Research Students within the meaning of Ordinance 350 (General No 12) may be candidates for the Degree of Master of Science, or Master of Science (Science and Science Education), or Master of Science (Medical Science) or Master of Science (Veterinary Science) in any appropriate area of study in the Faculties of Medicine, Science, Education, Engineering or Veterinary Medicine.
2. On completion of the prescribed period of research, each candidate shall present a thesis embodying the results of his work. The thesis must be in English. The thesis may be either a record of original research, or a critical review of existing knowledge. In either case, either a written or an oral examination, or both, may be required, and candidates shall be notified of such requirements through their supervisors.

3. In no case shall the thesis required from a candidate be submitted before the completion of twelve months from the date of his admission as a research student. Except by special permission of the *Senatus*, a thesis may not be presented after the lapse of 12 months from the date on which the candidate ceases to be a matriculated student.
4. Application for examination for the Degree of MSc, or the Degree of MSc (Science and Science Education), or the Degree of MSc (Medical Science) or the Degree of MSc (Veterinary Science), must be submitted in accordance with the procedures of the appropriate Faculty, details of which may be obtained from the Clerk to the Faculty on request.
5. A Committee of Examiners shall be appointed to examine the thesis of each candidate. The Committee shall consist of one or more members appointed by the *Senatus*, together with one or more external examiners appointed by the University Court on the recommendation of the *Senatus*. The Examiners shall conduct such oral and written examinations as they may desire or as the *Senatus* may prescribe in each case, but in no case shall the examination of the thesis constitute less than half of the final assessment.
6. A candidate must submit two bound printed or typewritten copies of his or her thesis which shall, if the Degree is awarded, both remain the property of the University. The thesis must include a summary (250-1,000 words), which must be accompanied by a declaration by the candidate that it has been composed by himself or herself. The candidate must also state the extent to which he or she has availed himself or herself of the work of others, and must further state which portions of the thesis, if any, he or she claims as original. The layout and binding of the thesis should generally conform to the British Standards Institution's *Recommendations for the Presentation of Theses and Dissertations* (BS4821:1990), a summary of which is available in the University Library or from the Clerk to the appropriate Faculty.
7. In the case of a thesis not approved for the Degree of MSc or the Degree of MSc (Science and Science Education) or the Degree of MSc (Medical Science) or the Degree of MSc (Veterinary Science), the *Senatus*, on the recommendation of the Committee of Examiners, may permit re-submission of the thesis in a revised form under such conditions as may be prescribed in each case.

Schedule B: Master of Science by Prescribed Courses

1. The *Senatus* may, on the recommendation of the Faculty concerned, institute courses of study for the Degree of Master of Science, or Master of Science (Science and Science Education) or Master of Science (Medical Science) or Master of Science (Veterinary Science) or Master of Science (Adult & Continuing Education) or (Economics) or (Economics Finance) or (Organisational Development Practice) or (Managerial Research) or (Research Methods of Psychological Science) in any appropriate subject in the Faculties of Medicine, Information and Mathematical Sciences, Physical Sciences, Education, Engineering, Veterinary Medicine or Social Sciences. The Degree of Master of Science may also be conferred by the *Senatus* on the recommendation of the Scottish Agricultural College. Such courses may be made available on a full-time basis or on a part-time basis or both, as shall be specified in the approved syllabus for each course.
2. Syllabuses of Courses and Examinations, and any amendments thereto, shall be submitted by the Faculty concerned to the *Senatus* for its approval. Each syllabus shall include a requirement for a dissertation, which shall consist of a critical review of existing knowledge and/or the report of a project in the field of study, and shall account for at least one-quarter of the weight of the final examination. The general nature and length of the dissertation, and the weight attached to it, shall be indicated in each course syllabus. Two typewritten copies of the dissertation shall be submitted, which shall remain in the possession of the University. The dissertation must be in English.
3. The Faculties and subjects in which, governed by these regulations, the Degree may be awarded are listed below. MSc Degree Programmes governed by the generic regulations for taught masters degrees are identified in Section VI above.

Faculty of Arts

Information Management and Preservation

Faculty of Education

Adult and Continuing Education

Adult and Continuing Education (Community Development)

Adult and Continuing Education (Teaching Adults)

Educational Studies

Psychological Studies

Science and Science Education

Faculty of Engineering

Desalination Technology

Electronics and Electrical Engineering

Flood Risk Management¹⁴

Geotechnical Engineering¹⁵

Structural Engineering and Mechanics¹⁶

Water Resources Engineering Management¹⁷

¹⁴ Courses run jointly with Heriot-Watt University

¹⁵ Courses run jointly with Heriot-Watt University

¹⁶ Subject to completion and approval by Senate of a Memorandum of Agreement; courses to be run jointly with the University of Edinburgh

¹⁷ Courses run jointly with Heriot-Watt University

Note: For Faculty of Engineering MSc Programmes not falling under schedule B see entry for MSc in System Level Integration

Faculty of Information and Mathematical Sciences

Advanced Computing Science
 Information Technology
 Information Technology (Arts)
 Information Technology (Bioinformatics)
 Information Technology (Health)
 Information Technology (Management)
 Information Technology (Software)
 Psycholinguistic Research Methods
 Psychology
 Research Methods of Psychological Science

Faculty of Law, Business and Social Sciences

Contemporary Economic History
 Development Studies
 Economic Development
 Economics, Banking & Finance¹⁸
 Environment and Sustainable Development
 Finance and Economic Development
 Financial Economics¹⁸
 History
 History (with an emphasis on the History of Medicine)
 History and Computing (with and emphasis on the History of Medicine)
 Housing Studies (also available part-time)
 Human Services Research
 International Banking and Finance
 International Economics¹⁸
 International Finance and Economic Policy
 International Macroeconomics and Finance¹⁸
 Local Economic Development
 Monetary Economics and Finance
 Project Planning and Development Policy Analysis
 Russian and East European Studies
 Social History¹⁹
 Social Science Research
 Sociology
 Urban and Housing Practice
 Urban Policy and Practice
 Urban Policy Analysis
 Urban Regeneration

Faculty of Medicine

For the Degree of MSc (Med Sci)

Applied Neuropsychology
 Clinical Neuropsychology
 Clinical Nutrition
 Clinical Pharmacology
 Clinical Physics
 Forensic Medicine (two years full-time duration)
 Health Care
 Human Nutrition
 Medical Genetics
 Medicine and Science in Sport and Exercise (in collaboration with Strathclyde and Caledonian Universities)

¹⁸ Subject to Senate approval

¹⁹ Taught jointly with the University of Strathclyde

Faculty of Veterinary Medicine

Veterinary Anatomy
 Veterinary Animal Husbandry
 Veterinary Clinical Biochemistry
 Veterinary Medicine
 Veterinary Parasitology
 Veterinary Pathology
 Veterinary Pharmacology
 Veterinary Physiology
 Veterinary Surgery

Scottish Agricultural College

Applied Poultry Science

4. All candidates must normally obtain the Certificate of Basic Information Technology Competence before submitting their thesis for examination.
5. Candidates for the Degree will normally be admitted only from the beginning of the academical year.
6. The examiners for the Degree shall be such Professors and Lecturers in the University of Glasgow as the *Senatus* shall designate, including the Professor or Lecturer in charge of the department concerned, together with such external examiners as the University Court, on the recommendation of the *Senatus*, shall appoint.
7. Each candidate shall present himself or herself for written examination, and shall also submit a dissertation, as prescribed in each syllabus. He or she may also be required to take an oral or practical examination or both. Performance in work assessed during the course may be taken into account in determining the award of the Degree.
8. A candidate who fails to satisfy the examiners for the degree may be permitted by the examiners to present himself or herself for re-examination, on one occasion only and normally not later than two years from the date of his or her first (final) examination, in the whole of the examination, or in a specific component of the examination, as the examiners may determine in each case; and in such cases the examiners shall prescribe whether the candidate shall be required to re-attend the whole course or specific parts of the course, or whether he or she may be permitted to present himself or herself for re-examination without further attendance on the course. An examination may be made up of components such as examination papers, submitted essays, dissertations, laboratory reports, project reports and field reports.
9. If the Faculty permits the awards of Merit and/or Distinction to be made for any of its Master of Science Degrees, the requirements for the award of Merit and/or Distinction will be contained in the course documentation.

Schedule C: Master of Science by Work-based Learning: General Regulations

1. The *Senatus* may, on the recommendation of the Faculty concerned, approve a programme of work-based learning for the Degree of Master of Science set out as a personal Learning Programme Agreement between the candidate, and the sponsoring organisation and the University of Glasgow acting in collaboration.
2. The Learning Programme shall be undertaken primarily at the candidate's place of work and shall provide for regular supervision of the candidate throughout the duration of the Programme, provided always that the *Senatus* shall have power in exceptional cases to permit the candidate to pursue elements of the Programme at locations other than the candidate's place of work or the University of Glasgow.
3. The duration of the Learning Programme for the Degree of Master of Science shall be not less than two academic years, provided always that the *Senatus* shall have power in exceptional cases to reduce the period by up to six months.
4. The outcomes of the Learning Programme shall normally be assessed by means of a written report spanning the constituent elements of the Programme and an oral examination. Two typewritten copies of the report shall be submitted, which shall remain in the possession of the University. The report must be in English.
5. Assessment shall be conducted in terms of current regulations.
6. The *Senatus* may, on the recommendation of the Faculty concerned, approve additional requirements specific to a particular programme of work-based learning.

Schedule D: General Provisions

1. (a) The following institutions are recognised for the purpose of Section 2 of the Resolution:
 - Animal Diseases Research Association, Moredun Research Institute
 - Beatson Institute for Cancer Research
 - Central Public Health Laboratory, Colindale
 - Department of Clinical Physics and Bioengineering of the West of Scotland Health Boards
 - Deutsches Elektronen Synchrotron Laboratory (DESY) Hamburg
 - Dunstaffnage Marine Laboratory
 - European Molecular Biology Laboratory, Heidelberg

European Nuclear Research Centre (CERN), Geneva
 Fisheries Research Services Marine Laboratory, Aberdeen
 Fisheries Research Services Freshwater Laboratory, Pitlochry
 Glasgow and West of Scotland Blood Transfusion Service
 Glaxo SmithKline, Stevenage
 Hannah Research Institute
 Institute for Animal Health
 Institute for Freshwater Ecology, Windermere
 National Institute for Biological Standards and Control
 Natural History Museum, London
 Papworth Hospital
 Royal Botanic Garden, Edinburgh
 Scottish Agricultural College
 Scottish Crops Research Institute, Invergowrie
 Scottish Universities Environmental Research Centre
 Specialist Virology Laboratory, Gartnavel General Hospital
 Universities Marine Biological Station, Millport
 Veterinary Research Laboratories, Stormont

- (b) On the recommendation of the Faculty concerned, and of the *Senatus*, the University Court may recognise, in the case of individual candidates, other appropriate institutions for the purpose of Section 2 of the Resolution, where satisfactory arrangements can be made for the supervision of the candidate.
- (c) A full-time member of staff of a recognised institution may be nominated to Senate *either* as a supervisor *or* as an internal examiner or a member of a Special Committee. In such cases, a member of staff from an appropriate subject area in the University shall be appointed also.

MASTER OF SCIENCE IN CRIMINAL JUSTICE

The degree of Master of Science in Criminal Justice will be governed by Resolution of the University Court with provision that the programme is offered by the University of Glasgow and the University of Strathclyde and that awards are made in the name of both Universities. These regulations are drawn up consequent upon the Memorandum of Co-operation between the University of Glasgow and the University of Strathclyde. Students shall be deemed to be students of both Universities and shall observe the respective Ordinances, Resolutions, rules and regulations of both Universities. For the University of Glasgow the Degree of Master of Science in Criminal Justice will be governed by a Resolution of the University Court, which at the date of going to press had yet to come into effect.

Copies of the regulations may be obtained from the Faculty Office in the Faculty of Law, Business and Social Sciences, and are those promulgated by the University of Strathclyde.

MASTER OF SCIENCE, POSTGRADUATE DIPLOMA AND CERTIFICATE IN MARINE TECHNOLOGY

These programmes are offered by the Universities of Glasgow, Heriot-Watt, Newcastle upon Tyne, Strathclyde, Southampton and University College London. Awards will be made by the individual partner institutions (see Schedule B).

For the University of Glasgow, the Degree of Master of Science, Postgraduate Diploma and Certificate in Marine Technology will be governed by Resolution of the University Court with provision that:

1. General Regulations

- (i) A Student registered for an award within the Programme will be subject to the provisions of the Rules, Regulations, Ordinances and Statutes of the Partner Institution with which he or she is registered.
- (ii) A Student registered for an individual module or for a module offered within the Programme by a Partner Institution(s) [other than, the institution with which he/she is registered for an award] will be subject to the provisions of the Rules, Regulations, Ordinances and Statutes of the Partner Institution(s).

2. Aims and Titles of the Awards

- (i) *Aim:* The programme will provide the marine industry within the UK with an MTP which will enable graduates working in industry to gain the necessary skills training in advanced technologies, management, business and IT. With this training they will be able to provide the necessary leadership and vision to maintain and enhance our 'World Class' status in this industry. The training will be relevant to current problems and functions of the marine sector and will be designed to enhance the industry's knowledge base and improve competitiveness. This will provide students with advanced technical and managerial techniques that can be applied in the marine industry and enable them to take on major responsibilities early in their careers.

- (ii) *Titles:* The Institutions have come together to deliver a joint Programme, however the awards will be in the name of individual institutions. Three awards will be available, the Degree of Master of Science, the Postgraduate Diploma, and the Postgraduate Certificate.²⁰ Not all the Partners Institutions will offer the Postgraduate Diploma or Postgraduate Certificate²¹, or offer the MSc with Distinction. [See Schedule B]

3. Admission

- (i) *Entry Qualification:* An applicant holding an Honours degree [normally 2(2)] or above of a United Kingdom Institution, or a Degree of any other Institution approved for this purpose, or an equivalent recognised award in an appropriate engineering or scientific discipline, may be admitted to a Programme of study leading to the award of the Degree of Master of Science, Postgraduate Diploma, or Postgraduate²² or may undertake individual Modules. The Partner Institutions may admit an applicant who is not a graduate provided that the applicant holds professional or other qualifications deemed equivalent for this purpose.
- (ii) *Acceptance Process:* An applicant will only be admitted to a Programme of study leading to the Degree of Master of Science, Postgraduate Diploma, or Postgraduate Certificate²³, or to take individual Modules, after he / she has first been accepted by the Director of Studies, in accordance with the normal postgraduate admissions procedures of the Institution with which the applicant wishes to register. The admission of an applicant may be subject to additional conditions specified by the Programme Director.
- (iii) *Language Requirement:* An applicant whose first language is not English, will be required to satisfy the Programme Director of an ability to understand and communicate, in both written and spoken English, which is adequate for the purpose of pursuing the course of study. Either before or after the application for admission to the Programme, the Course Director may require the applicant to attend a Programme of instruction and reach a satisfactory standard in the English Language.
- (iv) *Registration:* An applicant for the Degree of Master of Science, Postgraduate Diploma, Postgraduate Certificate²⁴, or individual Modules, must be admitted to the Programme at the start of the period of study and shall undertake to comply with the Charter, Statutes, Ordinances, Regulations and Rules of the Institution(s) holding his/her registration, and the Institution(s) where he/she will undertake individual modules.
- an applicant wishing to register for the award of the Degree of Master of Science, will normally register with the institution where his/her Project will be supervised.
 - registration for the Postgraduate Diploma or Postgraduate Certificate¹¹ may be held at the local Partner Institution or at an institution offering the intended award [See Schedule B].

An applicant will normally not be allowed to commence a period of study if fees are outstanding.

Upon registration and annual renewal, when appropriate, the applicant will be deemed to be a “Student”, undertaking the postgraduate Programme in Marine Technology.

- (v) *Deferred Registration:* If an applicant wishes to defer making a choice of Project and hence the supervising institution, then it will be necessary to temporarily register, either with the local Partner Institution or the Co-ordinating Institution [University of Newcastle]. Upon subsequently making a choice of Project, and with academic guidance, the Student’s registration will then be transferred to the institution supervising that Project. Such registration will normally be permitted only if the Student has completed less than one third of the Programme of study, based upon academic credits. In other exceptional cases, conditional upon approval by the Programme Director, registration may also be transferred.
- (vi) *Retrospective Registration.* As it is permitted to undertake individual taught modules and to receive academic credits, without registering for a postgraduate award, Students may retrospectively register for a postgraduate award and receive retrospective recognition of credits already obtained within this Programme. Such registration will normally be permitted only if the Student has completed less than one third of the Programme of study, based upon academic credits.
- (vii) *Postgraduate Diploma/Postgraduate Certificate²⁵.* A Student studying for the Degree of Master of Science shall be deemed also to be qualified for study for the Postgraduate Diploma or Postgraduate Certificate²⁶, if the latter is offered by the institution at which the Student is registered. A Student for a Postgraduate Diploma shall be deemed also to be qualified for study for a Postgraduate Certificate²⁷, if this is offered by the Institution at which the Student is registered [See Schedule B].

4. Structure of the Programme and Study Requirements

- (i) *Overall Structure of the Programme:* See Schedule A for the structure of the awards available.
- (ii) *Awards and Associated Learning Outcome:* The taught components [modules] each carry the same academic credit and have a similar balance of quantitative and qualitative material, thus the choice for Students lies in the breadth of study and whether to include a Project (compulsory for the MSc/Postgraduate Diploma), to provide experience in Project management.

²⁰ Not offered by the University of Glasgow - see Schedule B

²¹ Not offered by the University of Glasgow - see Schedule B

²² Not offered by the University of Glasgow - see Schedule B

²³ Not offered by the University of Glasgow - see Schedule B

²⁴ Not offered by the University of Glasgow - see Schedule B

²⁵ Not offered by the University of Glasgow - see Schedule B

²⁶ Not offered by the University of Glasgow - see Schedule B

²⁷ Not offered by the University of Glasgow - see Schedule B

Details of the Awards are given in Schedule A. In addition, Individual Taught Modules are available for Students wishing to study a specific topic.

- (iii) *Study Requirements: Master of Science:* Each Student for the award of the Degree of Master of Science is required to undertake a total of 180 credits. 100 credits are selected with academic guidance, from lists to be provided on an annual basis. Students are further required to undertake an 80 credit Project, usually in an industrial institution approved for this purpose. The Project title must be approved by the institution at which the Student is registered. An academic [Project] supervisor from the academic staff at the institution that will supervise the Project, will be appointed by that institution (normally that institution holding the Student's registration) upon receiving a recommendation from the Board of Examiners that the Students progress warrants commencement of the Project. An industrial advisor will normally be appointed from the industrial institution where the Project is to be carried out. A Dissertation describing the Project and the results of the Project will also be required.
- (iv) *Study Requirements: Postgraduate Diploma:* Each Student for the award of Postgraduate Diploma is required to undertake 120 credits, selected with academic guidance, from lists to be provided on an annual basis. A compulsory module is in the form of a "Mini Project" [a 40 credit Project with Dissertation, which is only available to Postgraduate Diploma Students], undertaken in an institution approved for the purpose. A Dissertation describing the Mini-Project and the results of this Project will be required. The Mini-Project title must be approved by the institution at which the Student is registered. The Academic Supervisor will normally be a member of the academic staff in the institution supervising the Mini-Project. An industrial advisor may be appointed from the industrial institution where the Project is being carried out, when deemed to be appropriate by the supervising institution.
- (v) *Study Requirements: Postgraduate Certificate*²⁸ Each student for the award of Postgraduate Certificate²⁹ is required to undertake 60 credits, selected with academic guidance, from lists to be provided on an annual basis.
- (vi) *Period of Module Study:* Each taught module will consist of 100 notional study hours of which one week is in residence at the institution that is the module provider. Reading and coursework will be prescribed for the non-residential part of the module.
- (vii) *Assessment and Penalties:* Components of the course work of each taught module will be assessed and Students will normally be required to undertake a supervised written examination or an extensive written report upon completion of the study period for each taught module.
- The written examinations will be held at a place and time to be published before the start of each taught module. Assessment of the MSc Project will be based upon the written MSc Dissertation and normally a 'viva voce' examination of the Student. Coursework will not normally be accepted after the scheduled submission date.
- Examinations will be conducted in accordance with the regulations of the institution that is responsible for the delivery of the module or the supervision of the Project.
- (viii) *Module Rate:* Students will normally be required to undertake a minimum of two taught modules per year. Students will be required to undertake the Marine Foundation and Core modules at an early stage of their studies.

5. Progression: Taught Modules

- (i) *Assessment:* A Student's understanding of the subject matter and his/her attainment of the learning outcomes for each module, will be assessed from problem solving assignments, a supervised examination and/or an extensive written report. External examiners will be nominated by the Board of Studies to act as moderators.
- (ii) *Conditions for Passing a Module:* A Student' will be required to achieve an overall weighted average of 50% in each module and also a minimum of 50% in the Project, to be eligible for a postgraduate award. No module may count towards more than one of the postgraduate awards [Degree, Postgraduate Diploma or Postgraduate Certificate³⁰].
- (iii) *Retaking an Examination:* A Student's failing to achieve 50% in a module may be permitted by the Board of Examiners, to present himself/herself, for re-examination on one occasion only, normally at the next available occasion and normally not later than two years from the date of the first examination. The Student will be required to achieve a minimum of 50% at the second sitting. Students who fail to achieve 50% at the second sitting, will be deemed to have failed the module and a re-take or replacement module will not be allowed.
- (iv) *Duration of Study:* The study time and credits required for each award are as follows:
- Master of Science: 1800 notional hours: 180 credits at level M
 Postgraduate Diploma: 1200 notional hours: 120 credits at level M
 Postgraduate Certificate³¹: 600 notional hours: 60 credits at level M
- For the Degree of Master of Science, the normal minimum time is 24 months with a maximum time of 60 months, for completion from the initial registration. For the Postgraduate Diploma, the normal minimum time is 24 months and a

²⁸ Not offered by the University of Glasgow - see Schedule B

²⁹ Not offered by the University of Glasgow - see Schedule B

³⁰ Not offered by the University of Glasgow - see Schedule B

³¹ Not offered by the University of Glasgow - see Schedule B

maximum of 60 months, and for the Postgraduate Certificate³² the normal minimum time is 12 months and a maximum of 36 months.

For the Degree of Master of Science it is required that all modules shall be satisfactorily completed within the 60 month period from initial registration, although the Board of Studies may grant Students permission for late submission of their MSc Dissertation, provided permission is sought prior to 60 months from initial registration. The allowed extension will be specific to the individual Student's circumstances. Normally only one extension will be allowed.

Upon the recommendation of the Director of Studies at the institution holding the Student's registration, the Board of Studies may extend the maximum period of registration, specified above for a given award, by not more than one year at a time.

- (v) *Distinction*: Students who obtain an average mark of 70% or more, and who are awarded a Dissertation mark of at least 70%, will be eligible for the award of the Degree of Master of Science with Distinction.

No Distinction will be awarded to a Student for the Postgraduate Diploma or Postgraduate Certificate³³.

6. Progression: Project and Dissertation

- (i) *Dissertation Submission*: The Dissertation or Mini-Dissertation may be submitted only after successful completion of the requisite number of taught modules [Sections 3.3, 3.4 and 4.2].

- (ii) *MSc Dissertation*: A Dissertation submitted for the Degree of Master of Science is required to contain a review of relevant material, a description of work undertaken and a detailed discussion of the results and conclusions. A Student must indicate by means of explicit references the citation of the work of others, or work by the Student, which is not part of his/her submission for the Degree. Work submitted for another Degree may not comprise part of the submission for the Degree of Master of Science.

Copies of the Dissertation must be submitted in sewn or hard-bound plain cloth, or in an approved alternative permanent binding, unless the regulations of the institution at which the Student is registered permits the submission in temporary covers, in which case after approval by that institution, copies must be bound in a form which is consistent with the regulations of the institution. Three copies must be submitted for examination to the institution not earlier than one month and normally not later than nine months after the successful completion of the final taught module. Students must provide notice of the intention to submit a Dissertation, together with a declaration that the Dissertation has been composed by the Student himself/herself, not less than one month before the date of submission.

The Dissertation will normally have a length not exceeding 80 pages [single sided, 1.5 line spacing and font size 11 - exact details to be included in the handbook] plus annexes. The Project carries 80 credits at level M with 800 notional hours of study time.

- (iii) *Mini-Dissertation*: A Mini-Dissertation submitted for the Postgraduate Diploma [see Section 3.4] is required to contain either a literature survey with a critical assessment of the technical material, or a report of an experimental Project carried out by the Student, containing details of the work undertaken, the results obtained and detailed conclusions.

Copies of the Mini-Dissertation must be submitted in an approved binding, unless the regulations of the institution at which the Student is registered permits the submission in temporary covers, in which case after approval by that institution, copies must be bound in a form which is consistent with the regulations of the institution. Three copies must be submitted for examination to the institution not earlier than one month and normally not later than nine months after the successful completion of the final taught module. Students must provide notice of the intention to submit a Mini-Dissertation not less than one month before the date of submission.

The Mini-Dissertation will normally be of a length of 40 pages [single sided, 1.5 line spacing and font size 11 - exact details to be included in the handbook] plus annexes. The Mini-Project carries 40 credits at level M with 400 notional hours of study time.

- (iv) *Oral Examination*: A candidate submitting for the Degree of Master of Science will normally be required to attend for an oral examination after submission of the Dissertation, which will normally be held within three months of the submission date. This will be carried out by two Dissertation Examiners and will be arranged by the Director of Studies in that institution.

7. Attendance

- (i) *Attendance and Submission of Work*: Attendance at all lectures, classes, laboratory sessions and tutorial periods, is normally compulsory for all Students undertaking a taught module, irrespective of whether they are undertaking a postgraduate course of study or a single taught module. Submission of all coursework will normally be mandatory. Students not meeting these conditions will not be permitted to sit the appropriate written examination.

- (ii) *Absence*: Students unable to attend the residential component of a module will be required to do so at a later date, or will be required to undertake another module, with the agreement of the Director of Studies at the institution where the Student is registered. If a Student is unable to attend a particular full day within the residential component of a module, for reasons of ill health or other good cause, then a medical certificate, or alternative equivalent evidence, will be required. Students missing sessions or lectures of a module should provide written evidence to the Director of Studies. Its acceptance will be at the discretion of the Board of Examiners.

³² Not offered by the University of Glasgow - see Schedule B

³³ Not offered by the University of Glasgow - see Schedule B

- (iii) *Withdrawal*: The Programme of study shall normally be continuously pursued although a Student may, with the permission of the Board of Studies, withdraw temporarily from the Programme of study. The period of interruption will normally not exceed one year. The time to complete the Programme of study will normally be extended by the duration of the period of interruption.

A Student who wishes to withdraw permanently before the normal completion of the course shall give notice in writing to his/her Director of Studies, who shall inform the Registry or Student Office of the Institution where the Student is registered, and the Programme Director who will be responsible for informing the Board of Studies and reporting the matter to the Board of Examiners.

8. Examination Boards, Procedures and Awards

- (i) *Board of Examiners*: The Board of Examiners shall operate as detailed in the Memorandum of Agreement. The minutes of the meetings of the Board of Examiners will be circulated to the Academic Secretaries, or equivalents, in the member Academic Institutions. The Directors of Studies will be required to bring to the meetings all assessed assignments and examination work for all of the Students, at all levels of attainment.
- (ii) *External Examiners*: The External Examiners may be appointed from industry or institutions that are not members of the consortium. External examiners will normally be appointed for three years in the first instance with a limited extension beyond three years being considered on an annual basis. Substitutes will not normally be allowed.
- External Examiners will receive all draft examination question papers and, where appropriate, titles of Dissertations. They will be given the examination scripts plus coursework and to read the Dissertations. The annual reports of the External Examiners will be sent by the Programme Director to the various Institution authorities.
- (iii) *Conditions for Award*: Students will qualify for a postgraduate award on the basis of academic credits achieved by successful completion of taught modules and/or a Project, as detailed in Section 5
- taught modules each carry 10 credits
 - the MSc Project Module carries 80 credits
 - the Postgraduate Diploma Mini-Project Module carries 40 credits.

The pass mark in all cases is 50% which must be achieved for each taught module and the Project.

MSc - accumulation of 180 credits entitles a Student to the award of the MSc.

Postgraduate Diploma - accumulation of 120 credits entitles a Student to the award of a Postgraduate Diploma.

*Postgraduate Certificate*³⁴ - accumulation of 60 credits entitles a Student to the award of a Postgraduate Certificate.³⁵

Individual Module - Students who successfully undertake an individual taught module will receive a 'Transcript' from the institution where the module was undertaken.

Distinction - A student who shows outstanding performance and who obtains a taught module average mark of 70% or more, and who is awarded a Dissertation mark of 70% or above, will be eligible for the award of the degree of MSc with Distinction. No Distinction will be awarded for the Postgraduate Diploma or Postgraduate Certificate.³⁶

- (iv) *Dissertation: Master of Science*: For Students seeking the award of the Degree of Master of Science the Dissertations will be examined by a member of academic staff, as well as the supervisor(s) of the Student, in the institution where the Student is registered. The examiners must recommend one of the following:
- that the Dissertation is of a sufficiently high standard to merit the award of the Degree of Master of Science with Distinction. This will only be possible if the earlier work of the Student merits such a classification.
 - that the Dissertation is of sufficiently high standard to merit the award of the Degree of Master of Science.
 - that subject to minor changes, where the re-typing and re-binding satisfies Section 5.2, the Student be awarded the Degree of Master of Science. The corrected Dissertation must be submitted within the period of six calendar months immediately following the date of recommendation. The revision should satisfy the examiners that the required standard has been met.
 - that the Student be required to resubmit a substantially revised Dissertation within the period of twelve calendar months, immediately following the date of the recommendation. The revision should satisfy the examiners that the required standard has been met.
 - that the Dissertation does not meet the requirement for the award of the Degree of Master of Science. In this case the Board of Studies may decide that achievement in the course work is equivalent to a satisfactory performance in a 40 credit project and therefore a Postgraduate Diploma can be awarded.
- (v) *Dissertation. Postgraduate Diploma*: For Students seeking the award of the Postgraduate Diploma, the Dissertations will be examined by a member of academic staff, as well as the supervisor(s) of the Student, in the institution where the Student is registered. The examiners must recommend one of the following:
- that the Mini-Dissertation is of sufficiently high standard to merit the award of Postgraduate Diploma.

³⁴ Not offered by the University of Glasgow - see Schedule B

³⁵ Not offered by the University of Glasgow - see Schedule B

³⁶ Not offered by the University of Glasgow - see Schedule B

- that subject to minor changes, where re-typing and re-binding satisfies Clause 5.3, that the Student be awarded the Postgraduate Diploma. The revised Mini-Dissertation must be submitted within the period of six calendar months immediately following the date of the recommendation. The revision should satisfy the examiners that the required standard has been met
 - that the Student be required to re-submit a substantially revised Mini-Dissertation within the period of twelve calendar months immediately following the date of the recommendation. The revision should satisfy the examiners that the required standard has been met.
 - that the Mini-Dissertation does not meet the requirement for the award of Postgraduate Diploma, but achievement in the course work merits the award of a Postgraduate Certificate.³⁷
- (vi) *Recommendation for an Award:* The Board of Examiners will make the final recommendation. The Degree of Master of Science, Postgraduate Diploma or Postgraduate Certificate³⁸ will be awarded in accordance with the procedures of the institution at which the Student is registered. No Student shall be entitled to an award unless all fees and any other monies due to the institution have been paid and any rightful property of the institution returned. The names of those who receive awards will be published in a manner appropriate to the awarding institution.
- (vii) *Individual Modules:* Students who undertake modules will be sent a “transcript” for each completed module, giving their provisional mark. This transcript will identify the module and the Institution awarding the credits at Level M. Following the Board of Examiners meeting, the student’s final mark will be issued.
- (viii) *General: Students Progress:* Students will normally be informed of their overall academic progress by the institution holding their registration, working in conjunction with the Co-ordinating Institution where the records will be collated and archived. Students will receive notification of individual results from the institution(s) delivering the module(s), in accordance with that institutions regulations, following the appropriate meeting of the Board of Examiners.
- (ix) *Appeals.* Appeals will only be accepted if they are in writing and submitted to the Programme Director, who will forward the appeals to the institution that is the module convenor, or is examining the Dissertation, providing the appeals are made within the timescale specified by that institution, and are in accord with the regulations of that institution.

9. Codes of Discipline

- (i) All students shall be subject to the disciplinary codes of each of the Partner Institutions where the study is undertaken.
- (ii) If an alleged offence is committed within the precincts of one of the Partner Institutions, the disciplinary code of that institution shall apply. When the location of the alleged offence is elsewhere other than within the precincts of one of the Partner Institutions, the Coordinating Institution’s code and procedures shall apply.

10. Complaints Procedure

- (i) Any student who wishes to complain about any general aspect of the Programme shall invoke the complaints procedure of the Coordinating Institution (The University of Newcastle).
- (ii) Any student who wishes to complain about a specific service or facility provided by a specific Partner Institution shall invoke the complaints procedure of that institution.

11. Appeals

Appeals shall ordinarily be made to, and considered in accordance with the Regulations of, the Partner Institution with which the Student is registered for an award. However, the appeal may be made to the Partner Institution providing a particular module [for example, where the appeal concerns an individual module provided by a Partner Institution other than the institution with which the Student is registered for an award].

12. Termination

The Programme of study by a Student may be terminated on the recommendation of his/her Director of Studies and the Board of Examiners, after endorsement by the Board of Studies, that his/her academic progress is considered unsatisfactory (Sections 3.8, 4.3, 4.4). Termination under this provision requires written warning of unsatisfactory performance to be given. A Student may be excluded from this Programme for other than academic reasons in accordance with the provisions of the Rules, Regulations and Ordinances of the institution holding his / her registration or where he / she undertakes the individual modules.

13. Amendments

Proposed amendments to these regulations must be submitted to the Board of Studies and the individual Partner Institutions for approval.

SCHEDULE A

A. *MSc IN MARINE TECHNOLOGY* (NAVAL ARCHITECTURE)

- or* (MARINE ENGINEERING)
or (OFFSHORE ENGINEERING)
or (SMALL CRAFT DESIGN)
or (CLASSIFICATION AND SURVEY)
or (CONVERSION AND REPAIR)
or (DEFENCE)

<i>Programme Code</i>	<i>Credits</i>	<i>Descriptive Title</i>	<i>Delivering University</i>
(i) Candidates from a non-marine background shall take the following marine foundation modules:			
A1	10	Naval Architecture	Soton
A2	10	Marine Engineering	UCL
(ii) Candidates shall take the following core modules:			
B1	10	Maritime Economics	Strath
B2	10	Marine project management	Ncl
B3	10	Risk, reliability and safety	HW
B4	10	Structural and material response in the marine environment	Glas
	80	Project	
(iii) Candidates shall take the following stream core modules, depending on the chosen stream:			
A. <i>Naval Architecture</i> (NA)			
C1	10	The regulatory framework for the marine industry	Strath
C2	10	Optimisation in engineering design	Ncl
C3	10	Advanced structural design and analysis	Glas
C4	10	Advanced hydrodynamics for design	Soton
B. <i>Marine Engineering</i> (ME)			
C5	10	Advanced marine engineering design	Ncl
C6	10	Marine system identification, modelling and control	Ncl
C7	10	Marine electrical and electronic systems	UCL
C8	10	Marine powering, transmission and propulsion	UCL
C. <i>Offshore Engineering</i> (OE)			
C9	10	Drilling and production process	HW
C10	10	Design of fixed and floating offshore	Glas
C11	10	Pipelines, moorings, umbilicals and risers	HW
C12	10	De-commissioning and re-use of offshore structures	Strath
D. <i>Small Craft Design</i> (SCD)			
C2	10	Optimisation in engineering design	Ncl
C13	10	Lightweight structural design	Glas
C14	10	High speed and Recreational craft	Soton
C15	10	Working craft design	Ncl
E. <i>Classification and Survey</i> (CS)			
C1	10	The regulatory framework for the marine industry	Strath
C3	10	Advanced structural design and analysis	Glas
C5	10	Advanced marine engineering design	Ncl
C16	10	Surveying ships and offshore installations	Ncl
F. <i>Conversion and Repair</i> (CR)			
C1	10	The regulatory framework for the marine industry	Strath
C2	10	Optimisation in engineering design	Ncl
C5	10	Optimisation in engineering design	Ncl

SCHEDULE B***MSc WITH DISTINCTION***

Those Partner Institutions offering the MSc award with Distinction are:

- University of Glasgow
- Heriot-Watt University
- University of Newcastle
- University of Southampton

POSTGRADUATE DIPLOMA

Those Partner Institutions offering the Postgraduate Diploma award are:

- University of Glasgow
- Heriot-Watt University
- University of Newcastle
- University of Southampton

POSTGRADUATE CERTIFICATE

Those Partner Institutions offering the Postgraduate Certificate award are:

- Heriot-Watt University
- University of Newcastle

MASTER OF SCIENCE (Medicine and Science in Sport and Exercise)

The MSc and Postgraduate Diploma in Medicine and Science in Sport and Exercise are awarded jointly with the University of Strathclyde and Glasgow Caledonian University, and are currently administered by the University of Strathclyde. Further information may be obtained at <http://www.strath.ac.uk/sportstudies/pg-info/medsports/index.html>.

³⁹ Not offered by the University of Glasgow - see Schedule B

MASTER OF SCIENCE IN SUPPLY CHAIN MANAGEMENT

The MSc Supply Chain Management is awarded jointly with the University of Strathclyde and Heriot-Watt University. Copies of the University of Strathclyde regulations governing the degree can be obtained from the Faculty Office in the Faculty of Law, Business and Social Sciences.

MASTER OF SCIENCE, DIPLOMA AND CERTIFICATE IN SYSTEM LEVEL INTEGRATION

The Master of Science (M.Sc.), Postgraduate Diploma and Postgraduate Certificate in System Level Integration is offered by the University of Edinburgh, the University of Glasgow, Heriot-Watt University and the University of Strathclyde, and the awards are made in the name of all four universities.

Master of Science in System Level Integration

The Degree of Master of Science in System Level Integration will be governed by a Resolution of the University Court, which at the date of going to press had yet to come into effect.

The relevant provisions of that Resolution are set out below:

General Regulations

Unless otherwise specified in these course specific regulations, the general regulations of the nominated administering university (presently the University of Edinburgh) shall apply to all students on the Masters Programme in System Level Integration.

1. Admissions

(i) Entrance Requirements:

Candidates must normally possess:

- at least a second class honours degree in Computing/Computer Science or Electronic and/or Electrical Engineering from a university in the United Kingdom; or
- a qualification deemed by the Institute Management Committee to be equivalent to the above; and/or
- professional or industrial experience deemed appropriate by the Institute Management Committee

(ii) Entrance Date:

Full-time students shall normally join the programme at the beginning of each academic year (early October). Part-time students may be allowed to join the programme at any appropriate point within the academic year.

(iii) Concurrent Registration and Transfer:

All graduating students shall normally be initially registered concurrently for the postgraduate degree/diploma/certificate until a final decision on award has been reached. Transfer between awards will normally occur through agreement between the student and Programme Director or as recommended by the Institute Board of Examiners. The Examiners shall have the discretion to recommend that a candidate registered for the Master of Science in System Level Integration transfer to the Postgraduate Diploma or Postgraduate Certificate in System Level Integration. The SCOTCAT credits given for work performed towards the Master of Science shall count towards the alternative award of Postgraduate Diploma or Postgraduate Certificate.

2. Duration of Study

The minimum and maximum duration of study is dependent on the individual award and applies to graduating students only. The following minimum and maximum duration of study applies:

(i) Normal Minimum Period of Study

Postgraduate Certificate:	4 months full-time, 12 months part-time.
Postgraduate Diploma:	9 months full-time, 18 months part-time.
Master of Science:	12 months full-time, 21 months part-time.

(ii) Normal Maximum Period of Study

Postgraduate Certificate:	12 months full-time, 3 years part-time.
Postgraduate Diploma:	2 years full-time, 5 years part-time.
Master of Science:	2 years full-time, 6 years part-time.

3. Nature of Study

The programme is organised in terms of a set of modules whose successful completion earns a SCOTCAT credit rating (Scottish Master's level). Each SCOTCAT credit accounts for 10 notional hours of student learning activity.

Activities may include lectures, self study, laboratories, seminars, tutorials, case studies, group work, project work, and work experience. It may be possible to carry out a proportion of these activities in a distance learning mode of study.

4. Curriculum

(i) Approved List of Taught Modules:

All candidates will undertake activities from an approved list, set out in Schedule A of these regulations, in order to make up an approved curriculum. Graduating students will normally complete ALL compulsory modules in order to be eligible for a postgraduate award in System Level Integration.

(ii) Master of Science:

All candidates for the award of Master of Science in System Level Integration will be required to undertake activities totalling 180 or more SCOTCAT credits (Scottish Masters Level) made up of 120 or more SCOTCAT credits (Scottish Masters Level) taken from the approved list of taught modules and normally including ALL compulsory modules. Additionally, there will be a distinctive dissertation reporting on a supervised project whose rating is 60 SCOTCAT credits (Scottish Masters Level). All candidates for the Master of Science will undertake this project activity which must be on an approved topic in System Level Integration.

(iii) Postgraduate Diploma:

All candidates for the award of Postgraduate Diploma in System Level Integration will be required to undertake 120 or more SCOTCAT credits (Scottish Masters Level) taken from the approved list of taught modules normally including ALL compulsory modules.

(iv) Postgraduate Certificate:

All candidates for the award of Postgraduate Certificate in System Level Integration will be required to undertake 60 or more SCOTCAT credits (Scottish Masters Level) taken from the approved list of taught modules normally including ALL compulsory modules.

(v) Diploma Practical Exercise:

With the permission of the Programme Director, candidates for the award of Postgraduate Certificate or Postgraduate Diploma in System Level Integration may substitute modules from the approved list with a practical exercise of value 20 SCOTCAT credits (Scottish Masters Level). This prescribed/optional practical exercise must be on an approved topic in System Level Integration.

Under Instruction from the Institute Board of Examiners, candidates for the award of Postgraduate Certificate or Postgraduate Diploma in System Level Integration may be directed to undertake a practical exercise of value 20 SCOTCAT credits (Scottish Masters Level) as an alternative to resitting failed or incomplete modules.

(vi) Recognition of Prior/External Learning or Experience:

With the approval of the Programme Director, recognition up to a maximum of 60 SCOTCAT credits (Scottish Masters Level), or equivalent, which have not contributed to the award of another degree, may be given for prior/external learning or experience. This recognition will normally be based on relevance to the System Level Integration theme and the award being sought. Maximum credit recognition for the following qualifications applies:

<i>Award</i>	<i>Maximum Recognition of Prior/External Learning</i>
Postgraduate Certificate	20 SCOTCAT Credits (Scottish Masters Level)
Postgraduate Diploma	40 SCOTCAT Credits (Scottish Masters Level)
Master of Science	60 SCOTCAT Credits (Scottish Masters Level)

5. Assessment

(i) Method of Assessment:

Each module will be assessed by any approved combination of written examinations, continuous assessment, a dissertation, or oral examinations.

(ii) The Board of Examiners:

The Board of Examiners shall consist of: the Programme Director; the co-ordinators of the taught modules; the Heads of the contributing Departments; the External Examiners; and such other members of academic staff of the partner Universities as may be required from year to year. The Board shall be chaired by a Professor of the nominated administering university. A quorum must include the External Examiners, the Programme Director and a representative from each of the Universities.

(iii) Reassessment:

A candidate whose performance in any activity fails to satisfy the Board of Examiners may be permitted by the Examiners to attempt to pass in that activity on one further occasion only and normally not later than 2 years from the date of the first attempt. In such cases the Examiners shall prescribe whether the candidate shall be required to re-attend the whole course or specific parts of the course, or whether the candidate may be permitted to present for re-examination without further attendance on the course.

6. Award

(i) Master of Science:

In order to qualify for the award of the Master of Science in System Level Integration, a candidate must have:

- accumulated no fewer than 180 SCOTCAT credits (Scottish Masters Level) on the basis of successful completion of the approved curriculum and/or recognised prior/external learning or experience;

- a pass in the individual dissertation worth 60 SCOTCAT credits (Scottish Masters Level) included in the total of 180 credits.

(ii) *Postgraduate Diploma:*

In order to qualify for the award of the Postgraduate Diploma in System Level Integration, a candidate must have accumulated no fewer than 120 SCOTCAT credits (Scottish Masters Level) on the basis of successful completion of the approved curriculum and/or recognised prior/external learning or experience.

(iii) *Postgraduate Certificate:*

In order to qualify for the award of the Postgraduate Certificate in System Level Integration, a candidate must have accumulated no fewer than 60 SCOTCAT credits (Scottish Masters Level) on the basis of successful completion of the approved curriculum and/or recognised prior/external learning or experience.

(iv) *Distinction:*

Both the MSc in System Level Integration and the Diploma in System Level Integration may be awarded with distinction.

SCHEDULE A

1. Taught Component

The main theme of the programme is that of System Level Integration, but a number of optional streams exist that allow students to specialise in a number of preferred areas. Masters and Diploma students must choose the equivalent of 10 full modules and Certificate students must choose the equivalent of 5 full modules from the following list of options that are normally offered. The total number of modules taken by a student is dependant on the mix of full and half modules taken and excludes the System Level Integration Overview module which is not assessed but must normally be taken as a prerequisite to the whole course.

- (i) The following core modules will normally be compulsory for Masters, Diploma and Certificate students

<i>Compulsory Modules (System Level Integration Theme):</i>	<i>Module Size (credits)</i>
System Level Integration Methodology Overview	one day duration not assessed
System Partitioning	12
IP Block Authoring	12
IP Block Integration	12
VLSI Design	12
Embedded Software I (System on Chip)	6

- (ii) In addition the following introductory courses may be prescribed or taken optionally by any student, depending on previous learning/ experience and the stream being followed:

<i>Prescribed/Optional Modules (Hardware/Software Primers):</i>	<i>Module Size (credits)</i>
Introduction to Embedded Software Engineering	6
Introduction to Hardware Design Automation	6

- (iii) The remainder of the required modules can be selected from the following optional modules provided that any prerequisite stated in the course documentation has been met:

<i>Optional Modules:</i>	<i>Module Size (credits)</i>
<i>Embedded Software Stream:</i>	
Embedded Software II (Operating Systems)	12
Embedded Software III (Applications)	6
<i>Hardware Design Stream:</i>	
Microcontrollers and Microprocessors	12
Analogue and Mixed Signal Design	12
Towards Deep Submicron Technology	6
<i>Applications and Systems Stream:</i>	
Communications Algorithms	12
Multimedia and Video	6
Mobile Communications	6
Broadband and Digital Networks	6

2. Masters Level Project

Each candidate for the Degree of Master of Science shall undertake a supervised project on an approved topic in System Level Integration. Candidates are required to submit a dissertation on this project. The dissertation and related activities are rated at 60 SCOTCAT credits (Scottish Masters Level).

3. Diploma Level Practical Exercise

A Diploma Practical Exercise of value 20 SCOTCAT credits (Scottish Masters Level) is available as a prescribed/optional credit bearing activity for Diploma and Certificate candidates. This diploma level practical exercise must be on an approved topic in System Level Integration.

MASTER OF SOCIAL WORK AND DIPLOMA IN SOCIAL WORK

The degree of Master of Social Work (MSW) will be governed by Resolution of the University Court with provision that the programme is offered by the University of Glasgow and the University of Strathclyde and that awards are made in the name of both Universities. These regulations are drawn up consequent upon the Memorandum of Co-operation between the University of Glasgow and the University of Strathclyde. Students shall be deemed to be students of both Universities and shall observe the respective Ordinances, Resolutions, rules and regulations of both Universities. For the University of Glasgow the Degree of Master of Social Work will be governed by a Resolution of the University Court.

Copies of the regulations may be obtained from the Faculty Office in the Faculty of Law, Business and Social Sciences, and are those promulgated by the University of Strathclyde.

MASTER OF THEOLOGY

The Degree of Master of Theology (MTh) is awarded under Resolution No. 290 of the University Court which came into effect on 24th September 1987. The relevant provisions of the Resolution are as follows:

1. The Degree of Master of Theology may be conferred by the University of Glasgow in the Faculty of Arts.
2. Candidates for the Degree may either undertake research in accordance with the provisions of Schedule A, or undertake a prescribed course of study in accordance with the provisions of Schedule B.
3. Before being admitted to study qualifying for the Degree of Master of Theology a candidate must:
 - (a) have obtained the Degree of Bachelor of Divinity in the University of Glasgow or in another University recognised for this purpose by the University Court on the recommendation of the *Senatus*, provided that the *Senatus* may, with the approval of the University Court, admit a candidate with such other qualifications as it may approve for this purpose or
 - (b) have satisfied the *Senatus* of his or her fitness to undertake advanced study.
4. Candidates may be permitted to pursue a course of prescribed study or research on either a full-time or a part-time basis. The minimum period of study for each candidate shall be one academic year of full-time study or two academic years of part-time study.

Candidates shall be subject to the same provisions regarding minimum periods of study as full-time candidates if they have pursued their studies while holding appointment as a member of the teaching staff of the University of Glasgow, or as a Research Assistant or Research Fellow of the University of Glasgow paid through the Finance Office or directly by a grant-awarding body approved by the University Court.
5. The Faculty shall designate for each candidate a supervisor who shall report at least once a year to the Faculty on the progress of the candidate.
6. The regulations for the degree shall be as stated in the Schedules thereto.
7. Ordinance of the University Court No. 531 (Glasgow No. 143) Degree of Master of Theology, is hereby repealed.

Schedule A - Master of Theology by Research

1. On completion of the prescribed period of research each candidate shall present a thesis embodying the results of his work. The thesis must be in English and shall not exceed 40,000 words. The candidate may also be required to undergo oral examination.
2. Except by special permission of the *Senatus*, a thesis may not be presented later than four years from the date of the candidate's admission.
3. A candidate must submit two bound typewritten copies of the thesis. The thesis must be accompanied by a declaration by the candidate that the research has been carried out and the thesis composed by the candidate, and that the thesis has not been accepted in fulfilment of the requirements of any other degree or professional qualification. The layout and binding of the thesis should generally conform to the British Standard Institution's *Recommendations for the presentation of theses* (BS4821:1990), an abstract of which is available in the University Library or from the Clerk to the Faculty. If the Degree is awarded, both copies of the thesis will remain in the possession of the University.
4. All candidates must normally obtain the Certificate of Basic Information Technology Competence before submitting their thesis for examination.
5. The examiners for the Degree shall be such Professors and Lecturers in the University as the *Senatus* shall designate, and such additional examiners as the University Court, on the recommendation of the *Senatus*, shall appoint.

6. In the case of a thesis not approved for the Degree of MTh the *Senatus* on the recommendation of the examiners may permit re-submission of the thesis in a revised form under such conditions as may be prescribed in each case.

Schedule B - Master of Theology by Prescribed Courses

1. The *Senatus* may on the recommendation of the Faculty of Arts institute courses of study for the Degree of Master of Theology in any appropriate subjects in the Faculty. Such courses may be made available on a full-time or on a part-time basis.
2. The syllabus for the Degree shall comprise three courses of guided reading and a dissertation on a subject to be approved by the Course Director. Two of the three courses must be taken from the courses offered by the Department of Theology and Religious Studies and one may be taken from such postgraduate level courses in any other department in the Faculty of Arts or Social Sciences as shall from time to time be approved by the Faculty. Any amendments to the list of courses shall be submitted by the Faculty to the *Senatus* for its approval. Each course and the dissertation shall be weighted equally.
3. The examiners for the Degree shall be such Professors and Lecturers in the University as the *Senatus* shall designate, and such additional examiners as the University Court, on the recommendation of the *Senatus*, shall appoint.
4. Each course shall be assessed by 3 x 3000 word essays, the titles of which will be approved by the relevant Course Director, to be submitted no later than 31st May in the final year of the Degree. The dissertation, to be written in English and not exceeding 15,000 words, shall be submitted by 30th September of the final year of the Degree. The title of the dissertation must be approved by the Course Director. The *Senatus* may, on special cause shown and after consideration of a stated case by the Faculty Higher Degrees Committee, defer the submission dates for the essays (but to no later than 6 months after the 31st May deadline) or for the dissertation (but to no later than one year after the 30th September deadline).
5. The Degree shall be awarded on the basis of an average of 60% over the four constituent elements. The Examiners may permit a candidate who does not achieve this level of performance in a particular course to submit one further essay but only one such re-submission shall be permitted in each course. In the case of a dissertation not achieving the minimum level of performance, the Examiners may permit re-submission in a revised form under such conditions as may be prescribed in each case.
6. All candidates must normally obtain the Certificate of Basic Information Technology Competence before submitting the essays and before proceeding to any dissertation.
7. The Examiners shall have discretion to recommend that the degree be awarded with Distinction to a candidate whose overall performance has averaged at least 70% with no mark in any one component having fallen below 60%.
8. The Examiners shall have discretion to recommend a Diploma award to a student who has completed to a satisfactory standard the course work part of the MTh but who does not proceed, or who is not permitted to proceed, to the dissertation. The Examiners shall have similar discretion in the case of a student who is adjudged not to have achieved the MTh standard after submission of the dissertation.

MASTER OF VETERINARY MEDICINE

The Degree of Master of Veterinary Medicine (MVM) will be governed by Resolution of the University Court with provision that:

1. The Degree of Master of Veterinary Medicine (MVM) may be conferred by the University of Glasgow in such departments of study in the Faculty of Veterinary Medicine as the *Senatus Academicus* may from time to time determine.
2. Research students within the meaning of Ordinance No. 350 (General No. 12), who have prosecuted in the University of Glasgow, or in an institution recognised for the purpose by the University Court on the recommendation of the *Senatus*, a course of special study or research in accordance with the provisions of that Ordinance, may offer themselves as candidates for the Degree of Master of Veterinary Medicine, under the following conditions, namely:
 - (a) that they have obtained a Degree in Veterinary Medicine and Surgery in a Scottish University or a comparable Degree in Veterinary Science in another University or College recognised for the purpose by the University Court on the recommendation of the *Senatus*, or in exceptional circumstances other qualifications approved by the University Court on the recommendation of the *Senatus*;
 - (b) that they have prosecuted a course of special study or research during a period which may be full-time or part-time.
3. Candidates who have devoted the major part of the day to the object of their research or study shall be regarded as full-time students. In such cases the period of study shall be not less than twelve months. All other candidates shall be regarded as part-time students in whose case the period of study shall normally be not less than twenty-four months.

A member of the teaching staff of the University or a person who holds an appointment as Research Assistant or Research Fellow of the University of Glasgow and is paid through the Finance Office or directly by a grant-aiding body approved by the University Court, may notwithstanding offer himself for the Degree of Master of Veterinary Medicine if he has prosecuted a course of special study or research on a part-time basis for a period of not less than twelve months.
4. The *Senatus* may, in certain circumstances, permit graduates of the University of Glasgow to prosecute part of their studies elsewhere, provided that a period of full-time study of not less than four months in total shall be spent in the University of Glasgow or a recognised institution.

5. The *Senatus* shall designate, for each candidate, a supervisor who shall report annually to the *Senatus* on the progress of the candidate.
6. On the completion of the prescribed period of study or research each candidate shall present a thesis embodying the result of his work which may be either a record of original research or a critical review of existing knowledge. Except by special permission of the *Senatus* a thesis may not be presented after the lapse of four years from the date of the candidate's admission.
7. A Committee of Examiners shall be appointed to examine the candidate. The Committee shall consist of one or more members appointed by the *Senatus* together with one or more Additional Examiners appointed by the University Court on the recommendation of the *Senatus*. The Examiners shall conduct such oral and written examinations as they may desire or as the *Senatus* may prescribe in each case.
8. The regulations for the Degree shall be as follows.

Regulations

1. Admission to study or research for the Degree normally will be from the beginning of the academic year.
2. In no case shall the thesis required from a candidate for the Degree of MVM be presented before the completion of twelve months from the date of his admission as a research student. Where the thesis is not a record of original research, either a written or oral examination or both, shall be required. In other cases a written or oral examination, or both, may be required and candidates will be notified of any such requirements through their supervisors.
3. Application for examination for the Degree of MVM should be submitted to the Clerk of Senate. In cases where a written examination has been prescribed application in any year must be made before the appropriate advertised date.
4. A candidate must submit two bound typewritten copies of his thesis which shall, if the Degree is awarded, both become the property of the University. A copy of an adequate and informative summary (250 - 500 words) shall be bound within each thesis. The layout and binding of the thesis should generally conform to the British Standard Institution's *Recommendations for the presentation of theses* (BS4821:1990), which is available in the University Library or from the Clerk to the Faculty. The thesis must be accompanied by a declaration by the candidate that it has been composed by himself. He must also state the extent to which he has availed himself of the work of others, and must further state which portions of his thesis, if any, he claims as original.
5. A thesis not approved for the Degree of MVM may not be re-submitted except that the *Senatus*, on the recommendation of the Committee of Examiners, may permit re-submission in a revised form after a further period of special study or research.
6. The candidate's supervisor shall always be a member of the Committee of Examiners.

VIII REGULATIONS FOR DOCTORATES

The University awards the following doctorates. These degrees may be awarded jointly with other institutions where the Senate has approved an agreement to this effect. Where such an agreement exists, the degree titles of the partner institution may be used for the award of joint degrees with the University of Glasgow.

<i>Faculty</i>	<i>Degree</i>	
All Faculties	Doctor of Philosophy (PhD)	80
Arts	Doctor of Letters (DLitt)	77
	Doctor of Music (DMus)	79
Biomedical and Life Sciences	Doctor of Science (DSc)	90
	Doctor of Education (EdD)	72
Education	Doctor of Philosophy (PhD) in Education Studies	89
	Doctor of Engineering (EngD)	72
Engineering	Doctor of Science in Engineering (DSc)	91
	Doctor of Science (DSc)	90
Information and Mathematical Sciences	Doctor of Laws (LLD)	76
	Doctor of Letters (DLitt)	77
Law, Business and Social Sciences	Doctor of Clinical Psychology (DClinPsy)	70
	Doctor of Dental Surgery (DDS)	71
Medicine	Doctor of Medicine (MD)	78
	Doctor of Science in Medicine (DSc(Med))	92
Physical Sciences	Doctor of Science (DSc)	90
	Doctor of Veterinary Medicine (DVM)	93
Veterinary Medicine	Doctor of Veterinary Surgery (DVS)	93

DOCTOR OF CLINICAL PSYCHOLOGY

The Degree of Doctor of Clinical Psychology is governed by Resolution No. 415 of the University Court, which came into effect on 18 October 1995. The provisions of the Resolution are as follows.

The Degree of Doctor of Clinical Psychology may be conferred by the University of Glasgow in the Faculty of Medicine.

Opening Statement- All students admitted onto the degree programme must follow the instructions issued by the relevant Department and be aware of the content of the Programme Document issued by the Department which will contain further details on the Programme including, in some cases, further requirements associated with the degree.

- 1 Before being considered for admission to study for a degree to which these regulations apply, a candidate must normally have obtained a degree qualification at second class upper or first class in Psychology which gives the Graduate Basis for Registration of the British Psychological Society.
- 2 The minimum period of study will normally be three calendar years for full time study, and up to five years for part time study.
- 3 In order to qualify for the award of a degree in the programmes covered in these regulations, the candidate must complete a minimum of 540 credits. At least 420 credits will be at SCQF Level 12. The programme shall consist of taught courses, integrated clinical-taught courses, clinical courses and a substantial piece of independent clinical research presented in thesis form amounting to at least 95 credits. A candidate must achieve a Grade C or better in all course components in each year in order to progress.

The taught courses will be undertaken during the academic session (September –June) and are specified in the relevant Programme document. The taught elements of the integrated clinical taught courses are also undertaken during the academic session (September – June) and are specified in the relevant Programme document. Clinical courses run throughout the year. The length, nature and content of the research thesis is specified in the relevant Programme Document.

- 4 The minimum requirement for the award of credits for a component of the programme shall be specified by the Department concerned, and given to candidates in writing at the beginning of the course. **This requirement shall normally include a minimum level of compliance with departmental instructions in terms of attendance at taught, integrated taught-clinical and clinical courses, and a specified minimum level of performance in assessed work, class examinations and on clinical courses.** Normally no grade or credits shall be awarded to a candidate who has not met this minimum requirement.
- 5 Candidates are entitled to be re-assessed on a single occasion in any course in respect of which they have achieved a result below a pass grade. Candidates are also entitled to a single resubmission of the thesis, or other substantial piece of work, if they have achieved a result below a pass grade. The grade awarded for any re-assessment will be no higher than pass grade.
- 6 To be eligible for any award covered by these regulations, a candidate must have acquired the University's Certificate of Basic IT Competence by completing the course of study offered by the IT Education Unit (ITEU) or by gaining exemption from the ITEU course through one of the routes indicated in Section XXV of the Fees and General Information section of the *Calendar*.

- 7 Subject to Regulation 6, a candidate will be eligible for the award of a degree on obtaining a pass grade or better in all the taught and integrated clinical-taught courses within the programme, as specified in Regulation 3 and obtaining a pass grade or better in the research thesis and other written work.

DOCTOR OF DENTAL SURGERY

The Degree of Doctor of Dental Surgery (DDS) will be governed by Resolution of the University Court with provision that:

1. The Degree of Doctor of Dental Surgery (DDS) may be conferred by the University of Glasgow.
2. (a) A candidate for the Degree shall be a Bachelor of Dental Surgery of a Scottish University or Institution recognised for this purpose by the University Court, on the recommendation of the *Senatus Academicus*, and shall have been engaged for at least four years either in scientific work bearing directly on his profession, or in the practice of dentistry.
(b) A prospective candidate for the Degree of Doctor of Dental Surgery shall submit a brief account of the work on which the thesis will be based. The work must be carried out in the University of Glasgow or an Institution recognised for this purpose by the University Court, on the recommendation of the *Senatus Academicus*. Before a candidate offers himself or herself for the Degree of Doctor of Dental Surgery, the Faculty of Medicine shall normally require the prospective candidate to have undertaken a period of full-time matriculated study of no less than two years, or four years part-time, under the supervision of a member of staff in the Faculty appointed for the purpose. Senate reserves the power, in exceptional cases, to reduce this period by one academic year. A candidate must submit the thesis for examination within twelve months of the conclusion of the statutory period of full-time or part-time study specified by regulation. A candidate holding an appointment as a member of the teaching or research staff of the University of Glasgow, paid through the Finance Office or directly by a grant awarding body approved by the University Court, may matriculate part-time whilst being subject to the same provisions regarding minimum periods of full-time study if he or she devotes the major part of the day, typically 75-80% of his or her time, to research studies.
(c) A candidate for the Degree shall submit for the approval of the Faculty of Medicine a thesis on any branch of knowledge comprised in or related to the curriculum for the Degree of Bachelor of Dental Surgery and shall normally be required to present himself or herself for oral or other examination in the subject-matter thereof.
(d) The thesis shall be presented in accordance with the following regulations:

Regulations

1. Two copies of each thesis are required. The layout and binding should generally agree with the British Standard Institution's *Recommendations for the presentation of theses* (BS4821:1990), which is available in the University Library or from the Dean of the Faculty of Medicine, with whom theses should be lodged.
2. A thesis may be a dissertation written for the purpose, but the results of original observations already published in medical or scientific journals or in the transactions of learned societies or otherwise may be submitted in place of such a dissertation. Such published papers submitted in lieu of a dissertation must be related and accompanied by a statement, preferably in the form of an essay, showing the relationship between the various studies and placing the whole work critically into perspective with the general state of knowledge in the field of investigation to which the candidate's researches are related.
3. A thesis will not be approved unless it gives evidence of original observation and makes a significant new contribution to knowledge. It should include accurate references to the literature of its subject.
4. A thesis may be considered unacceptable if it does not conform to accepted national standards of clinical research, ethics or animal welfare. Where original research involves human subjects the candidate will be required to confirm that each study protocol was reviewed in advance and approved by an independent Ethics Review Committee and that appropriate informed consent was obtained. In the case of studies involving laboratory animals, the candidate is required to confirm that the animal care and welfare and the procedures performed are conducted under an appropriate Home Office Licence or other national regulations.
5. A declaration signed by the candidate that the work has been done and written up by himself or herself must be submitted with the thesis. Where material based on work undertaken in collaboration with others is included in the thesis or reprints a separate statement clearly defining the extent of his personal contribution must also be submitted by the candidate. If any of the material contained in the thesis has been completed sometime before the date of submission, the candidate in his or her own interests should provide evidence of the originality of such work, for example, published papers. If any part of the subject matter of the thesis has been included in a thesis submitted or already approved for a Degree or Diploma in this or another University, the candidate must make a declaration to this effect and must lodge with his or her thesis a copy of such previously approved thesis and a full statement of the extent of any overlap.
6. An adequate and informative summary of not more than 1000 words should be bound in each copy of the thesis. One further unbound copy of the summary is also required.
7. If the thesis is approved, the copies submitted by the candidate shall become the property of the University.
8. In the case of a thesis not approved for the Degree of DDS, the Higher Degrees Committee, on the recommendation of the Examiners, may permit a candidate to re-submit the thesis on one occasion only and no later than one year from the date of the original submission.

DOCTOR OF EDUCATION

The regulations for the degree of Doctor of Education (EdD) are currently under review. Finalised regulations for this degree will be available from the Faculty Office, Faculty of Education, St Andrew's Building, Glasgow G3 6NH.

DOCTOR OF ENGINEERING in System Level Integration

The Doctor of Engineering in System Level Integration is offered by the University of Edinburgh, the University of Glasgow, Heriot-Watt University and the University of Strathclyde, and the awards are made in the name of all four Universities. The degree is conducted under the aegis of the Institute for System Level Integration and through the Management Committee of the Institute and is run in co-operation with industrial companies providing sponsorship of students. The University of Glasgow is currently the Administering University for the degree programme.

The Degree of Doctor of Engineering in System Level Integration will be governed by Resolution of the University Court with provision that:

1. The Degree of Doctor of Engineering (EngD) in System Level Integration may be conferred as a joint award by the University of Glasgow, the University of Edinburgh, Heriot-Watt University and the University of Strathclyde.
2. Before being admitted to study qualifying for the Degree of Doctor of Engineering in System Level Integration every candidate must normally possess:
 - (i) at least an upper second class honours degree in Computing / Computer Science or Electronic and/or Electrical Engineering from a university in the United Kingdom; or
 - (ii) a qualification from another University or College specially recognised for the purpose by the University Court on the recommendation of the Senate, as equivalent to the above or
 - (iii) a qualification together with professional or industrial experience deemed appropriate by the Management Committee for the degree programme.
3. The minimum period of prescribed study and research for this degree will be 48 months and the maximum period will be 5 years. Approximately 25 % of the student's time will be spent in a structured training programme. Approximately 75% of the student's time will be spent on one or more research project(s) with academic and industrial supervision. The candidate shall prosecute this research under the guidance of a supervision team, normally including two members of academic staff of the University of Glasgow and/or of other participating Universities and an Industrial Adviser appointed by the sponsoring company.
4. The Faculty of Engineering on the basis of advice from the Management Committee of the Institute of System Level Integration shall consider all matters relating to the Degree and shall report to the *Senatus* thereon. It shall be competent for the Management Committee of the Institute of System Level Integration to make recommendations through the Faculty of Engineering to the *Senatus* with regard to the appointment of Examiners for the Degree.
5. The Examiners for the Degree shall be such Professors and Lecturers of the University of Glasgow as the *Senatus* shall designate, together with such Professors or Lecturers of the other participating Universities as may be appointed for the purpose by these Universities and such external examiners as may be appointed by the Administering University.
6. The Senate shall have power to make such regulations for the degree as may be approved by the University Court.
7. The Degree of Doctor of Engineering may be conferred *honoris causa* but shall otherwise be conferred only upon persons who have satisfied the conditions set out in this Resolution and in its associated regulations.
8. The regulations for the Degree shall be as undernoted.

Regulations

1. Admission

- (a) The Management Committee, advised by the Centre Director, will recommend to the Administering University:
 - (i) the names of applicants to be admitted to the EngD Programme;
 - (ii) what recognition, up to the limit of 120 SCOTCAT credits or equivalent at postgraduate level, may be given to the period which the applicant has completed for the degree of Master of Science in System Level Integration or for any other relevant postgraduate award, towards the fulfilment of the requirements for the degree of Doctor of Engineering in System Level Integration;
 - (iii) the amount of project work done at postgraduate level which may be incorporated into the thesis submitted for the degree of Doctor of Engineering.
- (b) For each candidate undertaking a course of study leading to the degree there must be one or more Sponsoring Company(ies) which will be selected by the Management Committee on the recommendation of the Centre Director.
- (c) Any Research Engineer awarded the MSc in System Level Integration who wishes to transfer to the EngD programme will be expected to gain a further 60 non-technical credits from the taught schedule. These credits may be undertaken at any time during the remaining period of the EngD programme.

2. Duration of Study

- (a) The period of study for the degree may be extended only in exceptional circumstances on the advice of the candidate's supervisors and on written application from the Management Committee to the Administering University.
- (b) The Administering University, on the recommendation of the Management Committee, may permit a candidate to suspend his or her registration for a period if good cause is shown and on such conditions as the Administering University may prescribe.
- (c) Research Engineers may be admitted to the programme at anytime throughout the academic year.

3. Structure of Programme

- (a) The Research Engineer will take an active role in defining his or her professional development programme in line with the needs of the research project and his or her individual aims. The Supervision Team will guide the Research Engineer in selecting core and optional credits from technical courses, management and business credit courses, and other credit bearing courses, deemed by the EngD Management Committee to be appropriate and in accordance with these regulations.
- (b) The taught component of the programme may be delivered at the Institute for System Level Integration's premises at Livingston, at university campuses, or at independent sites, but all modules are taught by staff approved by one of the four universities. Project work, a requirement of the EngD programme, may be undertaken at the Institute for System Level Integration, in one of the four universities, or in the workplace of a Sponsoring Company (see below) under the day-to-day supervision of a person nominated by that Company and supported by an Academic Supervisor appointed by the Institute for System Level Integration.

4. Course of Study

- (a) For each Research Engineer, a Requirements Profile will be drawn up by his or her Supervision Team. The research programme will also be defined within the Requirements Profile. The Requirements Profile will be based upon his or her needs and aspirations so that the Research Engineer can achieve the objectives of the Engineering Doctorate. The Research Engineer will be consulted on the content of the Requirements Profile, which will embrace technical, business, personal, and taught elements of the course.
- (b) Each research theme will normally exhibit the following characteristics:
 - (i) it will be placed in a business context, taking full account of financial and commercial considerations;
 - (ii) it will be expected to lead to journal publications.

5. Taught Elements of the Programme

- (a) Research Engineers will undertake a selection of modules, delivered as part of the Institute for System Level Integration's full-time MSc, (as set out in Schedule A of the MSc in System Level Integration regulations) together with relevant modules from the management and business modules available at the collaborating universities needed to support different stages of his or her project/s, (as set out in Schedule A of the EngD regulations).
- (b) Research Engineers will be required to achieve 180 credits of taught material from the portfolio of modules over the four-year period, of which 60 credits should be chosen from Schedule A of the EngD Regulations, selected according to the agreed components of the Requirements Profile.

6. Supervision

- (a) A Supervision Team will support each Research Engineer. The team members will normally include the primary Academic Supervisor, a second Academic Supervisor, an Industrial Adviser and other academic staff as required to offer expertise in guiding and supporting the research project.
- (b) The Sponsoring Company will appoint an Industrial Adviser for the duration of the programme and, to ensure continuity of the research project, provide an alternative Industrial Adviser if the first appointee is unable to continue in the role.

7. Progress

- (a) Research Engineers are normally expected to complete a minimum of 40 credits of taught material in each of the first two years of study.
- (b) If in the opinion of the Supervision Team, the Research Engineer is not making satisfactory progress, the supervisors will inform him or her of this in writing, with copies of the letter sent to the Centre Director and the Management Committee.
- (c) If the Research Engineer continues to make unsatisfactory progress, he or she may, after due warning and on the recommendation of the Management Committee in consultation with the Supervision Team, be instructed by the Senate of the Administering University to withdraw from the EngD programme.

8. Thesis / Themed portfolio

Candidates for the EngD will submit either a thesis or a themed portfolio of work, which must comply with the following conditions:

- (a) The thesis or themed portfolio must make a significant contribution to the knowledge of the subject and must afford evidence of originality, shown either by the discovery of new facts or by the exercise of independent critical power.

- (b) For a candidate permitted by the Director of the Centre to submit a themed portfolio of a number of projects, they must be in the standard format and must include the following:
 - (i) a succinct bound summary which describes the contribution to knowledge and innovation demonstrated by the candidate;
 - (ii) clear evidence, either directly or indirectly, of the relationship between each project through demonstrable relevance to the doctoral programme.
- (c) The thesis or themed portfolio must be written in English. The literary presentation must be satisfactory and must be suitable for publication either as submitted, or in an amended form.
- (d) The thesis or themed portfolio must be the candidate's own account of his or her research and must be accompanied by a declaration to this effect signed by the candidate. It may describe work done in conjunction with the supervisors or other persons, provided that the candidate clearly states his or her own personal share in the investigation, and that both academic and industrial supervisors certify his or her statement.
- (e) The thesis or themed portfolio must not normally exceed 80,000 words and must not normally exceed 400 pages in length, including appendices. In exceptional circumstances and, provided that permission is sought at a sufficiently early stage, the Administering University, on advice from the Management Committee, may permit a candidate to exceed the stated maximum length.
- (f) Four copies of the thesis must be presented for consideration by the examiners. The initial presentation of the thesis may be made in a temporary binding to enable appropriate changes to be made prior to formal acceptance of the thesis by the Administering University.
- (g) After the thesis has been approved for the Degree of EngD, a candidate will normally be required to submit two copies of the thesis or themed portfolio, which shall become the property of the Universities. An additional copy will be submitted in electronic format.
- (h) The thesis or themed portfolio must conform in layout, binding, and presentation to the requirements prescribed by the Administering University. The thesis or themed portfolio must contain an abstract preferably not exceeding 200 words. Six additional copies of the abstract on the appropriate form must be submitted for examination and library purposes.
- (i) The Degree of Doctor of Engineering (EngD) will not be awarded in respect of a thesis, themed portfolio, or published work already submitted elsewhere in support of an application for a degree.

9. Assessment

- (a) A candidate will be assessed on all taught components of the Requirements Profile and on the thesis/themed portfolio.
- (b) A candidate is required to pass all taught components of the Requirements Profile in System Level Integration before submission of his or her thesis / themed portfolio for examination.
- (c) A candidate whose performance in any module is judged unsatisfactory may be permitted by the examiners to attempt to pass that module on one further occasion. In such cases, the examiners will prescribe whether the candidate shall be required to re-attend for the whole module or specific parts of the module or whether the candidate may be permitted to submit for re-examination in the module without further attendance.
- (d) An oral examination of the candidate must be held in the presence of all of the examiners of the thesis/themed portfolio. The candidate may be questioned on any output of the thesis/themed portfolio and training programme in order to satisfy the examiners that the objectives of the programme have been met.

10. Examiners

- (a) The Administering University, on the recommendation of the Management Committee, will appoint for each candidate at least two External Examiners and one Internal Examiner who will be the Examiners of the thesis/themed portfolio. When making this recommendation to the Administering University, the Management Committee will confirm that the candidate had passed all taught components of the Requirements Profile to the satisfaction of the Examiners.
- (b) One External Examiner will be responsible for assessing the candidate's technical ability and the other, the candidate's management skills and understanding of the industrial context of the research project.
- (c) The Examiners will submit a report on the thesis/themed portfolio to the Administering University.

11. Recommendation of the Examiners of the Candidate's Thesis / Themed portfolio

The examiners of the candidate's thesis/themed portfolio will recommend to the Senate of the Administering University, either:

- (i) that the thesis/themed portfolio is satisfactory, or
- (ii) that the thesis/themed portfolio be judged satisfactory subject to minor corrections being made to the satisfaction of the Internal Examiner. These corrections should be completed within the prescribed period (normally not exceeding six months);
- (iii) that the candidate be allowed to re-submit his or her thesis in a revised form within a specified period not exceeding twenty-four months from the decision of the Senate of the Administering University thereon in which case the examiners shall state specifically the reasons for and the extent of the revision required;

- (iv) that exceptionally the candidate be allowed to re-submit his or her thesis for a higher degree of Master from one of the collaborating institutions;
- (v) that the candidate should not be allowed to re-submit his or her thesis in a revised form.

12. Award

- (a) A candidate who has complied with all the conditions for the award of the degree of Doctor of Engineering will be entitled to receive the degree.
- (b) The degree will be awarded jointly by all four universities, but the degree will be conferred at a Congregation of the Administering University.

13. Academic Appeals

The appeals procedure of the Administering University shall normally apply.

Schedule 'A' EngD Programme

Optional Masters Level Business and Management Modules available at Heriot Watt University and the Universities of Edinburgh, Glasgow and Strathclyde.

Taught non-technical component

The taught non-technical components of the EngD in System Level Integration may be drawn from the list of modules as set out below, and approved subjects from a list approved from time to time by the awarding institutions.

DOCTOR OF LAWS

The Degree of Doctor of Laws is awarded under The Scottish Universities Ordinance No. 1, which came into force in October 1957. The following are the relevant provisions of that Ordinance.

1. (a) Graduates who have taken a Degree in a Scottish University may offer themselves for the Degree of Doctor of Laws (LLD) in that University after the expiry of seven years from the date of such graduation.
- (b) It shall be open to the *Senatus Academicus* of each University with the approval of the University Court, to exempt from the requirement in the foregoing sub-section respecting previous graduation in that University any person who for a continuous period of not less than four academic years has held such office or offices in that University as the *Senatus Academicus* may approve, provided that not less than seven years shall have elapsed from the date of his first graduation in any University.
2. All candidates for the Degree of Doctor of Laws shall present written work not previously submitted for any Degree of any University which shall be approved for the award of the Degree only if the *Senatus Academicus* deems the work to be of sufficient merit as constituting an original and substantial contribution to the study of Law. The work shall be accompanied by a declaration signed by the candidate that it has been composed by himself. If the work has not been published in full, then, before being submitted, it shall have been published so far and in such manner as the *Senatus Academicus* accepts as reasonable in the circumstances. Two copies of the work, if approved for the Degree, shall be deposited by the candidate in the University Library.
3. The *Senatus Academicus* of each University shall appoint such Professors, Readers or Lecturers as it may think suitable to examine the work submitted by candidates who may offer themselves for the Degree of Doctor of Laws and the University Court shall, after consultation with the *Senatus Academicus*, appoint one or more additional examiners to act along with them in adjudicating on the merits of the work submitted by the candidates. Every such additional examiner shall be a person of recognised eminence in the subject of the work presented by the candidate.
4. The fee to be paid by a candidate for the Degree of Doctor of Laws shall be fixed from time to time by the University Courts of the four Universities. The said fee shall be payable on each occasion on which the candidate offers himself for the Degree.
5. The Degree of Doctor of Laws shall not in any case be conferred upon any person who has not satisfied the conditions hereinbefore set forth, provided that nothing in this Ordinance shall be held to restrict or govern the conferment of that Degree *honoris causa* according to the terms of Ordinances by which the conferment of the Degree of Doctor of Laws *honoris causa* is now or may hereafter be regulated.

6. The *Senatus Academicus* of each University shall have power to make such additional regulations governing the conferment of the Degree as may be approved by the University Court.

Regulations

1. Application for the Degree shall be made by letter addressed to the Clerk of Senate, which shall be accompanied by two copies of each item of the written work submitted in support of the application and of any connective statement required under Regulation (2) hereof, and also by a declaration signed by the applicant certifying that all the written work submitted has been composed by himself, that it has not been previously submitted either successfully or unsuccessfully for the award of any Degree of any University, and stating, in the case where the applicant is submitting work not completely published, the extent to which it has been published and what efforts have been made to have the work published in full. The applicant must furnish any further information on these matters which may be requested by the *Senatus Academicus*.
2. Before acceptance of candidature for the degree applicants must supply to the Secretary of the Faculty of Law, Business and Social Sciences two copies of an adequate and informative abstract of the work of approximately 1000 words along with a list of the publications that will support the work. The Faculty of Law, Business and Social Sciences may decline to proceed to examine the work if the work of the summary and list of supporting publications does not in its opinion show evidence of sufficient standard or originality.
3. The written work submitted in support of an application may have been published in full, or be partly published and partly unpublished. It should preferably take the form of one or more books or other substantial and independent pieces of writing. Papers published in periodicals of recognised standing under various titles may be submitted, either alone or in conjunction with other work, published or unpublished, only if all the papers and other items of work which are not by themselves substantial and independent pieces of writing form parts of a larger unity or unities, and are accompanied by a separate statement extending to about 500-1,000 words composed by the applicant showing the connection between the various writings, their relation to the theme of the whole work, and the results and conclusions of the whole body or bodies of writings on which the application is based.
4. The *Senatus Academicus* shall consider the application and declaration and shall remit the works submitted in support thereof to the Committee of Examiners provided for in Section III of the Ordinance only if satisfied in all respects with the candidate's declaration and, in particular, that publication has been made so far and in such manner as is reasonable in the circumstances. If the *Senatus Academicus* rejects the application on the ground that in any respect it has not been satisfied by the candidate's declaration, the works shall be returned to the applicant without prejudice to their resubmission at a later date in changed circumstances. If the *Senatus Academicus* accepts the application, admits the applicant to candidature for the Degree, and remits the works to the Examiner, both copies of all the works submitted shall become the property of the University, whether they are ultimately approved for the award of the Degree or not, and the candidate shall be then liable to pay the fee fixed for the Degree.

DOCTOR OF LETTERS

The Degree of Doctor of Letters is awarded under The Scottish Universities Ordinance No. 6, which came into force in October 1959. The following are the relevant provisions of that Ordinance.

1. The Degree of Doctor of Letters (DLitt) may be conferred in each of the Scottish Universities.
2. A graduate of any of the Scottish Universities may offer himself for the Degree of DLitt in that University after the expiry of seven years from the date of his first graduation therein.
3. Any person who holds such office or offices in each of the said Universities as the *Senatus* may approve who is not already a graduate of the University in which he holds such post or appointment may offer himself for the Degree of Doctor of Letters in the University in which he holds office, after the expiry of four years' continuous tenure of one or more of these offices, posts or appointments, provided always that not less than seven years shall have elapsed from the date of his first graduation in any University.
4. A candidate for the Degree of DLitt shall present a published work or works accompanied by a signed declaration that he is the author thereof. The works submitted should normally be in English. The candidate must identify any work which has been, or is about to be, submitted for any other Higher Degree or Diploma in the University of Glasgow or for a Higher Degree or Diploma in another Institution: such work shall not be assessed for the award of the Degree of DLitt in the University of Glasgow.

Applicants in the Faculty of Education, before acceptance of their candidature, must provide the Clerk of the Faculty with a list of the publications comprising the application for the degree. The Faculty Higher Degrees Committee will establish a sub-committee to determine whether a *prima facie* case for DLitt candidature has been established. The sub-committee may decline to proceed to examination of the candidate if, in its opinion, the publications submitted are not of sufficient substance for a DLitt application. In respect of this procedure a precognition fee will be charged to be deducted in due course from the submission fee if the candidate is examined.

Applicants in the Faculties of Arts and Law, Business and Social Sciences, before acceptance of their candidature for the degree, must give to the Clerk of the Faculty a list of the publications comprising the application for the degree together with two copies of an adequate and informative 1000 word account of the works submitted. The Faculty Higher Degrees Committee will establish a subcommittee to determine whether a *prima facie* case for DLitt candidature has been established. The sub-committee may decline to examine the candidate if, in its opinion, the account and the publications do not display

evidence of sufficient originality and substance for a DLitt application. In respect of this procedure a precognition fee will be charged to be deducted in due course from the submission fee if the candidate is examined.

No person will be accepted as a candidate more than twice and no candidate may apply for re-examination until five years have elapsed from the original date of submission.

5. The *Senatus* shall appoint such Professors, Readers or Lecturers in the University as it may think suitable to examine the work or works submitted by a candidate for the Degree and the University Court shall, after consultation with the *Senatus Academicus*, appoint an additional examiner or examiners to act along with them. Such additional examiner or examiners shall be of recognised eminence in the subject of the work or works presented by the candidate. The candidate shall be awarded the Degree only if in the opinion of the *Senatus*, on the recommendation of these examiners, the body of work shall be held to constitute an original and substantial contribution to humane learning.
6. The fee to be paid for examination for the Degree shall be such sum as may from time to time be determined by the University Courts of the four Universities. Candidates for examination or graduation shall not be required to pay a matriculation fee.
7. The *Senatus* of each University shall have power to make such additional regulations governing the conferment of the Degree as may be approved by the University Court.
8. The Degree of DLitt shall not be conferred upon a person who has not satisfied the conditions hereinbefore set forth, provided always that the *Senatus* of any of the four Universities may, at its discretion, permit a candidate to offer himself for the Degree under the regulations previously in force during a period not exceeding five years from the date on which this Ordinance shall come into operation; and provided always that it shall be in the power of the *Senatus* of any of the four Universities to confer the Degree of DLitt *honoris causa* under such regulations as may be made by the *Senatus* with the approval of the University Court.

Supplementary Regulation

A candidate must submit two copies of each of the published works which he presents.

DOCTOR OF MEDICINE

The Degree of Doctor of Medicine is awarded under Ordinance 387 (General No 14) which came into force in October 1962 and later amended by subsequent Resolutions. The following are the relevant provisions of that Ordinance.

1. To be admitted as a candidate for the Degree of Doctor of Medicine a person must normally be a graduate in Medicine and Surgery of at least four years' standing. In addition, the person must have been engaged since graduation for at least three years in either scientific work bearing directly on his or her profession, or in the practice of Medicine or Surgery.
2. A prospective candidate for the Degree of Doctor of Medicine shall submit in advance a brief account of the work on which the thesis will be based. The work must be carried out in the University of Glasgow or an Institution recognised for this purpose by the University Court, on the recommendation of the *Senatus Academicus*. Before a candidate offers himself or herself for the Degree of Doctor of Medicine, the Faculty of Medicine shall normally require the prospective candidate to have undertaken a period of full-time matriculated study of no less than two years, or four years part-time, under the supervision of a member of staff in the Faculty or in the recognised Institution appointed for the purpose. Senate reserves the power, in exceptional cases, to reduce this period by one academic year.
A candidate must submit the thesis for examination within twelve months of the conclusion of the statutory period of full-time or part-time study specified by regulation.
A candidate holding an appointment as a member of the teaching or research staff of the University of Glasgow, paid through the Finance Office or directly by a grant awarding body approved by the University Court, may matriculate part-time whilst being subject to the same provisions regarding minimum periods of full-time study if he or she devotes the major part of the day, typically 75-80% of his or her time, to research studies.
3. A candidate for the Degree of Doctor of Medicine shall submit for the approval of the Faculty of Medicine a thesis on any branch of knowledge comprised in or related to the curriculum for the Degrees of Bachelor of Medicine and Bachelor of Surgery, and shall normally be required to present himself or herself for oral or other examination in the subject matter thereof.
4. A thesis may be considered unacceptable if it does not conform to accepted national standards of clinical research, ethics or animal welfare. Where original research involves human subjects the candidate will be required to confirm that each study protocol was reviewed in advance and approved by an independent Ethics Review Committee and that appropriate informed consent was obtained. In the case of studies involving laboratory animals, the candidate is required to confirm that the animal care and welfare and the procedures performed are conducted under an appropriate Home Office Licence or other national regulations.
5. The thesis shall be presented at such time and in accordance with such regulations as the *Senatus* may prescribe.
6. The Examiners for the Degree shall be drawn from the Professors, Readers and Lecturers in the Faculty of Medicine together with such other internal and additional Examiners as the Court shall appoint.

Supplementary Regulations

1. Two copies of each thesis are required. The layout and binding should generally agree with the British Standard Institution's *Recommendations for the presentation of theses* (BS4821:1990), which is available in the University Library or from the Dean of the Faculty of Medicine, with whom theses should be lodged.
2. A thesis may be a dissertation written for the purpose, but the results of original observations already published in medical or scientific journals or in the transactions of learned societies or otherwise may be submitted in place of such a dissertation. Such published papers submitted in lieu of a dissertation must be related and accompanied by a statement, preferably in the form of an essay, showing the relationship between the various studies and placing the whole work critically into perspective with the general state of knowledge in the field of investigation to which the candidate's researches are related.
3. A thesis will not be approved unless it gives evidence of original observation and makes a significant new contribution to knowledge. It should include accurate references to the literature of its subject.
4. A declaration signed by the candidate that the work has been done and written up by himself or herself must be submitted with the thesis. Where material based on work undertaken in collaboration with others is included in the thesis or reprints a separate statement clearly defining the extent of his personal contribution must also be submitted by the candidate. If any of the material contained in the thesis has been completed sometime before the date of submission, the candidate in his or her own interests should provide evidence of the originality of such work, for example, published papers. If any part of the subject matter of the thesis has been included in a thesis submitted or already approved for a Degree or Diploma in this or another University, the candidate must make a declaration to this effect and must lodge with his or her thesis a copy of such previously approved thesis and a full statement of the extent of any overlap.
5. An adequate and informative summary of not more than 1000 words should be bound in each copy of the thesis. One further unbound copy of the summary is also required.
6. If the thesis is approved, the copies submitted by the candidate shall become the property of the University.
7. In the case of a thesis not approved for the Degree of MD the Higher Degrees Committee, on the recommendation of the Examiners, may permit a candidate to re-submit the thesis on one occasion only and no later than one year from the date of the original submission.

Certificate of Basic Information Technology (IT) Competence

Every student must normally obtain the Certificate of Basic IT Competence in order to qualify for the Degrees of Doctor of Dental Surgery and Doctor of Medicine.

DOCTOR OF MUSIC

The Degree of Doctor of Music is awarded under Resolution 43 of the University Court, which came into effect on 22nd January, 1970. The following are the relevant provisions of that Resolution.

In pursuance of the powers conferred under Section 3 of the *Universities (Scotland) Act, 1966*, the University Court hereby resolves as follows:

1. The Degree of Doctor of Music (DMus) may be conferred by the University of Glasgow.
2. The following categories of persons may be admitted as candidates for the Degree of Doctor of Music:
 - (a) A graduate of the University of Glasgow after the expiry of seven years from the date of his first graduation in the University of Glasgow.
 - (b) Any person who has held for a period or periods amounting in all to at least four years such office or offices in the University of Glasgow as the *Senatus* may approve; provided either that he is a graduate of not less than seven years' standing of a University likewise approved or that he has held for not less than seven years some other qualification specially recognised by the *Senatus* as equivalent for this purpose.
3. The Degree shall be given in two Departments and candidates may present themselves in not more than one of these Departments at any one time. The Departments shall be those of:
 - (a) Musical Composition;
 - (b) Musicology.
4. Before acceptance of their candidature, applicants must provide the Clerk of the Faculty with a list of the publications comprising the application for the degree. The Faculty Higher Degrees Committee will establish a sub-committee to determine whether a *prima facie* case for DMus candidature has been established. The sub-committee may decline to proceed to examination of the candidate if, in its opinion, the publications submitted are not of sufficient substance for a DMus application. In respect of this procedure a precognition fee will be charged to be deducted in due course from the submission fee if the candidate is examined.
5. All candidates for the Degree shall submit work in Musical Composition or in Musicology.

6. Composers.

Work submitted in musical composition shall be accompanied by a declaration signed by the candidate that it has been composed by himself and identifying any work which has been, or is about to be submitted for any other Higher Degree or Diploma in the University of Glasgow or for a Higher Degree or Diploma in another Institution: such work shall not be assessed for the award of the Degree of DMus in the University of Glasgow.

If such work has not already been published in full, then, before being submitted, it shall have been published so far and in such manner as the *Senatus Academicus* accepts as reasonable in the circumstances.

No person will be accepted as a candidate more than twice and no candidate may apply for re-examination until five years have elapsed from the original date of submission.

7. Musicologists.

Work submitted in musicology shall be accompanied by a declaration signed by the candidate that he is the author of it and identifying any work which has been, or is about to be submitted for any other Higher Degree or Diploma in the University of Glasgow or for a Higher Degree or Diploma in another Institution: such work shall not be assessed for the award of the Degree of DMus in the University of Glasgow.

The work submitted, or a major part of it, shall have been published either as a book or books or in periodicals of recognised standing, and shall be presented in such manner as the *Senatus* may by regulation prescribe.

No person will be accepted as a candidate more than twice and no candidate may apply for re-examination until five years have elapsed from the original date of submission.

8. The *Senatus* shall appoint such Professors, Readers or Lecturers in the University as it may think suitable to examine the work or works submitted by a candidate for the Degree and the University Court, shall, after consultation with the *Senatus Academicus*, appoint an additional examiner or examiners to act along with them. Such additional examiner or examiners shall be of recognised eminence in the subject of the work or works presented by the candidate. The candidate shall be awarded the Degree only if in the opinion of the *Senatus*, on the recommendation of these examiners, the body of work shall be held to constitute an original and substantial contribution to music or to musical knowledge.
9. A candidate must submit two copies of the work. The work submitted should normally be in English. Both copies, if approved for the Degree, shall become the property of the University and shall be deposited in the University Library.
10. The *Senatus* shall have power to make such additional regulations governing the conferment of the Degree as may be approved by the University Court.
11. The Degree shall not be conferred upon a person who has not satisfied the conditions hereinbefore set forth, provided always that the *Senatus* may, at its discretion, permit a candidate to offer himself for the Degree under the regulations previously in force during a period not exceeding five years from the date on which this Resolution shall come into operation; and provided always that it shall be in the power of the *Senatus* to confer the Degree *honoris causa* under such regulations as may be made by the *Senatus* with the approval of the University Court.

DOCTOR OF PHILOSOPHY

In pursuance of the powers conferred under Section 3 of the *Universities (Scotland) Act, 1966*, the University Court hereby resolves as follows:

1. the Degree of Doctor of Philosophy (PhD) may be conferred by the Senate of the University of Glasgow in each of the Faculties thereof;
2. candidates for the Degree may either undertake study/research in accordance with the provisions of Schedule A, or shall present either a published thesis or a published memoir or work or other material, in accordance with the provisions of Schedule B;
3. the Senate shall have power to make such regulations governing the conferment of the Degree as may be approved by the University Court;
4. the Degree of Doctor of Philosophy whether by research or by published work shall in no case be conferred on persons who have not satisfied the conditions set out below, and shall not be conferred *honoris causa*;
5. Resolution No 38 of the University Court relating to the Degree of Doctor of Philosophy is hereby repealed;
6. this Resolution shall take effect on 22 March, 1995.

Schedule A: Degree of Doctor of Philosophy by Research

The following regulations are supplemented by a series of Guidance Notes for students which are available with the 2004-05 On-line Calendar which can be found at <http://senate.gla.ac.uk/calendar/>

1. Students, who have pursued in the University of Glasgow, or in an institution recognised and approved for the purpose, a course of special study or research, may offer themselves for the Degree of Doctor of Philosophy under the following conditions:

- (a) that they have obtained a Degree in any Scottish University, or in another University or College specially recognised for the purpose of this Section by the University Court on the recommendation of the Senate (provided always that a diploma or certificate recognised in like manner as equivalent to a Degree may be accepted in place of a Degree);
 - (b) that they have produced to the Senate evidence of satisfactory progress in the special study or research undertaken by them;
 - (c) normally that they have obtained the Certificate of Basic Information Technology Competence;
 - (d) that they have pursued such study on a full-time basis for a period of not less than three academic years, or for such period of part-time study as shall be determined by regulation; provided always that the Senate shall have power, in exceptional cases, to reduce the period by one academic year, and to permit a research student during part of the period to pursue elsewhere his or her special study or research;
 - (e) That they have pursued such formal research training as set down by the Faculty concerned.
2. 2.1 All candidates for the Degree of Doctor of Philosophy shall present for the approval of the Senate a thesis which shall embody the results of the candidate's special study or research, and which shall be accompanied by a declaration signed by the candidate that the thesis has been composed by himself or herself.
- 2.2 A thesis for the degree of PhD shall normally be presented for examination within 4 years from the date when a student first matriculated for full-time study or 6 years from the date when a student first matriculated for part-time study. Where the student has matriculated for a combination of full-time and part-time study, or where the Faculty has approved suspension⁴⁰ of study for a period of time, the maximum period of study permitted shall be equivalent to the duration for full and part-time study plus the approved period of suspension adjusted proportionately.
- 2.3 Where the student has fulfilled the minimum period of full-time study, or the minimum period of part-time study required by the regulations, and has not submitted the thesis for examination, the student shall matriculate as a writing-up student for the final session. If further supervision is required, the Faculty may require the student to matriculate as a full-time or part-time student. Failure to meet Faculty requirements for progress without good cause, may result in exclusion from further study.
- 2.4 The thesis shall be examined by one or more examiners appointed by the Senate from among the experienced academic staff of the University, and by one or more External Examiners appointed by the University Court on the recommendation of the Senate. No person who has been involved in the direct supervision of the research student may be appointed as an examiner. The internal examiner shall not undertake any duties which have been allocated to the Convener (see 2.6 below and Guidance Note 3) and shall act as an examiner in the normal way. A thesis may be examined by two external examiners without the appointment of an Internal Examiner, with the approval of the Dean of Faculty.
- 2.5 A candidate for the Degree of PhD must present himself or herself for oral or other examination by the Committee of Examiners on the subject matter of the thesis and its context. This requirement for an oral examination shall be observed at the first submission of the thesis.
- 2.6 A Convener shall be appointed by the Convener of the Higher Degrees Committee or its equivalent committee to convene the oral examination and to report on the agreed recommendations of the Committee of Examiners to the appropriate Faculty Committee.
- The Convener will be responsible for the following:
- a) making the arrangements for an oral examination and ensuring that this is normally held no later than 3 months after the submission of the thesis;
 - b) attending the whole examination and ensuring that it is conducted in a fair manner and is of a reasonable duration;
 - c) arranging for the report stating the recommendation of the Committee of Examiners to be signed at the conclusion of the examination;
 - d) after the oral, co-ordinating the completion of a joint report detailing the requirements for revision or resubmission and providing this to the candidate;
 - e) recommending to the Higher Degrees Committee the appointment of a third examiner in instances where agreement has not been reached. The third examiner will normally be an External Examiner.
- 2.7 The supervisor shall not normally be present at the oral examination but shall be available to the Committee of Examiners for consultation. If the candidate makes a request in writing to the Convener for the supervisor to be present at the oral examination, this should normally be permitted. The request should be made no later than one week before the date of the oral.
- 2.8 Where a candidate has been permitted to resubmit a thesis for examination, an oral shall also be held other than in exceptional circumstances, where the Convener, on the recommendation of the Committee of Examiners, may seek the agreement of the Dean of the Faculty to set aside the requirement for an oral examination after resubmission. In such

⁴⁰ A Faculty Higher Degrees Committee may permit the period of study to be suspended for a defined period when a student is ill or has other personal circumstances which prevent the student from continuing the research. Suspension can be agreed by the Faculty Higher Degrees Committee for other reasons, such as student internships. The arrangements for suspension of study shall be in accordance with those of the Research Councils.

circumstances the agreement of the candidate must be obtained, otherwise the candidate shall have the right to insist on an oral being held.

2.9 Where a candidate has been permitted to resubmit the thesis, it shall normally be on one occasion only. The resubmitted thesis shall be examined by the Committee of Examiners appointed for the first submission or by the Committee of Examiners appointed for the second submission.

If the Committee of Examiners considers that the thesis has not achieved the standard required for the Degree of PhD but is of sufficient merit to be worthy of an award, it may recommend that the candidate revise the thesis and submit it for consideration for a Masters degree.

3. Particular conditions relating to study or research in the Faculties are set out below.

Arts

The normal standard of admission for a research student will be that of a Degree with First or Upper Second Class Honours but another qualification, being a qualification approved by the University Court as provided in Clause 1 above may be accepted by this Faculty as being suitable for the programme of study which it is proposed that the applicant should follow.

A research student may also pursue a course of special study or research on a part-time basis for a period of not less than five years of which a minimum total period of three months shall be spent in attendance at the University of Glasgow.

The thesis must normally be written and defended in English. Exceptionally, however, at the time of application the Faculty Higher Degrees Committee may approve arrangements whereby the thesis may be written and defended in a language other than English. Approval will normally be given only where the use of a language other than English is deemed appropriate by the relevant Department and the Higher Degrees Committee and where the Department and the Higher Degrees Committee are satisfied that appropriate arrangements can be made for supervision and examination.

The thesis shall be a minimum of 70,000 and a maximum of 100,000 words including references, bibliography and appendices in each case. A candidate who wishes to submit a thesis of greater or lesser length must seek prior permission of the Faculty Higher Degrees Committee. A research student must attend for supervision in the University throughout the period of study except when given permission to pursue research elsewhere.

Where a Department determines it to be appropriate, candidates may present a thesis accompanied by a related piece of creative work, for example, a play, a theatrical performance, a translation or computer software. In cases where a performance element is involved, candidates must provide a permanent record of the creative aspect of the overall submission to be deposited with the thesis in the University Library. In such cases, the Higher Degrees Committee shall, in consultation with the supervising Department, advise candidates on the minimum length of the thesis component. The Board of Examiners is required to attend a performance of the creative work.

In the Department of Music, candidates may present themselves in Musicology, Musical Composition or Music Technology. In Musical Composition the candidate shall present a portfolio of at least 2 hours composed music or work of equivalent creative depth or complexity, comprising at least 3 and no more than 9 pieces. The portfolio may comprise instrumental, vocal or electroacoustic works or any combination thereof. It should include a written commentary of between 5,000 and 7,000 words on the works contained. The compositions and the commentary taken together shall be deemed to constitute a 'thesis which shall embody the results of the candidate's special study or research' as required under Regulation 2 of the Resolution. In Music Technology the candidate shall present a thesis of between 40,000 and 80,000 words and project (weighted together: 100%). The project may be presented as a portfolio exemplifying and illustrating the thesis. This might involve a software/hardware project with details of its design and specification, and a description of its implementation. A research project would outline the design of experiments and present documentation and interpretation of the results. The thesis and the project taken shall be deemed to constitute a 'thesis which shall embody the results of the candidate's special study or research' as required under Regulation 2 of the Resolution.

Education

The normal standard of admission for a research student will be that of a Degree with First or Upper Second Class Honours but another qualification, being a qualification approved by the University Court as provided in Clause 1 above may be accepted by this Faculty as being suitable for the programme of study which it is proposed that the applicant should follow.

A research student on the Doctoral Programme in Educational Studies shall pursue his or her study on a full-time basis for a period of not less than four years.

A research student may also pursue a course of special study or research on a part-time basis for a period of not less than five years (six years for students on the Doctoral Programme in Educational Studies) of which a minimum total period of three months shall be spent in attendance at the University of Glasgow. A research student must attend for supervision in the University throughout the period of study except when given permission to pursue research elsewhere.

The thesis must normally be written and defended in English. Exceptionally, however, at the time of application the Faculty Higher Degrees Committee may approve arrangements whereby the thesis may be written and defended in a language other than English. Approval will normally be given only where the use of a language other than English is deemed appropriate by the relevant Department and the Higher Degrees Committee and where the Department and the Higher Degrees Committee are satisfied that appropriate arrangements can be made for supervision and examination.

The thesis shall be a minimum of 70,000 and a maximum of 100,000 words including references, bibliography and appendices in each case. A candidate who wishes to submit a thesis of greater or lesser length must seek prior permission of the Faculty Higher Degrees Committee.

Engineering

A research student may also pursue a course of study or research on a part-time basis for a period of either not less than five years of part-time study or not less than four years, comprising three years of part-time study and one year of full-time study.

The period of study of research elsewhere permitted by Regulation 1 shall not normally exceed twelve months.

Law, Business and Social Sciences

The normal standard of admission for a research student will be that of a degree with first or upper second class honours or Master's degree of an approved institution or approved equivalent qualification.

Although the period of research elsewhere permitted by Regulation 1 might exceed twelve months, a full-time student must reside in Glasgow for a minimum total period of eighteen months; provided always that the Senate shall have power to vary this requirement on due cause shown.

A research student may also pursue a course of study or research on part-time basis for a period of not less than four years.

A candidate's thesis should normally be between 70,000 and 100,000 words in length. Any candidate who wishes to submit a thesis of greater length must seek permission of the Higher Degrees Committee of the Faculty.

In addition to the requirement for satisfactory completion of a thesis, the candidate will be required to attend training courses as specified by the Faculty Higher Degrees Committee and also, where appropriate, by his or her supervisory department. Candidates may be exempted in full or part from this requirement, normally by virtue of training undertaken and recognised by the Faculty Higher Degrees Committee as meeting training requirements.

Medicine

A research student may also pursue a course of study or research on a part-time basis for a period of either not less than five years of part-time study or not less than four years, comprising three years of part-time study and one year of full-time study.

A candidate holding an appointment as a member of the teaching or research staff of the University of Glasgow, paid through the Finance Office or directly by a grant awarding body approved by the University Court, may matriculate part-time whilst being subject to the same provisions regarding minimum periods of full-time study if he or she devotes the major part of the day, typically 75-80% of his or her time, to research studies.

The period of study of research elsewhere permitted by Regulation 1 shall not normally exceed twelve months.

In addition to the requirement for satisfactory completion of a thesis, a candidate will normally be required to attend training courses as specified by the Faculty Graduate School.

Science

(Faculties of Biomedical and Life Sciences, Information and Mathematical Sciences, Physical Sciences)

The normal standard of admission for a research student will be that of a Degree with First or Second Class Honours of a Scottish University, or an approved equivalent qualification.

A research student may also pursue a course of study or research on a part-time basis for a period of either not less than five years of part-time study or not less than four years, comprising three years of part-time study and one year of full-time study.

The period of study of research elsewhere permitted by Regulation 1 shall not normally exceed twelve months, except where that study or research is undertaken in one of the institutions listed in paragraph 5.

The candidate's thesis shall be an original work making a significant contribution to knowledge in, or understanding of, a field of study and should normally be expected to contain material worthy of publication. The material presented shall represent a reasonable output for three years full time involvement (or such time as the Faculties of Science shall determine) in the conduct of the research and preparation of the thesis. The thesis shall demonstrate that the candidate has adequate knowledge of the field of study and the relevant literature and shall show the exercise of critical judgement with regard to not only the candidate's work but also that of other persons in the same general field. The literary presentation shall be lucid and scholarly and there shall be a satisfactory abstract.

To be worthy of the award of a PhD, a candidate must have demonstrated to a Board of Examiners by the presentation of a thesis and by performance in an oral examination that he or she is capable of:

- (a) pursuing original research in his or her specific field of study, and
- (b) relating his or her results to the general body of knowledge in the field, and
- (c) presenting his or her results in a critical and scholarly manner.

In addition to the requirement for satisfactory completion of a thesis, the candidate will normally be required to attend training courses as specified by the Faculty Graduate School.

Veterinary Medicine

The normal standard of admission for a research student will that of a Degree with first or second class honours of a Scottish University or approved equivalent qualification.

A research student may also pursue a course of study or research on a part-time basis for a period of either not less than five years of part-time study or not less than four years, comprising three years of part-time study and one year of full-time study.

The period of study of research elsewhere permitted by Regulation 1 shall not normally exceed twelve months.

4. *Teaching or Research Staff of the University or Recognised Institutions - Candidature for the Degree*

A member of the teaching staff of the University, or a person who holds an appointment as Research Assistant or Research Fellow of the University of Glasgow and is paid through the Finance Office or directly by a grant-aiding body approved by the University Court, or a member of the teaching or research staff of any other institution recognised for the purpose of Regulation 1, may notwithstanding offer himself or herself for the Degree of Doctor of Philosophy if he or she has prosecuted a course of special study or research on a part-time basis for a period of not less than three years.

5. *Recognition of Institutions for the Purposes of Study and Research*

Faculties and Graduate Schools may allow the candidate's study or research to be conducted in an institution external to the University of Glasgow. The choice of such an institution will be determined *ad hoc* and only where there exists clear alignment of the candidate's proposed study or research with the aims and objectives of the institution proposed, and where the institution can demonstrate ability to provide an appropriate level of supervision of the candidate. A full-time member of staff of a recognised Institution may be nominated to Senate *either* as a supervisor *or* as an internal examiner although such an individual may not be nominated as an examiner if he or she has previously supervised the candidate's work. In cases where an employee of the institution acts as supervisor or internal examiner, a member of staff from an appropriate subject area in the University will also be appointed.

6. *Submission of Thesis*

In submitting a thesis a candidate must state, generally in the preface and specifically in the notes, the sources from which his or her information is derived, the extent to which he or she has availed himself or herself of the work of others, and the portions of the thesis which he or she claims as original. The thesis must be in English.

A candidate must submit two copies of the thesis which must include a summary of 250 - 1000 words. The summary must be an adequate and informative abstract of the work, suitable for publication by the University. The layout and binding of the thesis should generally conform to the British Standard Institution's *Recommendations for the presentation of theses* (BS4821:1990), a summary of which is available in the University Library or from the Clerk to the appropriate Faculty. Both copies of the thesis, if approved for the Degree, become the property of the University, and are deposited in the University Library.

In signing a submission form, the supervisor is confirming that the work was undertaken by the candidate. The wording of the form makes it clear that the supervisor's signature does not endorse that the work has been completed nor does it indicate that the thesis has achieved the required standard for the award of the degree. A candidate may submit a thesis against the advice of the supervisor but in such cases the supervisor may state the position in a report submitted to the Convener of the Committee of Examiners.

Schedule B: Degree of Doctor of Philosophy by Published Work

1. A person may be admitted as a candidate for the degree of Doctor of Philosophy by published work who:

- (a)
 - (i) is a graduate of the University of Glasgow and whose date of submission of his/her thesis is at least five years from the date of his/her first graduation in the University; or
 - (ii) is a member of staff who has normally been employed for the full-time equivalent of at least five years and is paid through the University Finance Office or directly by a grant aided body approved by the University Court; or
 - (iii) is a former member of staff who has completed the full-time equivalent of a minimum of five years employment and was paid through the University Finance Office or directly by a grant aided body approved by the University Court, and who presents him or herself as a candidate for the degree within one calendar year of leaving the University's employment.
- (b) has not been enrolled as a Research Student in the University of Glasgow during the five years preceding the date of submission although the Faculty Research and Higher Degrees Committee shall have the discretion to entertain applications from candidates who wish to transfer from the conventional PhD; and
- (c) does not hold any Doctoral Degree of the University of Glasgow or of any other University or College in the same subject area; and
- (d) normally has obtained the Certificate of Basic Information Technology Competence, and
- (e) has been found by the appropriate Faculty to possess *prima facie* a qualification for the Degree.

A Faculty Research and Higher Degrees Committee shall have the discretion to reduce the qualifying period to three years in the case of full-time members of academic staff in the employment of the University.

2. Subject to the provisions of Regulation 9 of Schedule B of this Resolution, candidates for the Degree of Doctor of Philosophy by published work shall present for the approval of Senate published work, which shall be a record of original research undertaken by the candidate, and shall be accompanied by a declaration signed by the candidate detailing the extent to which the research has been done and the work written by himself or herself.
3. For the purposes of Regulation 1(e) of Schedule B of this Resolution, every prospective candidate for the degree shall submit to the appropriate Faculty two copies of the work to be examined together with copies of the following documentation each in triplicate: a curriculum vitae, and an explanatory essay of 2,000 - 5,000 words which justifies the intellectual significance of the submission. Should the submission comprise diverse publications, the explanatory essay should explain the relationship, if any, between the works submitted, including any developments which have occurred between one piece and another.

Material other than books must be bound in a volume in cloth with stiff boards. The layout and binding of the thesis should generally conform to the *Recommendation for the Presentation of Theses and Dissertations* published by the British Standards Institution (BS4821:1990), a summary of which is available in the University Library or may be obtained from the Clerk of the appropriate Faculty. The thesis must include a summary (500 - 1,000 words), which must be an adequate and informative abstract of the work. The summary should be bound with the thesis where possible; and three separate copies of the summary should also be provided.

4. The Dean of the appropriate Faculty shall nominate a member of staff to give advice to the candidate with regard to the preparation of his/her submission.
5. Preliminary assessment:- Only if it is in the opinion of the Faculty Research and Higher Degrees Committee and of any adviser(s) whom it may consult that the work described in the abstract, in the explanatory essay and the publications are of the standard expected for the degree of Doctor of Philosophy by supervised research, will the full application be accepted for consideration.
6. If a full application is permitted by the Faculty Research and Higher Degrees Committee, a candidate must then submit two copies of the work to be examined; both copies, if approved for the Degree, shall become the property of the University.
7. All the materials submitted must normally be in English and must be published in terms of the following definition:

A work is normally regarded as published only if it is traceable through ordinary catalogues, abstracts or citation notices, and copies are available to the general public. This will normally require the work to be publicly registered with an ISSN/ISBN number. Material which is unpublished or which has only a restricted circulation is not acceptable in whole or partial fulfilment of the requirements for this degree.

Exceptionally, however, the Faculty Research and Higher Degrees Committee may approve the submission and defence of the work in a language other than English. Approval will normally be given only where the use of a language other than English is deemed appropriate by the relevant Department and the Research and Higher Degrees Committee, and where the Department and the Research and Higher Degrees Committee are satisfied that appropriate examination arrangements can be made.

8. Any work which is about to be included in a submission by the candidate for any other Higher Degree or Diploma either in the University of Glasgow or in any other institution, or which has already been included in a submission, whether successful or unsuccessful, for any other Higher Degree or Diploma in another institution is not admissible in whole or partial fulfilment of the requirements for the Degree of PhD by published work.
9. A candidate may submit work which has resulted from collaborative research and joint authored publications, provided the nature and extent of the candidate's contribution is specified in the accompanying explanatory essay. The candidate must seek confirmation of this from the co-authors or researchers and provide written evidence of such confirmation to the satisfaction of the Research and Higher Degrees Committee.
10. A Research and Higher Degrees Committee may at its discretion disqualify any submission or part thereof. It is not a necessary requirement for this degree that the work submitted should be published within a defined period.
11. The thesis shall be examined by one or more examiners appointed by the Senate from among the experienced academic staff of the University, and by one or more External Examiners appointed by the University Court on the recommendation of the Senate. No person who has been involved in the direct supervision of the research student may be appointed as an examiner. The internal examiner shall not undertake any duties which have been allocated to the Convener (Guidance Note 3) and shall act as an examiner in the normal way. A thesis may be examined by two external examiners without the appointment of an Internal Examiner, with the approval of the Dean of Faculty. In the case of a submission by a member of staff or a former member of staff two of the examiners must be external.

The Board of Examiners shall normally require that the candidate present himself or herself for oral or other examination on the subject matter of the work and other material submitted for examination. The reports of the examiners shall be submitted to the appropriate Faculty Research and Higher Degrees Committee who shall if it thinks fit make a recommendation thereon to the Senate. The candidate shall be approved for the Degree only if, in the opinion of the Faculty and the examiners, the submitted work constitutes an examination of a field of study which makes a significant and original contribution to existing knowledge and is of an equivalent standard to a thesis which embodies the results of three years full-time supervised research (or equivalent) and for which a candidate was awarded the degree of PhD.

12. An unsuccessful submission for the degree of PhD by published work will not become eligible for the award of a Master's Degree or Diploma, in lieu of the degree of PhD, and nor will the unsuccessful submission become eligible for resubmission in its present form on a future occasion.

13. No candidate may apply for re-examination for the degree of PhD by published work until the lapse of at least three years from the date of the intimation of the decision of the Research and Higher Degrees Committee regarding the previous submission. Such re-examination shall be regarded as a de novo application and not the resubmission of the initial application.

Schedule C: Degree of Doctor of Philosophy by Research at Glasgow School of Art

1. Eligibility

Research students who have pursued in the Glasgow School of Art, a course of special study or research may offer themselves for the Degree of Doctor of Philosophy, under the following conditions, namely:

- (a) that normally they have obtained, as a minimum, an undergraduate Degree with First or Upper Second Class Honours in any Scottish University, or in another University or College specially recognised for the purpose of this Section by the University Court on the recommendation of the Senate (provided always that a diploma or certificate recognised in like manner as equivalent to a undergraduate or postgraduate Degree may be accepted in place of a Degree);
- (b) that they have produced to the Senate evidence of satisfactory progress in the special study or research undertaken by them;
- (c) normally that they have obtained the Certificate of Basic Information Technology Competence;
- (d) that they have pursued such study on a full-time basis for a period of not less than three academic years, or for a period of part-time study of not less than five academic years; provided always that the Senate shall have power, in exceptional cases, to reduce the period by one academic year, and to permit a research student during part of the period to pursue elsewhere his or her special study or research;
- (e) The period of study or research elsewhere, permitted by Regulation 1(d), shall not normally exceed twelve months.

2. Supervision

The progress of each research student shall be overseen by a Supervision Committee appointed for that student. The Committee must meet with the research student regularly and at least once per annum. The membership of the Supervision Committee shall include the following:

- a Convener appointed by the Research Degrees Sub-Committee of the Research Committee of Glasgow School of Art;
- a Secretary who shall record the proceedings of the Committee;
- a Director of Studies who shall be the main Supervisor and normally a member of the academic staff of Glasgow School of Art;
- such second Supervisor(s) as may be appointed by the Research Degrees Sub-Committee of the Research Committee of Glasgow School of Art
- one additional Supervisor appointed by the Senate of the University of Glasgow from the staff of the University. The additional Supervisor shall not be required to possess subject expertise in Art, Design or Architecture.

The Supervision Committee shall be responsible to the Research Degrees Sub-Committee of the Research Committee of Glasgow School of Art to which it shall report annually. The Research Degrees Sub-Committee of the Research Committee shall be responsible to the Academic Council of Glasgow School of Art for the progress of all research students. The Academic Council shall be responsible to the University Senate through the Higher Degrees Committee of the Faculty of Arts.

Candidates must be available for regular supervision (i.e. at least 6 times per year) by a Director of Studies unless given permission otherwise by the Supervision Committee.

Candidates on a part-time basis must be available for regular supervision throughout their period of study unless given permission otherwise by the Research Degrees Sub-Committee of the Research Committee.

3. The Portfolio and the Thesis

All candidates for the Degree of Doctor of Philosophy shall present for the approval of the Senate either a portfolio or a written thesis which shall embody the results of the candidate's special study or research, and which shall be accompanied by a declaration signed by the candidate that the portfolio or thesis has been composed by herself or himself. Any written commentary, dissertation, supporting documentation or thesis must be written in English.

3.1 Portfolio

Within these regulations, the term portfolio shall be taken to mean a body of original work, comprising one or a number of items, in fine art, craft, design or architecture. The body of work may be presented in material or virtual reality. The work may take the form of objects, images, environments, architectural structures, performances, texts, virtual or conceptual works, software or designs for any of these, or any comparable form. The portfolio may include work of an interdisciplinary character when the predominant discipline is fine art, craft, design or architecture.

The body of original work shall be documented by photographic or other visual process together with any necessary textual material, including labels or notes of explanation written in English. The documentation must be in permanent form. The documentation shall be to a standard whereby a future researcher may recognise the

new knowledge represented or embodied within the portfolio, as determined by the Examiners. The documentation shall include references, a bibliography and notes in which the candidate must state the sources from which his or her information is derived, the extent to which he or she has availed himself or herself of the work of others, and the portions of the portfolio and any accompanying written commentary or dissertation which he or she claims as original.

A candidate must submit a written summary of 250-1,000 words. The summary must be an adequate and informative abstract of the work suitable for publication by Glasgow School of Art. The documentation shall become the property of Glasgow School of Art and shall be lodged in the Library of Glasgow School of Art.

A research student may submit his or her portfolio within one of the following categories. An initial proposal of a category should be made by the student within his or her application for registration. A final proposal of category should be agreed by the student and the Supervision Committee and submitted to the Research Degrees Sub-Committee of the Research Committee for approval prior to the examination. Once the category of portfolio has been approved, the content of the portfolio and the arrangements for its exhibition shall be subject to the agreement of the Supervision Committee.

3.1.1 *Portfolio with Documentation*

A candidate may submit for examination a portfolio which in itself represents or embodies new knowledge and which is documented in accordance with the regulations above.

3.1.2 *Portfolio with Written Commentary*

A candidate may submit for examination a portfolio together with a commentary on its production, presentation or context, when such a commentary is necessary to understanding the new knowledge represented or embodied by the body of the work. A written commentary shall normally consist of 3,500-5,000 words excluding references, bibliography and appendices. A candidate who wishes to submit a written commentary of lesser or greater length must seek the permission of her or his Supervision Committee.

3.1.3 *Joint Portfolio and Dissertation*

A candidate may submit for examination a portfolio together with an extended written text which, together but not necessarily separately, represent or embody new knowledge. A dissertation shall normally consist of 20,000 - 40,000 words excluding references, bibliography and appendices. A candidate who wishes to submit a Dissertation of lesser or greater length must seek the permission of his or her Supervision Committee.

3.2 *Thesis*

In the case of a research student wishing to submit for examination by thesis, whether or not the thesis will relate to a portfolio, the following conditions shall apply.

A candidate must submit a thesis which shall embody the results of the candidate's special study or research, and which shall be accompanied by a declaration signed by the candidate that the thesis has been composed by herself or himself.

The thesis shall be a minimum of 70,000 and a maximum of 100,000 words including references, bibliography and appendices in each case. A candidate who wishes to submit a thesis of greater or lesser length must seek prior permission of his or her Supervision Committee.

A candidate must also submit a written summary of 250-1,000 words. The summary must be an adequate and informative abstract of the work suitable for publication by Glasgow School of Art.

4. *Examination*

The portfolio or thesis shall be examined by a team of Examiners appointed by the Research Degrees Sub-Committee of the Research Committee of the Glasgow School of Art and approved by the Faculty of Arts Higher Degrees Committee and the Senate. The team of Examiners shall include at least one internal examiner appointed by the Senate and one external examiner appointed by the University Court on the recommendation of the Senate.

A candidate for the Degree of PhD must normally expect to be asked to present herself or himself for oral or other examination by the Examiners on the subject-matter of the portfolio or thesis.

A candidate must submit the portfolio or thesis for examination at the conclusion of the minimum period of full-time or part-time study. This period shall commence from the date of initial registration as a postgraduate student in the Glasgow School of Art. In the case of candidates who do not submit the portfolio or thesis at the conclusion of the minimum period of study, extension to the deadline may be granted in accordance with the following provisions:

- (i) the Research Degrees Sub-Committee of the Research Committee may, on consideration of a stated case from the candidate's Supervision Committee, approve an extension of one year full-time or two years part-time for full-time candidates, or two years part-time for part-time candidates;
- (ii) the Senate, in exceptional circumstances, may approve a further final extension of up to one year full-time or part-time.

A candidate who fails to meet the standard required for the award of the Degree of PhD may be permitted by the Examiners to present her/himself for re-examination on one occasion only and normally not later than three years from the date of her/first submission. In each case the examiners shall prescribe whether the candidate will be required to represent in the whole of the examination or in a specific component.

Alternatively, if the Examiners consider that the submission has not achieved the standard required for the award of the

Degree of PhD, but is of sufficient merit, they may recommend the candidate revise and resubmit the work for consideration for either the Degree of MLitt or MPhil as appropriate.

A candidate must provide a permanent record of her/his final portfolio or thesis submission to be deposited, along with any written commentary, dissertation or supporting documentation, in the Library of the Glasgow School of Art. In the case of portfolio submission, the permanent record may take the form of photographic or other visual processes, including non-erasable CD-ROM.

Schedule D: Degree of Doctor of Philosophy by Published Work at Glasgow School of Art

1. A person may be admitted as a candidate for the degree of Doctor of Philosophy by published work who:

- (a) (i) is a graduate of The Glasgow School of Art and whose date of submission of his/her thesis is at least five years from the date of his/her first graduation in the GSA; or
 - (ii) is a member of staff who has normally been employed for the full-time equivalent of at least five years and is paid through The Glasgow School of Art Finance Office or directly by a grant aided body approved by the Research Committee; or
 - (iii) is a former member of staff who has completed the full-time equivalent of a minimum of five years employment and was paid through The Glasgow School of Art Finance Office or directly by a grant aided body approved by the Research Committee, and who presents him or herself as a candidate for the degree within one calendar year of leaving The Glasgow School of Art's employment.
- (b) has not been enrolled as a Research Student in The Glasgow School of Art during the five years preceding the date of submission although the Research Degrees Sub Committee shall have the discretion to entertain applications from candidates who wish to transfer from the conventional PhD; and
- (c) does not hold any Doctoral Degree of The Glasgow School of Art or of any other University or College in the same subject area; and
- (d) normally has obtained the Certificate of Basic Information Technology Competence, and
- (e) has been found by the appropriate School to possess *prima facie* a qualification for the Degree.

The Research Sub Degrees Committee shall have the discretion to reduce the qualifying period to three years in the case of full-time members of academic staff in the employment of the University.

2. Subject to the provisions of Regulation 9 of Schedule D of this Resolution, candidates for the Degree of Doctor of Philosophy by published work shall present for the approval of Academic Council published work, which shall be a record of original research undertaken by the candidate, and shall be accompanied by a declaration signed by the candidate detailing the extent to which the research has been done and the work written by himself or herself.
3. For the purposes of Regulation 1(e) of Schedule D of this Resolution, every prospective candidate for the degree shall submit to the relevant School Research Sub Committee School two copies of the work to be examined together with copies of the following documentation each in triplicate: a curriculum vitae, and an critical overview of 2,000 - 5,000 words which justifies the intellectual significance of the submission. Should the submission comprise diverse publications, the critical overview should explain the relationship, between the works submitted, including any developments which have occurred between one piece and another.
4. The Head of the appropriate School shall nominate a member of staff to give advice to the candidate with regard to the preparation of his/her submission.
5. Preliminary assessment: Only if it is in the opinion of the School Research Sub Committee and of any adviser(s) whom it may consult that the work described in the abstract, in the explanatory essay and the publications are of the standard expected for the degree of Doctor of Philosophy by supervised research, will the full application be accepted for consideration.
6. If a full application is permitted by the Research Degrees Sub Committee, a candidate must then submit two copies of the work to be examined; both copies, if approved for the Degree, shall become the property of The Glasgow School of Art.
7. All materials submitted may include the following:

Art / artefacts, exhibited or otherwise presented within the public domain; design of exhibitions or events; editorships and curation; public commissions; media presentations including performance, installations and catwalk presentations; mass production; patents and registered designs; new devices including software; reports; other non-textual research output; authored books; authored chapters in books; authored articles in journals and papers and posters.

Written work is normally regarded as published only if it is traceable through ordinary catalogues, abstracts or citation notices and copies available to the general public. This will normally require the works to be publicly registered with an ISSN/ISBN number. Material which is unpublished or which has only a restricted circulation is not acceptable in whole or partial fulfillment of the requirements of this degree. Written submissions must be in English, however, the Research Degrees Sub Committee may approve the submission and defense of the work in a language other than English. Approval will normally be given only where the use of a language other than English is deemed appropriate by the appropriate School Research Sub Committee, and where the School Research Sub Committee is satisfied that appropriate examination

arrangements can be made.

8. Any work which is about to be included in a submission by the candidate for any other Higher Degree or Diploma either in The Glasgow School of Art or in any other institution, or which has already been included in a submission, whether successful or unsuccessful, for any other Higher Degree or Diploma in another institution is not admissible in whole or partial fulfillment of the requirements for the Degree of PhD by published work.
9. A candidate may submit work which has resulted from collaborative research and joint authored publications, provided the nature and extent of the candidate's contribution is specified in the accompanying explanatory essay. The candidate must seek confirmation of this from the co-authors or researchers and provide written evidence of such confirmation to the satisfaction of the Research Degrees Sub Committee.
10. The School Research Sub Committee may at its discretion disqualify any submission or part thereof. It is not a necessary requirement for this degree that the work submitted should be published within a defined period.
11. The thesis shall be examined by one or more examiners appointed by the Research Degrees Sub Committee from among the academic and appropriate qualified staff and by one or more external examiners appointed by the Academic Council on the recommendation of the Research Degrees Sub Committee. In the case of a submission by a member of staff or a former member of staff two of the examiners must be external.

The Board of Examiners shall normally require that the candidate present himself or herself for oral or other examination on the subject matter of the work and other material submitted for examination. The reports of the examiners shall be submitted to the appropriate School Research Sub Committee who shall if it thinks fit make a recommendation thereon to the Research Degrees Sub Committee. The candidate shall be approved for the Degree only if, in the opinion of the appropriate School and the examiners, the submitted work constitutes an examination of a field of study which makes a significant and original contribution to existing knowledge and is of an equivalent standard to a thesis which embodies the results of three years full-time supervised research (or equivalent) and for which a candidate was awarded the degree of PhD.

12. An unsuccessful submission for the degree of PhD by published work will not become eligible for the award of a Master's Degree or Diploma, in lieu of the degree of PhD, and nor will the unsuccessful submission become eligible for resubmission in its present form on a future occasion.
13. No candidate may apply for re-examination for the degree of PhD by published work until the lapse of at least three years from the date of the intimation of the decision of the Research Degrees Sub Committee regarding the previous submission. Such re-examination shall be regarded as a *de novo* application and not the resubmission of the initial application.

DOCTOR OF PHILOSOPHY IN EDUCATIONAL STUDIES

The Degree of Doctor of Philosophy in Educational Studies will be governed by Resolution of the University Court with provision that it will be offered within the Faculty of Education as an alternative to the traditional PhD by thesis alone in that it will involve taking taught courses and writing a thesis. Each student is assigned to a supervisor who will oversee the student's choice of courses and the work for the thesis.

Admission

The criteria for admission will be all of the following:

- (a) the normal criterion for admission to doctoral studies by the Faculties of the University, viz, a degree or equivalent qualification;
- (b) normally not less than two years' professional experience
- (c) an appropriate initial research topic.

Taught Courses

Students must take five taught courses in the first year of study (or first and second years for part-time students), as follows:

- (a) two research methodology courses
- (b) three taught courses from the list of Qualifying Courses for the MEd degree (except psychology courses).

The taught courses will be selected in consultation with the supervisor who will ensure that these are either courses which were not part of a previous qualification, or are subjects which were part of a previous qualification but which are now dealt with in greater depth, or are a mixture of both.

All students are required to take the five taught courses in their *first year of study* (first and second years in the case of part-time students) along with preliminary work on the thesis topic. In the event of unsatisfactory performance for the PhD, students may exit at the end of the first year (or second year for part-time students) with an MPhil degree, provided they fulfil the requirements for this degree within 6 months of the end of the minimum period for MPhil study.

The Thesis

Students will present the results of their research in a thesis of about 75,000 words in length. The thesis will be assessed in the same way, and by the same standards, as the traditional doctoral thesis. An oral examination is a normal requirement.

The final assessment is based on:

- (a) satisfactory performance in the two research methodology courses;

- (b) a pass in each of the three taught courses;
- (c) a satisfactory thesis.

Transfer to and from other Degrees

Students who are studying for the degree of MEd or the degree of MSc may be allowed to transfer to the traditional PhD or Doctoral Programme on application to the Higher Degrees Committee.

DOCTOR OF SCIENCE

The Degree of Doctor of Science is awarded under Resolution No. 378 of the University Court, which came into force on 24th June, 1993. The following are the relevant provisions of that Resolution.

1. The Degree of Doctor of Science (DSc) may be conferred by the University of Glasgow.
2. The following categories of persons may, after being found by the Faculties of Science Higher Degrees Committee to possess *prima facie* a qualification for the degree, be admitted as candidates for the Degree of Doctor of Science:
 - (a) A graduate of the University of Glasgow after the expiry of seven years from the date of his or her first graduation in the University of Glasgow.
 - (b) Any person who has held for a period or periods totalling at least four years such office or offices in the University of Glasgow as the University Court, on the recommendation of the *Senatus*, may approve; provided either that he or she is a graduate of not less than seven years' standing of a University likewise approved or that he or she has held for not less than seven years some other qualification specially recognised by the University Court, on the recommendation of the *Senatus*, as equivalent for this purpose.
 - (c) Any person who has carried out research work, in terms of the Ordinance or Resolution for the time being in force for the regulation of research, for at least five years in the University of Glasgow (or in a College affiliated thereto); provided always that he or she is a graduate of not less than seven years' standing of a University approved by the University Court, on the recommendation of the *Senatus*.
3. All candidates for the Degree of Doctor of Science shall present a thesis or a published memoir or work, which shall be a record of original research in relation to science undertaken by the candidate, and shall be accompanied by a declaration signed by him or her that the work has been done and the thesis composed by himself or herself. In the case of collaboration the candidate's individual contribution must be clearly defined. The thesis, or a major part of it, shall have been published either as a book or in periodicals of recognised standing, and shall be presented in such manner as the *Senatus* may by regulation prescribe.
4. The thesis shall be examined by one or more examiners appointed by the *Senatus* from among the Professors, Readers and Lecturers in the University, and by one or more additional examiners appointed by the University Court on the recommendation of the *Senatus*. The reports of the examiners shall be submitted independently to the Faculty of Science, who shall if they think fit make a recommendation thereon to the *Senatus*. The candidate shall be approved for the Degree only if, in the opinion of the Faculties of Science and of the examiners, the thesis constitutes an original, substantial and authoritative contribution to scientific knowledge.
5. The *Senatus* shall have power to make such regulations governing the conferment of the Degree as may be approved by the University Court.
6. The Degree of Doctor of Science shall not be conferred upon a person who has not satisfied the conditions hereinbefore set forth; provided always that the *Senatus* may, at its discretion, permit a candidate to offer himself or herself for the Degree under the regulations previously in force during a period not exceeding five years from the date on which this Resolution shall have come into operation; and provided always that it shall be in the power of the *Senatus* to confer the Degree *honoris causa* under such regulations as may be made by the Senate with the approval of the University Court.

Regulations

1. For the purpose of Section II of the Resolution, every prospective candidate for the Degree shall submit to the Faculties of Science a summary of his or her proposed thesis, together with a list of the publications that are to be included in the thesis. The summary should be no longer than one thousand words. Only if it is the opinion of the Faculties Higher Degrees Committee and of any adviser whom it may consult that:
 - (a) the work described properly falls into the area of science; and
 - (b) it is likely to be of the required standard
 will the candidate be considered to possess *prima facie* the necessary qualification.
2. Each qualified candidate must submit two copies of his or her thesis: both copies, if approved for the Degree, shall become the property of the University.
3. In addition to making the declaration required under Section III of the Resolution, the candidate must identify any material in the DSc submission which has been, or is about to be, included in a submission by the candidate for any other Higher Degree or Diploma in the University of Glasgow or for a Higher Degree or Diploma in another Institution; and he or she must lodge, together with his or her DSc submission, either a copy of such other submission (if available) or a precise statement of its

scope. Material which has been included in a successful submission for another Higher Degree or Diploma will not be taken into account in assessing a submission for the Degree of DSc of the University of Glasgow.

4. Before acceptance for adjudication, a thesis, or an important part of it, shall have been published either as a book or in periodicals of recognised standing. The thesis may be presented in the form of a single memoir or writing containing a connected account of the candidate's research or work. Published papers under various headings may be submitted in lieu of a single thesis provided that they are accompanied by a statement showing the relationship between the various studies and placing the whole work critically into perspective with the general state of knowledge in the field of investigation to which the candidate's researches are related.
5. Material other than books must be bound in a volume in cloth with stiff boards. The layout and binding of the thesis should generally conform to the *Recommendations for the presentation of theses and dissertations* published by the British Standards Institution (BS4821:1990), a summary of which is available in the University Library or may be obtained from the Clerk to the Faculties of Science. The thesis must include a summary (500-1,000 words), which must be an adequate and informative abstract of the work. The summary should be bound with the thesis where possible; and three separate copies of the summary should also be provided.
6. No candidate may apply for re-examination for the Degree of DSc until the elapse of at least three years from the date of the previous submission.

DOCTOR OF SCIENCE IN ENGINEERING

The Degree of Doctor of Science in Engineering is awarded under Ordinance 462 (Glasgow No. 128), which came into force in September, 1964. The following are the relevant provisions of that Ordinance.

1. The Degree of Doctor of Science in Engineering (DSc(Eng)) may be conferred by the University of Glasgow.
2. The following categories of persons may be admitted as candidates for the Degree of Doctor of Science in Engineering:
 - (a) A graduate of the University of Glasgow after the expiry of seven years from the date of his first graduation in the University of Glasgow.
 - (b) Any person who has held for a period or periods totalling at least four years such office or offices in the University of Glasgow as the University Court, on the recommendation of the *Senatus*, may approve; provided either that he is a graduate of not less than seven years' standing of a University likewise approved or that he has held for not less than seven years some other qualification specially recognised by the University Court, on the recommendation of the *Senatus*, as equivalent for this purpose.
 - (c) Any person who has carried out research work, in terms of the Ordinance for the time being in force for the regulation of research, for at least five years in the University of Glasgow (or in a College affiliated thereto); provided always that he is a graduate of not less than seven years' standing of a University approved by the University Court, on the recommendation of the *Senatus*.
3. All candidates for the Degree of Doctor of Science in Engineering shall present a thesis or a published memoir of work, which shall be a record of original work in relation to engineering science undertaken by the candidate and shall be accompanied by a declaration signed by him that the work has been done and the thesis composed by himself. In the case of collaboration the candidate's individual contribution must be clearly defined. The thesis, or a major part of it, shall have been published either as a book or in periodicals of recognised standing, and shall be presented in such manner as the *Senatus* may by regulation prescribe.
4. The thesis shall be examined by one or more examiners appointed by the *Senatus* from among the Professors, Readers and Lecturers in the University, and by one or more additional examiners appointed by the University Court on the recommendation of the *Senatus*. The reports of the Examiners shall be submitted independently to the Faculty of Engineering, who shall if they think fit make a recommendation thereon to the *Senatus*. The candidate shall be approved for the Degree only if, in the opinion of the Faculty of Engineering and of the examiners, the thesis constitutes an original and substantial contribution to engineering science.
5. The *Senatus* shall have power to make such regulations governing the conferment of the Degree as may be approved by the University Court.
6. The Degree of Doctor of Science in Engineering shall not be conferred upon a person who has not satisfied the conditions hereinbefore set forth; provided always that the *Senatus* may, at its discretion, permit a candidate to offer himself for the Degree under the regulations previously in force during a period not exceeding five years from the date on which this Ordinance shall have come into operation.

DSc(Eng) - Regulations

1. Candidates who have been awarded a Certificate of Proficiency in the subjects of an Honours Group will be regarded as having 'passed the Examination in an Honours Group' for the purpose of proceeding to the Degree of DSc.
2. Before acceptance of candidature for the degree, applicants must supply to the Clerk to the Faculty of Engineering, two copies of an adequate and informative abstract of the work around 1000 words along with a list of the publications that will support the thesis. The Faculty of Engineering may decline to proceed to examine the candidate if the summary and list of supporting publications does not in its opinion, show evidence of sufficient originality.

3. Each candidate must submit two copies of his or her thesis: both copies, if approved for the Degree, shall become the property of the University.
4. In addition to making the declaration required under Section III of the Ordinance a candidate must, if the whole or any part of the subject-matter of the thesis submitted by him or her has been included in a thesis already approved for a degree in this or another University, make a declaration to that effect, and must lodge together with his or her thesis either a copy of such previously approved thesis or a precise statement of its scope.
5. Before acceptance for adjudication, a thesis, or an important part of it, shall have been published either as a book or in periodicals of recognised standing. The thesis may be presented in the form of a single memoir or writing containing a connected account of the candidate's research or work. Published papers under various headings may be submitted in lieu of a single thesis provided that they are accompanied by a statement showing the relationship between the various studies and placing the whole work critically into perspective with the general state of knowledge in the field of investigation to which the candidate's researches are related. The thesis should also be accompanied by two copies of a separate summary (500-1,000 words) which must be an adequate and informative abstract of the work, suitable for publication by the University.

DOCTOR OF SCIENCE IN MEDICINE

The Degree of Doctor of Science in Medicine (DSc in Medicine) will be governed by Resolution of the University Court with provision that:

1. The Degree of Doctor of Science in Medicine may be conferred by the University of Glasgow
2. The following categories of persons may, after being found by the Faculty of Medicine to possess *prima facie* a qualification for the degree, be admitted as candidates for the Degree of Doctor of Science in Medicine:
 - (a) A graduate of the University of Glasgow after the expiry of seven years from the date of his or her first graduation in the University of Glasgow.
 - (b) Any person who has held for a period or periods totalling at least four years such office or offices in the University of Glasgow as the University Court, on the recommendation of the *Senatus*, may approve; provided either that he or she is a graduate of not less than seven years' standing of a University likewise approved or that he or she has held for not less than seven years some other qualification specially recognised by the University Court, on the recommendation of the *Senatus*, as equivalent for this purpose.
 - (c) Any person who has carried out research work, in terms of the Ordinance or Resolution for the time being in force for the regulation of research, for at least five years in the University of Glasgow (or in a College affiliated thereto); provided always that he or she is a graduate of not less than seven years' standing of a University approved by the University Court, on the recommendation of the *Senatus*.
3. All candidates for the Degree of Doctor of Science in Medicine shall present a thesis or a published memoir or work, which shall be a record of original research in relation to science undertaken by the candidate, and shall be accompanied by a declaration signed by him or her that the work has been done and the thesis composed by himself or herself. In the case of collaboration the candidate's individual contribution must be clearly defined. The thesis, or a major part of it, shall have been published either as a book or in periodicals of recognised standing, and shall be presented in such manner as the *Senatus* may by regulation prescribe.
4. The thesis shall be examined by one or more examiners appointed by the *Senatus* from among the Professors, Readers and Lecturers in the University, and by one or more additional examiners appointed by the University Court on the recommendation of the *Senatus*. The reports of the examiners shall be submitted independently to the Faculty of Medicine, who shall if they think fit make a recommendation thereon to the *Senatus*. The candidate shall be approved for the Degree only if, in the opinion of the Faculty of Medicine and of the examiners, the thesis constitutes an original, substantial and authoritative contribution to scientific knowledge.
5. The *Senatus* shall have power to make such regulations governing the conferment of the Degree as may be approved by the University Court.
6. The Degree of Doctor of Science in Medicine shall not be conferred upon a person who has not satisfied the conditions hereinbefore set forth; provided always that it shall be in the power of the *Senatus* to confer the Degree *honoris causa* under such regulations as may be made by the *Senatus* with the approval of the University Court.

Regulations

1. For the purpose of Section 2 of the Resolution, every prospective candidate for the Degree shall submit to the Faculty of Medicine a summary of his or her proposed thesis, together with a list of the publications that are to be included in the thesis. The summary should be no longer than one thousand words. Only if it is the opinion of the Faculty and of any adviser whom it may consult that:
 - (a) the work described properly falls into the area of medical science; and
 - (b) it is likely to be of the required standard will the candidate be considered to possess *prima facie* the necessary qualification.
2. Each qualified candidate must submit two copies of his or her thesis: both copies, if approved for the Degree, shall become the property of the University.

3. In addition to making the declaration required under Section 3 of the Resolution, the candidate must identify any material in the DSc submission which has been, or is about to be, included in a submission by the candidate for any other Higher Degree or Diploma in the University of Glasgow or for a Higher Degree or Diploma in another Institution; and he or she must lodge, together with his or her DSc submission, either a copy of such other submission (if available) or a precise statement of its scope. Material which has been included in a successful submission for another Higher Degree or Diploma will not be taken into account in assessing a submission for the Degree of DSc in Medicine of the University of Glasgow.
4. Before acceptance for adjudication, a thesis, or an important part of it, shall have been published either as a book or in periodicals of recognised standing. The thesis may be presented in the form of a single memoir or writing containing a connected account of the candidate's research or work. Published papers under various headings may be submitted in lieu of a single thesis provided that they are accompanied by a statement showing the relationship between the various studies and placing the whole work critically into perspective with the general state of knowledge in the field of investigation to which the candidate's researches are related.
5. Material other than books must be bound in a volume in cloth with stiff boards. The layout and binding of the thesis should generally conform to the *Recommendations for the presentation of theses and dissertations* published by the British Standards Institution (BS4821:1990), a summary of which is available in the University Library or may be obtained from the Clerk to the Faculty of Medicine. The thesis must include a summary (500-1,000 words), which must be an adequate and informative abstract of the work. The summary should be bound with the thesis where possible; and three separate copies of the summary should also be provided.
6. No candidate may apply for re-examination for the Degree of DSc in Medicine until the elapse of at least three years from the date of the previous submission.

DOCTOR OF VETERINARY MEDICINE & DOCTOR OF VETERINARY SURGERY

The Degrees of Doctor of Veterinary Medicine (DVM) and Doctor of Veterinary Surgery (DVS) will be governed by Resolutions of the University Court with provision that:

- 1 The Degrees of Doctor of Veterinary Medicine (DVM) and Doctor of Veterinary Surgery (DVS) may be conferred by the University of Glasgow.
- 2 (a) A candidate for the Degree of Doctor of Veterinary Medicine, or for the Degree of Doctor of Veterinary Surgery, shall be a Bachelor of Veterinary Medicine and Surgery of the University, or a member of the staff of the Veterinary School and Hospital being a registered veterinary surgeon and holding such qualification as the University Court, on the recommendation of the *Senatus*, may recognise for the purpose, and shall have been engaged for at least four years either in scientific work bearing directly on his profession or in the practice of veterinary medicine or veterinary surgery respectively.
- (b) A candidate for the Degree of Doctor of Veterinary Medicine, or for the Degree of Doctor of Veterinary Surgery, may be required to pass an examination in such a department or departments of veterinary science or practice as the *Senatus* may prescribe.
- (c) A candidate for the Degree of Doctor of Veterinary Medicine, or for the Degree of Doctor of Veterinary Surgery, shall submit for the approval of the Faculty of Veterinary Medicine a thesis on any branch of knowledge comprised in or related to the curriculum for the Degree of Bachelor of Veterinary Medicine and Surgery, and may be required to present himself for oral or other examination in the subject-matter thereof; provided that a candidate for the Degree of Doctor of Veterinary Medicine shall not submit a thesis on a subject which is exclusively surgical and that a candidate for the Degree of Doctor of Veterinary Surgery shall not submit a thesis on a subject which is exclusively medical.
- (d) The thesis shall be presented in accordance with the following regulations.

Regulations

The following extracts from the University regulations cover the principal points affecting the award of the degree:

1. Two copies of each thesis are required. Theses must be typewritten and conform to the British Standard Institution's *Recommendations for the presentation of theses* (BS4821:1990). The title of the thesis and the name of the author must be printed in block letters on the outside binding. Theses should be lodged with the Clerk of the Faculty of Veterinary Medicine.
Two copies of a separate summary (500-1,000 words) giving a reasoned and informative abstract of the work must be submitted with the thesis.
2. A thesis will not be approved unless it gives evidence of original observation and makes a significant new contribution to knowledge. If the thesis deals with the researches of others, it must give a full statement of the literature of its subject with accurate references and critical investigation and an assessment of the views or facts cited; mere compilations will in no case be accepted. The thesis will not normally be acceptable if it contains material from or is merely a continuation of subject matter of a thesis already approved for another degree.

3. A thesis must be a dissertation written for the purpose. The results of original observation already published in veterinary or scientific journals or in the transactions of learned societies or otherwise may be accepted in place of such a dissertation. Published papers submitted in lieu of a dissertation must be related and accompanied by a statement, preferably in the form of an introductory paper, showing the relationship between the various studies and placing the whole work critically into perspective with the general state of knowledge in the field of investigation to which the candidate's researches are related.
4. A declaration signed by the candidate that the work has been done and the thesis composed by himself or herself must be submitted with the thesis. Where material based on work undertaken in collaboration with others is included in the thesis a separate statement clearly defining the extent of his or her personal contribution must also be submitted by the candidate. If the whole or any part of the subject matter of the thesis has been included in a thesis already approved for a degree in this or another University, the candidate must make a declaration to this effect and must lodge with his or her thesis a copy of such previously approved thesis or a precise statement of its scope.
5.
 - (a) The examiners for the Degree shall be drawn from the Professors, Readers and Lecturers in the University, together with such additional Examiners as the Court shall appoint, on the recommendation of the Senate.
 - (b) A thesis of exceptional merit approved for the Degree may be deemed worthy of 'Honours'.
6. If the thesis is approved, the copies submitted by the candidate shall become the property of the University.
7. In the case of a thesis not approved for the Degree, the Higher Degrees Committee, on the recommendation of the Examiner, may permit a candidate to resubmit the thesis on one occasion only, and no later than one year from the date of the original submission.
